Saintebeuve Au Seuil De La Modernité:

Sainte-Beuve au seuil de la modernité Wolf Lepenies, 2002 Comment y voir clair dans l'œuvre immense du plus grand chroniqueur littéraire qu'on a connu le XIXe siècle français Comment comprendre ses incompréhensions l'égard de ses contemporains Balzac Hugo Stendhal Baudelaire et comment apprécier la fois ses soubresauts de progressisme social avec Saint Simon mais aussi Lamennais et surtout Proudhon et son conservatisme foncier Fallait-il qu'il fût resté croyant pour croire en outre la norme Port Royal Mûrit-il la condamnation prononcée par Proust qui l'avait lu un peu et après lui par tout le XXe siècle qui ne le lisait plus guère Sur ces multiples questions Wolf Lepenies nous présente son regard neuf parce qu'extérieur la France et cette vie littéraire spécifiquement française laquelle Sainte Beuve n'a pas peu contribué Alliant donc une sorte de naïveté une solide rudition cette vaste biographie intellectuelle fait revivre l'œuvre l'homme et son siècle **La modernité romantique** Jean-Pierre Bertrand, Pascal Durand, 2006 Relecture de l'ensemble des écrits des œuvres des styles et des tendances romantiques la lumière de l'hypothèse selon laquelle le romantisme incarne la modernité Il est selon les auteurs l'équivalent artistique de la secousse politique et idéologique de 1789 Ils relisent le XIXe siècle travers Lamartine Nerval Vigny Musset Hugo Sainte Beuve etc **The Classic** Christopher Prendergast, 2007-06-21 Focusing on a moment and a source in nineteenth century France Christopher Prendergast takes up a big question that is still with us What is a classic The question is by virtue of its insistent recurrence itself a classic question It returns to haunt us It provided the title of a text for French critic Charles Augustin Sainte Beuve in 1850 Qu'est-ce qu'un classique as it did in the twentieth century for T S Eliot and John Coetzee Centring on Sainte Beuve in his nineteenth century context Prendergast's inquiry takes us historically to many places antiquity the middle ages the seventeenth and eighteenth as well as the nineteenth and early twentieth centuries He also provides an intellectual history that travels across multiple disciplinary territories in addition to literary criticism and literary history classical studies comparative philology historiography and political thought Against this background The Classic maps the evolution of Sainte Beuve's thought from an initially cosmopolitan conception of the classic close in spirit to Goethe's notion of Weltliteratur to an increasingly nationalist conception with a strong emphasis on the heritage of Latinity and France as its principal legatee This emphasis was taken up by the extreme right in France after Sainte Beuve's death in a determined mobilizing of a version of the classic on behalf of a proto fascist agenda The final chapter deals with this appropriation and ends with a question of our own about Sainte Beuve's original question in the light of this bleak history perhaps the time has come to dispense with the term classic altogether Biography and the Question of Literature in France Ann Jefferson, 2007-01-04 Containing critical readings of some major French authors in the light of the evolving relations between biography and literature this book offers a history of French literature over a 300 year period and also a discussion of biography its forms history and functions **Epitomic Writing in Late Antiquity and Beyond** Paolo Felice Sacchi, Marco Formisano, 2022-09-22 This volume makes a powerful argument for epitome combining textual dismemberment

and re composition as a broad hermeneutic field encompassing multifarious historical conceptual and aesthetical concerns. The contributors gather from across the globe to present case studies of the summing up of cultural artefacts literary and artistic in epitomic writing and as a collective they demonstrate the importance of this genre that has been largely overlooked by scholars. The volume is divided into five sections: the first showcases the broad range of fields from which epitomic analysis can be made from classics to postmodernism to cultural memory studies; the second focuses in on epitome as dismemberment in writing from late antiquity to the modern day; the third considers a productive negativity of epitomic writings and how they are useful tools for investigating the very borders and paradoxes of language; the fourth brings this to bear on materiality; the fifth considers re composition as a counterpart to dismemberment and problematises it. Across the volume examples are taken from important late antique writers such as Ausonius, Clement of Alexandria, Macrobius, Nepos, Nonius Marcellus and Symphosius and from modern authors such as Antonin Artaud, Barthes, Nabokov and Pascal Quignard. Epitomic writings about art from decorated tabulae to sarcophagi are also included as are epitomic images themselves in the form of manuscript illustrations that sum up their text.

