Salailua A Samoan Mystery:

Sala'ilua - A Samoan Mystery Bradd Shore, 1982 Presents an ethnography of Samoa cast as a mystery story Studies a murder and the sequence of events surrounding it as the center while looking at the culture as a whole **Theorizing Self in Samoa** Jeannette Marie Mageo, 2025-10-01 Theorizing Self in Samoa develops a new theory of the self in culture through a psychological and historical ethnography of Samoa As in many non Western cultures Samoan understandings of the self are more sociocentric accentuating the social roles that people play than egocentric emphasizing individual interior feelings and perceptions Yet in Samoa as in any culture aspects of the self that are not emphasized in cultural explanations of personhood continually reappear and must somehow be accounted for Jeannette Marie Mageo argues that all cultures attempt to encompass these stray experiences of the self within a discursive system She introduces a way of charting human development through cultural discourses which helps reveal how emotion gender and sexuality are constructed in Samoan society and other cultures including our own The second half of the book explores the effects of cultural contact and colonialization on the innermost experience of cultural subjects With its long ethnographic record Samoa provides a unique opportunity to consider the dialectic between historical change and personal experience opening a perspective on the ways in which cultural history is forever leaving its fingerprints upon human lives Theorizing Self in Samoa marks out important territory for psychological anthropology and students of Oceania and will appeal also to students and scholars in cultural studies women s studies and history Jeannette Marie Mageo is Associate Professor of Anthropology Washington State University **Hierarchy** Knut Mikjel Rio, Olaf H. Smedal, 2009 On the basis of diverse ethnographic contexts in Oceania Asia and the Middle East the author s challenge current conceptions of hierarchical formations and reassess former debates both with regard to new theoretical issues and the new world situation of post colonial and neocolonial agendas *Verging on Extra-Vagance* James A. Boon, 2021-06-08 In this book James Boon ranges through history and around the globe in a series of provocative reflections on the limitations attractions and ambiguities of cultural interpretation The book reflects the unusual keyword of its title extra vagance a term Thoreau used to refer to thought that skirts traditional boundaries Boon follows Thoreau s lead by broaching subjects as diverse as Balinese ritual Montaigne Chaucer Tarzan Perry Mason opera and the ideas of Jacques Derrida Ruth Benedict Kenneth Burke and Mary Douglas He makes creative and often playful leaps among eclectic texts and rituals that do not hold single fixed meanings but numerous changing and exceedingly specific ones Boon opens by exploring links between ritual and reading focusing on commentaries about the seclusion of menstruating women in Native American culture trance dances in Bali and circumcision or lack of it in contrasting religions He considers the ironies of first person ethnography by telling stories from his own fieldwork reflecting on ethnological museums and making seriocomic connections between Mark Twain and Marcel Mauss In expansive discussions that touch on Manhattan and Sri Lanka the Louvre and the World of Coca Cola museum willfully obscure academic theory and shamelessly commercial show

