The Routledge History of Food Carol Helstosky, 2014-10-03. The history of food is one of the fastest growing areas of historical investigation, incorporating methods and theories from cultural, social and women's history while forging a unique perspective on the past. The Routledge History of Food takes a global approach to this topic, focusing on the period from 1500 to the present day. Arranged chronologically, this title contains 17 originally commissioned chapters by experts in food history or related topics. Each chapter focuses on a particular theme, idea or issue in the history of food. The case studies discussed in these essays illuminate the more general trends of the period, providing the reader with insight into the large-scale and dramatic changes in food history through an understanding of how these developments sprang from a specific geographic and historical context. Examining the history of economic, technological and cultural interactions between cultures and charting the corresponding developments in food history, The Routledge History of Food challenges readers' assumptions about what and how people have eaten, bringing fresh perspectives to well-known historical developments. It is the perfect guide for all students of social and cultural history.

Tourism Marketing and Management in the Caribbean (RLE Marketing) Dennis J. Gayle, Jonathan N. Goodrich, 2014-09-15. The Caribbean now has one of the largest regional tourism industries in the world, amongst developing countries. When originally published, this volume was the first to provide a comprehensive discussion of tourism in this part of the world. It begins with an overview of the industry and then examines aspects of tourism marketing and management on a region-by-region basis, covering the Bahamas, Jamaica, Barbados, St. Lucia, Trinidad and Tobago, Guyana and Cuba. Detailed analysis follows of sectors within the industry, such as heritage and health care, with central issues such as the intense competition between the cruise ship and hotel industries being highlighted. Discussion of the impact of US and EU policies on Caribbean tourism provides an important international perspective. Throughout, the focus is on the contribution of the regional tourism industry to Caribbean economic growth and development.

The McDonaldization of Society George Ritzer, 2013. George Ritzer's *McDonaldization of Society* now celebrating its 20th anniversary, continues to stand as one of the pillars of modern-day sociological thought. By linking theory to 21st-century culture, this book resonates with students in a way that few other books do, opening their eyes to many current issues, especially in consumption and globalization. As in previous editions, the book has been updated and it offers new discussions of, among others, In-N-Out Burger and Pret-A-Manger as possible antitheses of McDonaldization. The biggest

change however is that the book has been radically streamlined to offer an even clearer articulation of the now famous McDonaldization thesis Ray & Joan Lisa Napoli,2016-11-15 The movie The Founder starring Michael Keaton focused the spotlight on Ray Kroc the man who amassed a fortune as the chairman of McDonald s But what about his wife Joan the woman who became famous for giving away his fortune Lisa Napoli tells the fascinating story behind the historic couple Ray Joan is a quintessentially American tale of corporate intrigue and private passion a struggling Mad Men era salesman with a vision for a fast food franchise that would become one of the world s most enduring brands and a beautiful woman willing to risk her marriage and her reputation to promote controversial causes that touched her deeply Ray Kroc was peddling franchises around the country for a fledgling hamburger stand in the 1950s McDonald s it was called when he entered a St Paul supper club and encountered a beautiful young piano player who would change his life forever The attraction between Ray and Joan was instantaneous and instantly problematic Yet even the fact that both were married to other people couldn t derail their roller coaster of a romance To the outside world Ray and Joan were happy enormously rich and giving But privately Joan was growing troubled over Ray s temper and dark secret something she was reluctant to publicly reveal Those close to them compared their relationship to that of Elizabeth Taylor and Richard Burton And yet this volatility paved the way for Joan s transformation into one of the greatest philanthropists of our time A force in the peace movement she produced activist films books and music and ultimately gave away billions of dollars including landmark gifts to the Salvation Army and NPR Together the two stories form a compelling portrait of the twentieth century a story of big business big love and big giving *The National Road* Karl B. Raitz,George F. Thompson,1996 From there two routes went west toward the Mississippi River one to East St Louis and the other to Alton Illinois Today the Road s path is followed for the most part by U S 40 and I 70
