Teaching and Learning English in East Asian Universities Lan Li, David D. Qian, 2014-10-02 The 25 chapters contained in this book were all written by scholars working in the field of applied linguistics and English language teaching in various East Asian contexts East Asia is large and diverse in terms of socio economic linguistic and ethnic parameters Statistics alone cannot give a clear understanding of what goes on in rural and urban universities and what challenges English language teachers and learners face in those contexts To understand this wide gamut of issues in English language teaching in East Asia is thus a very large undertaking The book addresses some of these issues arranging its 25 chapters into five sections namely Assessing Language Performance Teaching English Writing Learner Autonomy Corpus and Discourse Research and Learning English in East Asian Contexts Many of the chapters in this volume concern familiar topics such as linking assessment to teaching learning and curriculum conducting assessment validation research examining meta cognitive strategies investigating teaching and learning English for academic purposes and profiling prevailing word lists for language learners Other chapters are on novel or lesser known topics such as non verbal delivery in speaking assessment the use of visualization as a reading strategy learner strategies in a Facebook corpus effects of discourse signaling cues and rate of speech and an ontogenetic analysis of college English textbooks Collectively these chapters showcase English language learning teaching and assessing in a range of contexts using a variety of methods and techniques to deal with issues relevant to East Asian teachers learners and researchers **Experiential Christianity** Ray Morose, 2011 Experiential Christianity The main objective of this book is to illuminate the experiential arm of Christianity and by doing so redefine its devotional arm The devotional arm may guide but it takes the experiential arm to confirm By its nature experiential Christianity can bypass religious borders as it is not a dogma theology or a belief but a state of experiential being Hence can connect with and be beneficial to everyone regardless of his or her religious affiliation In this reevaluation of Christianity its living essence is revealed That exposure reveals an experiential pathway that unveils a practical foundation for a moral compass to steer one through the various hazards of daily living By learning to avoid those hazards your one and only purpose in life is revealed which is to discover the experiential reality of the statement made by Jesus that God is within you Everything else is secondary Meaning that experience is primary as it is used to define how one lives acts and thinks Based upon that experience a moral foundation naturally arises providing a cornerstone for ethical stances that cannot be manipulated or twisted by the many and varied seductive playthings engendered by self interest The depth of understanding released by the actual experiential discovery that God is within you changes your life forever you are truly reborn However that experience is not achievable by belief alone You must be willing to experientially delve into the core of your existence to discover the

reality of that statement by Jesus Meaning you must experience it and not just believe it For that journey you will require intellectual knowledge of how all the internal components of your existence function and interrelate Without that knowledge you would easily become bewildered and distressed by the confusing quantity of ambiguous information that can block your pathway and in despair claim that experience is impossible Hence this book outlines all the tools you need to survive that internal journey and provides a map to begin your search Using both the tools and map is a personal decision that another cannot make for you You either do or do not There is no in between Does a non material entity referred to as God exist Yes Is it possible to logically confirm that assertion Yes Is a personal connection to that entity possible Absolutely That personal connection is not hiding You are hiding from it This book provides all the necessary information to realize that connection When that realization is a living reality it transforms belief into actuality establishing the cornerstone of an indestructible faith that underpins every thought and action in your life That experience adds experiential authenticity to your life confirming your eternal career has begun and that beginning has no end