business Boon underlines the inadequacies of simple ideologies and pat generalizations The book is a profound and eloquent exploration of cultural comparison by one of America s most original and innovative anthropologists **Mirror Neuron Systems** Jaime A. Pineda,2009-03-01 The aim of this book is to bring together social scientists cognitive scientists psychologists neuroscientists neuropsychologists and others to promote a dialogue about the variety of processes involved in social cognition as well as the relevance of mirroring neural systems to those processes Social cognition is a broad discipline that encompasses many issues not yet adequately addressed by neurobiologists Yet it is a strong belief that framing these issues in terms of the neural basis of social cognition especially within an evolutionary perspective can be a very fruitful strategy This book includes some of the leading thinkers in the nascent field of mirroring processes and reflects the authors attempts to till common ground from a variety of perspectives The book raises contrary views and addresses some of the most vexing yet core questions in the field providing the basis for extended discussion among interested readers and laying down guidelines for future research It has been argued that interaction with members of one s own social group enhances cognitive development in primates and especially humans Barrett Henzi 2005 Byrne and Whiten 1988 Donald 1991 and others have speculated that abilities such as cooperation deception and imitation led to increasingly complex social interactions among primates resulting in a tremendous expansion of the cerebral cortex The evolutionary significance of an imitation capability in primates is matched by its ontological consequences **Gendered Anthropology** Teresa del Valle,2013-01-11 In the last three decades a remarkable degree of progress has occurred in the study of gender within anthropology Gendered Anthropology offers a thought provoking lively examination of current debates focusing on sex and gender race ethnicity politics and economics and provides insights which are still too often lacking in mainstream anthropology Gendered Anthropology will be of particular value to undergraduates and lecturers in social anthropology and gender studies **Pacific-Indigenous Psychology** Siautu Alefaio-Tugia,2022-12-02 This book provides an overview of Pacific Indigenous knowledge as insights of Oceanic citizen science to inform culturally safe practice for psychology It profiles contemporary Pacific needs in areas of crisis such as family violence education disparities and health inequities and points to ancient Pacific indigenous knowledges as tools of healing for global diasporic communities in need The historical evolution of psychology s knowledge base and practice illustrates a fundamental crisis in the method of producing knowledge for psychology the absence of Pacific indigenous cultural knowledge It suggests more effective research methodologies grounded in Pacific Indigenous epistemologies and ontologies for psychology and overall community capability It fosters practice perspectives and strategies based on NIU psychology New Indigenous Understandings for innovative solutions to modern day crises of humanity **Tuvaluan** Niko Besnier,2002-09-11 Tuvaluan is a Polynesian language spoken by the 9 000 inhabitants of the nine atolls of Tuvalu in the Central Pacific as well as small and growing Tuvaluan communities in Fiji New Zealand and Australia This grammar is the first detailed description of the structure of Tuvaluan one of the least well

documented languages of Polynesia Tuvaluan pays particular attention to discourse and sociolinguistics factors at play in the structural organization of the language **Mimesis and Pacific Transcultural Encounters** Jeannette Mageo,Elfriede Hermann,2017-10-01 How do images circulating in Pacific cultures and exchanged between them and their many visitors transform meanings for all involved This fascinating collection explores how through mimesis wayfarers and locales alike borrow images from one another to expand their cultural repertoire of meanings or borrow images from their own past to validate their identities Worldwide Perspectives on Lesbians, Gays, and Bisexuals Paula Gerber Ph.D.,2021-01-26 This three volume set is a rich resource for readers in any discipline interested in understanding the global regional and domestic experiences of LGB people This interdisciplinary set makes a vital contribution to understanding how LGB rights are progressing and in some cases regressing around the globe The three volumes look at the lived experiences of LGB people from varied perspectives and provide comprehensive coverage on a wide variety of topics ranging from LGB youth and LGB aging to the approaches to LGB people of different religions including Islam Judaism and Christianity Chapters focus on topics including the ongoing criminalization of same sex sexual conduct and how international human rights law can be used to improve the lives of LGB people Particular attention is paid to the rights of bisexuals a group often ignored in works focusing on sexual orientation Volume 1 focuses on history politics and culture relating to LGB people Volume 2 focuses on the laws domestic and international governing LGB people and Volume 3 provides snapshots of the current state of LGB experience in countries worldwide presented by geographical region Europe the Americas Africa the Middle East and the Asia Pacific region Cricket, Kirikiti and Imperialism in Samoa, 1879-1939 Benjamin Sacks,2019-10-10 This book considers how Samoans embraced and reshaped the English game of cricket recasting it as a distinctively Samoan pastime kirikiti Starting with cricket s introduction to the islands in 1879 it uses both cricket and kirikiti to trace six decades of contest between and within the categories of colonisers and colonised How and why did Samoans adapt and appropriate the imperial game How did officials missionaries colonists soldiers and those with mixed foreign and Samoan heritage understand and respond to the real and symbolic challenges kirikiti presented And how did Samoans use both games to navigate foreign colonialism s By investigating these questions Benjamin Sacks suggests alternative frameworks for conceptualising sporting transfer and adoption and advances understandings of how power politics and identity were manifested through sport in Samoa and across the globe *Visions of Empire* David Philip Miller,Peter Hanns Reill,2011-07-21 Richly illustrated 1996 collection on how Pacific plants and peoples were depicted by European explorers *Vision and Society* John Clammer,2014-03-26 The sociology of art is now an established sub discipline of sociology But little work has been done to explore the implications not of society on art but of art on the nature and principles of sociology itself Vision and Society explores the ways in which art here mainly understood as visual art structures in fundamental ways the constitution of society the relations between societies and the ways in which society and culture should be theorized