The Palgrave Handbook of the History of Human Sciences David McCallum, 2022-08-27. The Palgrave Handbook of the History of Human Sciences offers a uniquely comprehensive and global overview of the evolution of ideas, concepts and policies within the human sciences. Drawn from histories of the social and psychological sciences, anthropology, the history and philosophy of science and the history of ideas, this collection analyses the health and welfare of populations, evidence of the changing nature of our local communities, cities, societies or global movements and studies the way our humanness or human nature undergoes shifts because of broader technological shifts or patterns of living. This Handbook serves as an authoritative reference to a vast source of representative scholarly work in interdisciplinary fields, a means of understanding patterns of social change and the conduct of institutions as well as the histories of these ways of knowing, probe the contexts, circumstances and conditions which underpin continuity and change in the way we count, analyse and understand ourselves in our different social worlds. It reflects a critical scholarly interest in both traditional and emerging concerns on the relations between the biological and social sciences and between these and changes and continuities in societies and conducts as 21st century research moves into new intellectual and geographic territories, more diverse fields and global problematics.

La querelle de la camaraderie littéraire Anthony Glinier, 2008. Depuis son apparition en 1829 dans un retentissant pamphlet de Henri de Latouche, la notion de camaraderie littéraire est devenue inséparable de l'histoire sociale du romantisme français. Les cénacles romantiques ont été soupçonnés, l'un après l'autre, de laborer collectivement des stratégies de solidarité pour fabriquer des gloires factices. La querelle de la camaraderie loin d'être circonscrite aux préparatifs de la bataille d'Hernani a agité toute l'époque romantique puis a été fréquemment relancée jusqu'à nos jours. Cet essai en expose les enjeux et en reconstitue les principales étapes. Pourquoi le phénomène de la camaraderie a-t-il suscité une telle effervescence ?

critique et mobilise pour en défendre ou en fustiger les principes et les effets les plumes de Stendhal de Balzac de Hugo d'Eugène Scribe ou de Sainte-Beuve. Afin de répondre à cette question, Anthony Glinoer a intégré à son analyse de fond un grand nombre de pamphlets, préfaces, satires et romans qui en nourrissent le débat. Ces textes témoignent de l'intensité et de la diversité de la controverse entourant l'avènement du mouvement romantique. Ils font également valoir sur le plan des discours que le sacré de l'écrivain a coïncidé avec une collectivisation accrue de la vie littéraire, si se représente volontiers seul face à la foule, l'écrivain dépend désormais étroitement dans sa quête de reconnaissance de ses pairs réunis en cénacles, en académies ou en réseaux. La querelle de la camaraderie accompagne ainsi l'émergence du romantisme tout en interrogeant la structuration même du champ littéraire au XIX^e siècle.

Montaigne and the Ethics of Skepticism Zahi Anbra Zalloua, 2005. As one of the 16th century's most brilliant writers, Montaigne formed his ethical self and his eventual theories of physical and spiritual skepticism. Zalloua explores this enlightened thinker's mind. Littérature Criticism L'auteur entre biographie et mythographie Jérôme Roger, 2002. Livres anciens, lectures vivantes Michel Zink, 2010. Lire un texte vieilli, c'est ce que fait tout lecteur dès lors qu'il lit autre chose que le journal du jour ou un roman de l'année. Dans tous les cas, la distance ainsi créée suffit à elle seule à en faire quel qu'il soit de la littérature. Cette distance est la première cause qui fait de la littérature une expérience du temps et un arrachement à soi-même. Pour mieux se retrouver. Plus le texte est ancien, plus le lecteur s'étonne et se rejouit d'être touché par lui, d'être en harmonie avec lui, de se reconnaître en lui. Il n'existe pas au monde de civilisation dont la littérature ne s'enracine dans des poèmes, des légendes, des récits, des mythes supposés issus du passé le plus reculé. Partout, la littérature se fonde sur des classiques et un canon qui ne retient par définition que des textes déjà vieux. Autrement dit, ce qui la définit, c'est la distance créée par le vieillissement du texte. Distance subie car le texte ancien est difficile, mais aussi goûté. M. La fascination du Commandeur Christophe Halsberghe, 2006-01-01. Partir d'une approche contrastive de l'œuvre de Georges Bataille. La fascination du Commandeur montre que la pensée française tout au long du XX^e siècle a tergiversé entre deux expériences du sacré : une immédiate, même le corps, l'autre symbolisée passant par l'écriture. Dans le contexte d'une Troisième République faisant du sacré un moyen de recentrement national, Bataille reste tributaire de Durkheim et de Mauss par les difficultés qu'il rencontre à reconnaître au sacré une dimension langagière. Ses principaux interlocuteurs : Breton, Caillois, Leiris, Paulhan, Blanchot, Lacan ne manquent pas d'ailleurs de l'interpeller sur ce point, même si certains d'entre eux se montreront leur tour indécis sur la question. D'autres, tel Sartre, vacillent ostensiblement à l'écriture, mais sans en accomplir le deuil. En somme, il y va chaque fois du credo esthétique de Proust qui, tôt ou tard, apparaît pour chacun comme une véritable figure de Commandeur. Après la mort de Bataille, le débat demeure d'actualité : l'expérience langagière du sacré animera des débats en
