Handbook of Moral Motivation Karin Heinrichs, Fritz Oser, Terence Lovat, 2013-06-12 *The Handbook of Moral Motivation* offers a contemporary and comprehensive appraisal of the age old question about motivation to do the good and to prevent the bad From a research point of view this question remains open even though we present here a rich collection of new ideas and data Two sources helped the editors to frame the chapters first they looked at an overwhelmingly fruitful research tradition on motivation in general attribution theory performance theory self determination theory etc in relationship to morality The second source refers to the tension between moral judgment feelings beliefs and the real moral act in a twofold manner a as a necessary duty and b as a social but not necessary bond In addition the handbook utilizes the latest research from a wide range of disciplinary perspectives wishing to suggest by this that the answer to the posed question will likely not come from one discipline alone Furthermore our hope is that the implicit criticism that the narrowly constructed research approach of the recent past has contributed to closing off rather than opening up interdisciplinary lines of research becomes in this volume a strong counter discourse The editors and authors of the handbook commend the research contained within in the hope that it will contribute to better understanding of humanity as an inherently moral species Gregg Reporting Shortcuts John Robert Gregg, 1922

Confronting Underground Justice William R. Kelly, 2018-10-29 Plea negotiation is rife with due process concerns including a heightened risk of coerced pleas ignoring mens rea serious questions about assistance of counsel limited discovery and little litigation of the evidence the conviction of innocent defendants and significant questions about fairness and equity Plea negotiation is also the fast track to criminal conviction tough punishment and mass incarceration From the perspective of public policy plea negotiation perpetuates a harm based retribution focused system of crime and punishment Because of the failures of public health the justice system has become a dumping ground for hundreds of thousands of mentally ill substance addicted and abusing and neurocognitively impaired offenders And because of a tough on crime mentality and lack of information and options the justice system routinely prosecutes and punishes these offenders The evidence is quite clear that punishment does nothing to improve these circumstances and often exacerbates them The result as one would predict is extraordinarily high rates of

reoffending propelling the revolving door of the justice system Confronting Underground Justice takes a close look at plea negotiation criminal prosecution public defense and pretrial justice systems and identifies a wide variety of problems and concerns with each William R Kelly and Robert Pitman provide key decision makers with the tools to make better more informed decisions regarding pre trial detention prosecution and plea deals criminal defense and diversion to treatment Critical to this effort is redefining roles responsibilities and the culture of criminal justice by prosecutors judges and defense counsel accepting responsibility for reducing recidivism and embracing problem solving as a primary decision making strategy Kelly and Pitman combine decades of academic research and policy expertise with real world experience in the court system as a judge and prosecutor to develop innovative and comprehensive reform Confronting Underground Justice provides a prescriptive roadmap for how to fundamentally reinvent plea negotiation pre trial decision making criminal prosecution and public defense to effectively reduce recidivism and save money

Justice While Black Robbin Shipp, Nick Chiles, 2014-10-01 An essential guide for Black Americans to understanding the criminal justice system and why it continues to see Black men as targets and as dollar signs Justice While Black is a must read for every young Black male in America and for everyone else who cares about their survival and well being The book provides practical straightforward advice on how to deal with specific legal situations the threat of arrest being arrested being in custody preparing for and undergoing a trial and navigating the appeals and parole process The primary goal of this book is to become a primer for African Americans on how to avoid becoming ensnared in the criminal justice system While the precarious safety of Black males has received renewed interest in the past year because of the deaths of young men like Daunte Wright and Ryan LeRoux the fact is that this group has always been under threat from the armed guardians of the White social order The tactics have been modernized but the impact is still devastating we are witnessing an epic criminalization of the African American community at levels never before seen since the end of slavery

"Equal Justice Under Law." United States. Department of Justice, 1977 Anthology of addresses by prominent authorities on legal topics relating to the Bicentennial

Narratives of Justice Grant Reeher, 2010-05-06 Narratives of Justice offers a provocative contemporary look at the timeless questions of justice and fairness Using face to face interviews Grant Reeher plumbs the minds of legislators for their beliefs about distributive justice and attempts to discover the ways in which those beliefs influence their behavior The book calls into question many notions of American political ideology and in particular the idea of an American exceptionalism regarding views from the political left and the dominance in the United States of a liberal tradition Political philosophers have amassed a large body of work on justice and fairness from a theoretical perspective but there is comparatively little empirical work on the subject The work that does exist concentrates on the beliefs of the public We know very little concerning the beliefs about justice held by political elites This work offers a window into the beliefs of legislators a group for which such an inquiry is rarely undertaken The book is based on a set of extended in depth interviews with the members of the Connecticut State Senate as well as a

year of close observation of the Senate in action The interviews averaged four hours in length and covered a variety of topics related to fairness Through this material Reeher employs a narrative based framework to understand the patterns in the senators interview responses and develops a typology of the senator s narratives These narratives vary in both content and form and as a whole present a surprising range of views Narratives of Justice will be of interest to those concerned with justice political ideologies and political beliefs as well as state and local politics and more generally American politics Its wide research and thorough documentation make it a useful guide to the literature within and beyond political science concerning beliefs ideologies legislative behavior and qualitative research methods Grant Reeher is Assistant Professor Maxwell School of Citizenship and Public Affairs Department of Political Science Syracuse University and currently a Robert Wood Johnson Foundation Scholar in Health Policy Research University of Michigan

Sheffrin, 2013-10-28 Why have Americans severely limited the estate and gift tax ostensibly targeted at only the very wealthy but greatly expanded the subsidies to low wage workers through the Earned Income Tax Credit now the single largest poverty program in the country Why do people hate the property tax so much yet seemingly revolt against it only during periods of economic change Why are some groups of taxpayers more obedient to the tax authorities than others even when they face the same enforcement regime These puzzling questions all revolve around perceptions of tax fairness Is the public simply inconsistent A sympathetic and unified explanation for these attitudes is based on understanding the everyday psychology of fairness and how it comes to be applied in taxation This book demonstrates how a serious consideration of folk justice can deepen our understanding of how tax systems actually function and how they can perhaps be reformed

Out-of-Control Criminal Justice Daniel P. Mears, 2017-09-28 Out of Control Criminal Justice shows that our system of criminal justice is broken it is out of control The author writes that a research based strategy is needed that builds on the insights of those who work within criminal justice or are affected by it Such a strategy must entail continuous evaluation and improvement so that what works can be expanded and what does not can be eliminated Out of Control Criminal Justice identifies how systems problems plague our criminal justice systems It then presents a comprehensive strategy for bringing these systems under control to reduce crime to increase justice and accountability and to do so at less cost The strategy can be used too to create greater responsiveness to victims and communities effectiveness in reducing racial and ethnic disparities and understanding of the causes and consequences of crime After describing this new approach the book identifies the tools needed to implement a systems solution to create a safer and more just society *Becoming a Social Justice Educator* Zachary Scott Robbins, Dominique Smith, Sarah Ortega, Oscar Corrigan, Bryan Dale, 2023-06-05 This guide provides simple ways to broaden educators perspectives on equity providing concrete techniques for becoming expansive educators capable of engaging every student Chapters include research on the urgency to embrace foundational fairness questions and prompts to build inclusive thinking into expectations of students feedback grading and discipline activities discussion frames and debate structures that support students exploration and engagement ideas **Soviet Criminal**
