Guide to African Political and Economic Development Guy Arnold,2014-01-27 This guide is intended to show how inter African relations work There are many continental institutions that between them create a framework within which African states can solve their problems and assist one another with regional economic development peacekeeping or political cooperation The guide provides an historical setting for the institutions that are examined and also gives examples of how

they operate in practice **Protecting the rights of minorities in Africa: A guide for human rights activists and civil society organizations** Ibrahima Kane, 2008-12-04 Unlike the International Covenant on Civil and Political Rights the African Charter on Human and Peoples Rights hereinafter referred to as the African Charter and the subsequent African human rights treaties do not consider minorities as a legal category recognized in African human rights law In a continent where most of the armed conflicts between 1963 and 1998 which affected more than 60 per cent of the population were due to severe identity or religious differences this seems hardly understandable It is all the more incomprehensible if we consider that the regional human rights protection system set up thanks to the activism of President L opold S dar Senghor is aimed mainly at addressing Africa s real needs Is this omission the result of a deliberate attempt by those who drafted these various conventions to ignore the existence of minorities completely or does it reflect the realistic approach which in the late 1970s required a common legal denominator to be established among African countries prior to a political economic and social evolution that could pave the way for more effective protection of collective rights taking place This second option is the one which seems to have prevailed because as emphasized by Chairman K ba Mbaye regarding the African Charter the writers of the Charter were satisfied with making vague hypotheses with regard to several aspects This approach was intended to avoid frightening off the representatives of the States and to give way to a dynamic action by the African Commission on Human and Peoples Rights This implied that minorities could by taking bold initiatives assert before the African Commission on Human and Peoples Rights ACHPR a right to the legal status recognized to certain groups i e that of oppressed people However the democratization process the African States went through in the late 1990s and in particular the advent of the African Union which believes the development of African societies should enable Africans to assume their identity and condition instead of having to be burdened by them opened a new era for minorities as the African States clearly committed themselves to promoting peace safety and stability within the continent Constitutive Act of the African Union Article 3 f and to ensuring that their actions are always based on such essential principles as respect for the sacrosanct nature of human life Constitutive Act Article 4 o respect for democratic principles human rights the rule of law and good governance Article 4 m the promotion of equality between men and women Article 4 l and the condemnation and rejection of impunity The new environment not only creates the conditions for effective consideration of the situation of minorities by African human rights law but also more importantly offers the possibility to all those who are directly interested in the issue to display more creativity and imagination in using the current regional legislation in order to promote and protect the rights of minorities in Africa This guide is precisely designed to provide all those fighting for the recognition of the inalienable rights of minorities including organizations created by and for minorities human rights activists and lawyers with legal tools that can enable them to cope with the numerous violations of their rights that they encounter on a daily basis It is also designed to be an effective instrument in pleading the cause of human rights before African regional or sub regional political institutions put in

place to promote human rights in general and of minorities in particular What is a minority What are the rights minorities can claim in the absence of a clear legal definition of minority within African States What are the regional or sub regional bodies that can be turned to with regard to the implementation of or advocacy for these rights How can the organizations promoting or defending the rights of minorities usefully employ these bodies to promote and defend their cause How to ensure that the decisions taken by regional jurisdictions and political authorities are effectively implemented This guide tries to provide useful insights into these questions The ambition of this guide is to be not only a useful instrument helping in the promotion and defence of the rights of minorities but also an invaluable tool in the training of African activists on the law regarding minorities in Africa Finally MRG and its partners hope this guide will lay the foundations for a productive debate on the protection of the rights of minorities in Africa and will pave the way for the imminent elaboration of a treaty which would consider the specific rights of the legal category of minorities Sahara Handbook Simon Glen,1990 *Your Guide to the 2017 Total Solar Eclipse* Michael E.
