[Between Sky and Sea](#) Herz Bergner, 2010-06-07 A group of Jewish refugees are thrown together on board a dilapidated freighter charting a course for Australia Fleeing terrible scenes of destruction in Europe they are bound by a deep sense of loss and the uncertainty of their fate As the ship lists inner conflicts burst to the surface and romance revenge guilt and desperation fill the craft There is poignancy drama and an abiding strength of humanity as the passengers lives play out in this unbearable hinterland between sky and sea Now more than sixty years since its publication in 1946 *Between Sky and Sea* has been resurrected to take its place among Australia's major works of diaspora fiction Arnold Zable's introduction highlights the chilling parallels between Bergner's tale and the sinking of the SIEV X off the Australian coast giving the reader pause to reflect on the unchanging plight of asylum seekers throughout history and across the globe Herz Bergner was born in Poland in 1907 and migrated to Australia with his wife in 1938 His first book *The New House* published in 1941 was a collection of short stories about immigrants adapting to life in a new land Herz Bergner died in 1970 This novel resurrected from its foreign country of the past might stand as an epitaph for the 353 men women and children drowned in 2001 when the SIEV X sank while trying to reach Australia At the very least *Between Sky and Sea* should be required reading for refugee policymakers today Canberra Times Beautifully written with extraordinary insight into the frailties of humanity Bergner's tale is as much a version of the

past as it is a vision of our present We can only hope that publishers such as Text continue to salvage the treasury of migrant literature that is no longer in print Australian Bergner s astute observation of life shows in his sharp psychological dissection of this human cargo and his unflinching assessment of people s flaws Bergner writes with such compassion that a reader becomes infected by his characters yearnings Herald Sun There s poignancy drama and an abiding strength of humanity in this story Australian Jewish News

Fire From the Sky Robert C. Stem,2020-01-31 By late 1944 the war in the Pacific had turned decisively against the Japanese and overwhelming Allied forces began to close in on the home islands At this point Japan unveiled a terrifying new tactic the suicide attack or Kamikaze named after the Divine Wind which had once before in medieval times saved Japan from invasion Intentionally crashing bomb laden aircraft into Allied warships these piloted guided missiles at first seemed unstoppable calling into question the naval strategy on which the whole war effort was based This book looks at the origins of the campaign at its strategic goals the organization of the Japanese special attack forces and the culture that made suicide not just acceptable but honourable Inevitably much mythology has grown up around the subject and the book attempts to sort the wheat from the chaff One story that does stand up is the reported massive stock piling of kamikaze aircraft for use against any Allied invasion of the home islands if the atomic bombs had not forced Japans surrender However its principal focus is on the experience of those in the Allied fleets on the receiving end of this peculiarly alien and unnerving weapon how they learnt to endure and eventually counter a threat whose potential was over estimated by both sides In this respect it has a very modern resonance
