Saint Jean de la Croix et le problème de l'expérience mystique Jean Baruzi, 1999 **Saint Jean de la Croix et le problème de l'expérience mystique** Jean Baruzzi, 2011 Saint Jean de la Croix et le problème de l'expérience mystique Jean Baruzi, 1924 **Saint Jean de la Croix et la problème de l'expérience mystique** Jean Baruzi, 1931 **Saint Jean de la Croix Et Le Problème de L'expérience Mystique Par Jean Baruzi** Jean Baruzi, **Saint Jean de la Croix et le problème de l'expérience mystique** Jean Baruzi, 1931 *Saint Jean de la Croix et le problème de l'expérience mystique. Thèse pour le Doctorat ès Lettres, etc* Jean BARUZI, 1924 *Thought and Poetic Structure in San Juan de la Cruz's Symbol of Night* N. Grace Aaron, 2005

Thought and Poetic Structure in San Juan de la Cruz's Symbol of Night is a comprehensive appraisal of the traditional critical perspectives of mysticism philosophical theological literary and psychological Examining the a priori limitations of these approaches the book presents an original definition of the symbol as an integral whole of experience and expression and concludes that night is the form the organizing principle of spiritual life

Mysticism in the French Tradition Louise Nelstrop, Bradley B. Onishi, 2016-03-09 In the nineteenth and early twentieth centuries secular French scholars started re engaging with religious ideas particularly mystical ones *Mysticism in the French Tradition* introduces key philosophical undercurrents and trajectories in French thought that underpin and arise from this engagement as well as considering earlier French contributions to the development of mysticism Filling a gap in the literature the book offers critical reflections on French scholarship in terms of its engagement with its mystical and apophatic dimensions A multiplicity of factors converge to shape these encounters with mystical theology feminist devotional and philosophical treatments as well as literary historical and artistic approaches The essays draw these into conversation Bringing together an international and interdisciplinary range of contributions from both new and established scholars this book provides access to the melting pot out of which the mystical tradition in France erupted in the twenty first century and from which it continues to challenge theology today

John of the Cross Sam Hole, 2020-11-19 Through the dark night of the soul to the depiction of the erotically charged union of the soul and God the poetry and prose works of the Spanish friar John of the Cross 1542 1591 offer a striking account of the transformation of the individual in the course of the Christian life John of the Cross *Desire Transformation and Selfhood* argues that these writings are animated by John's own creative and subtly conceptualized notion of erotic desire John's understanding of desire has the potential to enrich recent theological discussion of the subject but it has been curiously neglected in past scholarship To correct this lacuna this study undertakes a detailed historical analysis in three parts Firstly it attends to the patristic medieval and sixteenth century Spanish influences on John's writings showing how John reworks a long tradition of biblical Christian and Platonic reflection on the concept Secondly it traces the importance of desire through John's writings demonstrating how he develops the theme through his poetry his anthropology of the soul and his account of the spiritual ascent Thirdly it explores the reception of his writings in the

twentieth century demonstrating how particular modern philosophical and theological commitments have prevented scholars from recognising the rich and distinctive shape of John's theological vision John's account of the transformation of the self with its hopeful vision of the graced transformation of the soul's desires has significance beyond the constrained modern categories of systematic theology Christian spirituality pastoral theology and mysticism it is a vision that is worthy of recovery today

Mystery of God, Mystery of Christ Ysabel de Andia, 2024-03-28 Now available in English for the first time Ysabel de Andia's double exploration of Christian and Hindu mysticism provides a valuable addition to the field Composed from lectures given in Benares in 2015 to priests of the Missions Etrangères de Paris Mystery of God Mystery of Christ combines the two main research interests that have defined de Andia's career first an understanding of Christian mysticism as growing out of the Christian mystery of Christ and the sacrament and secondly the relationship between this and Hindu contemplative prayer as articulated by Jules Monchanin Beginning with the Cappadocian fathers de Andia traces the developing interpretation of Mystery through Christian thinkers from Origen and Gregory of Nyssa to Basil and Dionysios the Areopagite From here she begins to dovetail this study with an exploration of Hindu contemplation relating the Carmelite mystic St John of the Cross to the Advaitist tradition especially as expounded by Shankara Throughout her masterful understanding of both traditions is apparent For English readers her insight will provide a fresh perspective on this lively subject area

A Theory of /Cloud/ Hubert Damisch, 2002 This is the first in a series of books in which one of the most influential of contemporary art theorists revised from within the conceptions underlying the history of art The author's basic idea is that the rigor of linear perspective cannot encompass all of visual experience and that it could be said to generate an oppositional factor with which it interacts dialectically the cloud On a literal level this could be represented by the absence of the sky as in Brunelleschi's legendary first experiments with panels using perspective Or it could be the vaporous swathes that Correggio uses to mediate between the viewer on earth and the heavenly prospect in his frescoed domes at Parma Insofar as the cloud is a semiotic operator interacting with the linear order of perspective it also becomes a dynamic agent facilitating the creation of new types of pictorial space Damisch puts the signifier cloud between slashes to indicate that he deals with clouds as signs instead of realistic elements This way of looking at the history of painting is especially fruitful for the Renaissance and Baroque periods but it is also valuable for looking at such junctures as the nineteenth century For example Damisch invokes Ruskin and Turner who carry out both in theory and in practice a revision of the conditions of appearances

of the cloud as a landscape feature Even for the twentieth century he has illuminating things to say about how his reading of cloud applies to the painters Leger and Braque In short Damisch achieves a brilliant and systematic demonstration of a concept of semiotic interaction that touches some of the most crucial features of the Western art tradition