Building initially on an unfulfilled project by the French sociologist of art Nathalie Heinich to derive a sociology from art this book pushes this idea in unconventional directions Rethinking the relationships between the study of art and the study of sociology and anthropology this book explores how this rethinking might impact sociological theory in general and certain aspects of it in particular especially the study of social movements social change the urban the constitution of space and the ways in which human social relationships are mediated and expressed Social and Cultural Lives of Immune Systems

James MacLynn Wilce,2003 This book introduces a provocative new branch of social theory the hypothesis that immunity and disease are in part socially constituted It suggests that immune systems function not only as material entities but also as social symbols **Power and the Self** Jeannette Marie Mageo,2002-01-24 Power and the Self first published in 2002 deals

with an important but neglected topic the ways in which power is experienced by individuals both as agents and as objects of the exercise of power Each contributor presents a series of case studies drawn from a variety of cultural contexts including the analysis of the appeal of Japanese superhero toys for American children the conditions that lead to dehumanising treatment of patients in an American nursing home the experiences of a Turkish immigrant woman in the Netherlands a contribution relating theories about the capacity to commit genocidal violence to everyday forms of violence and other cases from New Guinea and Samoa The introduction provides a readable historical review and synthesis of the theoretical ideas that provide the context for the work presented in the book *Albert Wendt and Pacific Literature* Paul Sharrad,2003-11-08

Albert Wendt is the leading writer and exponent of Pacific literature His work is consistently different in style politically challenging and ranges across essays plays poems stories and novels two of which have been filmed This book is the first full length study of his work There is an introduction to Pacific literature as a whole and Wendt s Samoan background Chapters offer readings of all Wendt s major texts in chronological sequence relating them to his essays to literary movements of the time and to key motifs from Polynesian culture There is an extensive bibliography of works by and about Wendt

Intentions in the Experience of Meaning Raymond W. Gibbs,1999-09-13 What do our assumptions about authorship matter for our experience of meaning This book examines the debates in the humanities and social sciences over whether authorial intentions can or should constrain our interpretation of language and art Scholars assume that understanding of linguistic and artistic meaning should not be constrained by beliefs about authors and their possible intentions in creating a human artifact It is argued here that people are strongly disposed to infer intentionality when understanding oral speech written texts artworks and many other human actions Although ordinary people and scholars may infer meanings that diverge from or extend beyond what authors intend our experience of human artifacts as meaningful is fundamentally tied to our assumptions of intentionality This challenges the traditional ideas of intentions as existing solely in the minds of individuals and formulates a new conceptual framework for examining if and when intentions influence the interpretation of meaning **Cosmos and Society in Oceania** Daniel de Coppet,Andre Iteanu,2024-11-01 Current anthropology uses

expressions such as society as a whole socio cosmic relations spatiotemporal extension global ideology and cosmomorphy to establish that the clear cut Western dichotomy between society and cosmos is not always to be found in the communities it studies In fact many elements that the West would at first undoubtedly classify as belonging either to the cosmos or to the society appear very often in Melanesia as belonging to neither one of these domains but to a realm which combines the attributes of both Focusing on different examples drawn from diverse Melanesian societies this thought provoking volume by eminent specialists re examines the relationship between society and cosmos and in the process opens new directions for research
