Safety Net Programs And Poverty Reduction Lessons From Cross Country Experience:

Safety Net Programs and Poverty Reduction K. Subbarao, 1997 The need for social safety nets has become a key component of poverty reduction strategies Over the past three decades several developing countries have launched a variety of programs including cash transfers subsidies in kind public works and income generation programs However there is little guidance on appropriate program design and few studies have synthesized the lessons from widely differing country experiences This report fills that gap It reviews the conceptual issues in the choice of programs synthesizes cross country experience and analyzes how country and region specific constraints can explain why different approaches are successful in different countries

Public Works as a Safety Net Kalanidhi Subbarao, Carlo del Ninno, Colin Andrews, Claudia Rodríguez-Alas, 2012-12-11 A review of the conceptual underpinnings and operational elements of public works programs around the world drawing from a rich evidence base and analyzing previously unassimilated data to fill a gap in knowledge related to public works programs now so popular

Rural Development Strategies for Poverty Reduction and Environmental Protection in Sub-Saharan Africa Kevin M. Cleaver, 1997-01-01 Content Description Includes bibliographical references p

Public Finance for Poverty Reduction Quentin Wodon, Blanca Moreno-Dodson, 2007-11-06 This book presents some basic theoretical concepts of public finance with a particular emphasis on its impact poverty reduction Eight case studies from Latin America and Africa illustrate how these concepts are applied in practice and the implementation issues that emerge

Poverty Reduction in the 1990s Alison Evans, 2000-01-01 The World Development Report 1990 Poverty provided the foundation for the World Bank strategy to help achieve global poverty reduction This report is a contribution to the strategy review process It examines the implementation of the 1990 strategy maps changes against assessment of Bank performance at both the country and the project level and assesses the relevance of key elements of the 1990 strategy in light of new data and shifts in the development assistance environment The report concludes that the 1990 strategy remains relevant but needs to be combined with a more comprehensive approach Lessons from experience confirm the importance of a holistic approach to reach the poor more effectively This includes a focus on local level institutions and building on existing institutional frameworks wherever possible and on working across sectors for maximum impact The 1990 strategy and the operational guidelines based on it have failed to generate a clear emphasis on measuring and monitoring results A critical test of the Bank's evolving poverty strategy will be the design of a credible framework for measuring the results of the Bank's country assistance and helping to build local capacity for monitoring the impact of poverty reduction programmes The report is in English with the foreword and the executive summary given in English Spanish and French

Conditional Cash Transfers Ariel Fiszbein, Norbert R. Schady, 2009-02-09 Conditional Cash Transfer CCT programs aim to reduce poverty by making welfare programs conditional upon the receivers actions That is the government only transfers the money to persons who meet certain criteria These criteria may include enrolling children into

public schools getting regular check ups at the doctor s office receiving vaccinations or the like They have been hailed as a way of reducing inequality and helping households break out of a vicious cycle whereby poverty is transmitted from one generation to another Do these and other claims make sense Are they supported by the available empirical evidence This volume seeks to answer these and other related questions Specifically it lays out a conceptual framework for thinking about the economic rationale for CCTs it reviews the very rich evidence that has accumulated on CCTs it discusses how the conceptual framework and the evidence on impacts should inform the design of CCT programs in practice and it discusses how CCTs fit in the context of broader social policies The authors show that there is considerable evidence that CCTs have improved the lives of poor people and argue that conditional cash transfers have been an effective way of redistributing income to the poor They also recognize that even the best designed and managed CCT cannot fulfill all of the needs of a comprehensive social protection system They therefore need to be complemented with other interventions such as workfare or employment programs and social pensions

Transforming the Rural Nonfarm Economy Steven Haggblade, Peter B. R. Hazell, Thomas Reardon,2007-11-16 Contrary to conventional wisdom that equates rural economies with agriculture rural residents in developing countries often rely heavily on activities other than farming for their income Indeed nonfarm work accounts for between one third and one half of rural incomes in the developing world In recent years accelerating globalization increasing competition from large businesses expanding urban markets for rural goods and services and greater availability of information and communication technology have combined to expose rural nonfarm businesses to new opportunities as well as new risks By examining these rapid changes in the rural nonfarm economy international experts explore how the rural nonfarm economy can contribute to overall economic growth in developing countries and how the poor can participate in this rapidly evolving segment of the economy The authors review an array of recent studies of the rural nonfarm economy in order to summarize existing empirical evidence explore policy implications and identify future research priorities They examine the varied scale structure and composition of the rural

nonfarm economy as well as its relationship with agricultural and urban enterprises And they address key questions about the role of public intervention in the rural nonfarm economy and how the rural poor can participate in and navigate the rapid transition underway in rural areas The contributors offer new insights to specialists in rural development and to others interested in overall economic development

Ayres,2000 Although the progress toward poverty reduction remains sluggish other dimensions of social welfare in the Latin American and Caribbean LAC region show signs of improvement Adult literacy and school enrollment rates life expectancy at birth and the amount of access to safe water are increasing Nutrition indicators are also improving However other factors demonstrate that many problems persist especially

WTO and Direct Taxation Michael Lang, Judith Herdin, Ines Hofbauer, 2005-01-01 WTO Law and Direct Taxation are linked in numerous ways The WTO Agreements thereof especially the GATT and GATS Agreements contain several explicit provisions on the subject of direct taxes or even on its delimitation from Tax Treaty Law To some extent the scope of application of WTO Law has been broadened by case law to comprise also direct taxes This entails overlappings particularly with regard to the law of subsidies prohibitions of discrimination and most favoured nation obligations This book highlights increasingly relevant interdependencies between WTO Law and Direct Taxation from the viewpoint of 21 States Special emphasis is placed on the

conformity of national taxes on profits with WTO Law as well as on specifics of interpretation in several Member States 21 National Reports from nearly all EU countries as well as Colombia Israel New Zealand Norway and the USA dealt with this topic and were compiled and published in this volume Additionally a General Report prepared by Servatius van Thiel summarises the results of the National Reports Moreover experts in this field joining the Conference among them Reuven Avi Yonah Michael Lennard and Raymond Luja have volunteered contributions dealing with specific problems of WTO and Direct Taxation **The Global Rise of Social Cash Transfers** Lutz Leisering, 2019 This volume analyses the phenomenon of social cash transfers in the global South providing a definitive and comprehensive overview of current practice

International Poverty Law Lucy Williams, 2013-07-04 This book seeks to advance the emerging field of international poverty law While law and development discourse has dealt with international poverty advocates of poverty reduction customarily operate within a nation state context The contributors to this volume while largely although not exclusively relying on human rights discourse and United Nations International Labour Organization and World Trade Organization initiatives as their primary legal sources begin to position international poverty law as a legitimate field for transnational multidisciplinary legal research and dialogue While critiquing both legal theory and current policy they nevertheless open up a constructive prospect of specific arenas in which the development of international poverty law can contribute to addressing poverty reduction The opening chapters of this volume provide a framework within which to position the future theoretical development of international poverty law The rest of the book explores specific human rights initiatives that address particular aspects of poverty These include an overview of human rights conventions and how they can be connected to international poverty law measures required to counter the tendency of intellectual property law as applied to biological products and processes to undermine food security the right to food as framed in United Nations development documents the potential role that voluntary codes of conduct currently being adopted by some transnational corporations might play in poverty reduction and the startlingly important development in the new South Africa of an alternative vision of constitutional law that takes account of international human rights instruments in moving towards rendering social and economic rights justifiable
