the perfect resource for both students and specialists of the history of art medicine and religion and social and intellectual history across Renaissance Europe Paradise Plundered Steven P. Erie,Vladimir Kogan,Scott A. MacKenzie,2011-08-15

The early 21st century has not been kind to California's reputation for good government. But the Golden State's governance flaws reflect worrisome national trends with origins in the 1970s and 1980s. Growing voter distrust with government, a demand for services but not taxes to pay for them, a sharp decline in enlightened leadership and effective civic watchdogs, and dysfunctional political institutions have all contributed to the current governance malaise. Until recently San Diego, California, America's 8th largest city, seemed immune to such systematic governance disorders. This sunny beach town entered the 1990s proclaiming to be America's Finest City, but in a few short years its reputation went from Futureville to Enron by the Sea. In this eye-opening and telling narrative, Steven P. Erie, Vladimir Kogan, and Scott A. MacKenzie mix policy analysis, political theory, and history to explore and explain the unintended but largely predictable failures of governance in San Diego. Using untapped primary sources, interviews with key decision makers, and public documents, and benchmarking San Diego with other leading California cities, *Paradise Plundered* examines critical dimensions of San Diego's governance failure: a multi-billion dollar pension deficit, a chronic budget deficit, inadequate city services and infrastructure, grandiose planning initiatives divorced from dire fiscal realities, an insulated downtown redevelopment program plagued by poorly crafted public-private partnerships, and for the metropolitan region, inadequate airport and port facilities, a severe underinvestment in firefighting capacity despite destructive wildfires, and heightened Mexican border security concerns. Far from a sunny story of paradise and prosperity, this account takes stock of an important but understudied city, its failed civic leadership, and poorly performing institutions, policymaking, and planning. Though the extent of these failures may place San Diego in a league of its own, other cities are experiencing similar challenges and political changes. As such, this tale of civic woe offers valuable lessons for urban scholars, practitioners, and general readers concerned about the future of their own cities.

Scales of Governance and Indigenous Peoples' Rights Irene Bellier,Jennifer Hays,2019-10-08 This book takes an interdisciplinary approach to the complicated power relations surrounding the recognition and implementation of Indigenous Peoples' rights at multiple scales. The adoption of the United Nations Declaration on the Rights of Indigenous Peoples in 2007 was heralded as the beginning of a new era for Indigenous Peoples' participation in global governance bodies, as well as for the realization of their rights, in particular the right to self-determination. These rights are defined and agreed upon internationally but must be enacted at regional, national, and local scales. Can the global movement to promote Indigenous Peoples' rights change the experience of communities at the local level? Or are the concepts that it mobilizes around rights and political tools essentially a discourse circulating internationally, relatively disconnected from practical situations? Are the categories and processes associated with Indigenous Peoples simply an extension of colonial categories and processes, or do they challenge existing norms and structures? This collection draws together the works of anthropologists, political scientists,

and legal scholars to address such questions Examining the legal historical political economic and cultural dimensions of the Indigenous Peoples rights movement at global regional national and local levels the chapters present a series of case studies that reveal the complex power relations that inform the ongoing struggles of Indigenous Peoples to secure their human rights The book will be of interest to social scientists and legal scholars studying Indigenous Peoples rights and international human rights movements in general *Beyond Jennifer & Jason, Madison & Montana* Linda Rosenkrantz,Pamela Redmond
