**A Hobo's Son and an Orphan Girl** Bob Bristow, 2024-06-06 This book started out as a set of adventure stories that have been published locally in several outdoor newsletters These stories were so well received that the adventures in other parts of the life of the author and his family were added A love story naturally evolved because that was what kept them going and led them from the wilderness where they grew up to the big cities working in politics aerospace and other advanced technologies They combined this city work with many kinds of adventures mostly adventures in wild and unexplored mountains The love became obvious as Bob struggled for over 50 years to satisfy a promise he made to a 13 year old girl in grade school Someday I will build you a castle on a mountain The book is interesting because it describes a lifetime of outdoor adventures and the effort of two kids to stay alive and progress up the social ladder The relevant message is that two very poor kids at the bottom of the social ladder can not only survive but rise to the top The story is unique because the adventures have been experienced by no one else From Bob falling off an 80 foot cliff to Luci battling a new form of cancer that was supposed to take her life Readers should take away a good feeling reading about successfully living through many adventures in the mountains and in social life About the Author Bob Bristow has a BS in Mechanical Engineering an MS in aeronautical Engineering and all PhD coursework completed in Aerospace Engineering He worked for Boeing for over 60 years where he built and ran his own research lab He was an elder in his church and was involved in many professional organizations Bob enjoys skiing scuba diving mountain climbing fishing and hunting He is most passionate about prospecting and mining

future of each crop      *Plant Lore of an Alaskan Island* Frances Kelso, Frances Kelso Graham, 2011 *Plant Lore of an Alaskan Island* identifies the most common plants in the Kodiak archipelago. It includes edible and medicinal plants with recipes for preparing for your table plus a special index section of medicinal plants with a brief description of their use. Native uses of these plants are emphasized making the book somewhat of an ethnobotany. It is a good armchair book because it includes stories of gathering adventures, a section on the history of Ouzinkie with stories and pictures, a full description and illustration of each plant plus a plant family index with information about each plant family represented. Color and black and white photos enhance the pages. Take this book on foraging trips or enjoy reading it at home. Though focused on Spruce Island, these plants or a similar species can be found in many Alaskan locations      *The Frozen Toe Guide to Real Alaskan Livin'* Brooklyn Bellinger, 2010-06-01 *The Frozen Toe Guide to Real Alaskan Livin'* both embraces and instructs readers on everything one needs to know to be a true Alaskan or at least to look the part.
