Saint Augustine of Hippo Miles Hollingworth, 2013 *Saint Augustine of Hippo* is a major revisionist treatment of Augustine's life and thought It has long been assumed and not without good reason that the main lines of Augustine's leading ideas have been more or less fixed since his death That insofar as we should be aware of him in the twenty first century he is a figure described by his times In a stimulating and provocative reinterpretation of Augustine's ideas and their position in the Western intellectual tradition Miles Hollingworth's work carefully positions itself vis a vis the latest scholarship drawing its inspiration from the actual narrative of Augustine's life And by this means it returns a cardinal but long neglected fact to the centre of Augustinian studies the fact that there is a direct line from Augustine's own early experiences of life to his later commentaries on it That his new Christianity did not obliterate what had gone before in blunt assaults of dogma and doctrine but actually caught a subtle and reflective mind at the point when it was despairing of finding the truth Christianity vindicated a disquiet that Augustine had been feeling all along he felt that it alone had spoken to his serious rage about man abandoned to the world and dislocated from all real understanding by haunting glimpses of the Divine This book is radical enough to be considered a major new treatment of Augustine on all fronts it achieves its purpose by privileging a genuinely neglected element in his writings and in so doing it introduces us to Augustine as he emerges from the unique circumstances of his life yet uncovering the ironies and inconsistencies that we might just as well find in our own lives
