Should Taxpayer Support Arts:

Should the Taxpayer Support the Arts? David Sawers,1993 In this IEA classic first published in 1993 David Sawers examines the arguments for state support of the arts and finds them unconvincing The development of artistic talent should be left to individuals and the Arts Council should be abolished Subsidy is undesirable because the people who benefit from it are likely to be richer than those who pay for it and because it allows governments and government agencies to influence the development of the arts

A New Economic Theory of Public Support for the Arts Arnaldo Barone,2015-12-14 Should the arts receive public support Can the arts survive in a modern capitalist society Can economics shed light on the nature of public support and whether there is a rationale for public intervention This book undertakes to examine these questions as it explores the ways government and public resources are used to support the arts This book applies a Veblenian approach to understanding economic development to investigate public support for the arts in an effort to determine whether this approach can elucidate economic rationales for public support Divided into three parts the first provides basic information on public support for the arts by surveying support in the United States and Australia Part two includes a neoclassical overview of the topic while part three presents Veblen s ideas on economic development This book will be of interests to researchers concerned with cultural and institutional economics as well as political economy

Public Policy and the Arts: A Comparative Study of Great Britain and Ireland Ruth-Balandina M. Quinn,2018-08-20 First published in 1998 this volume considers the subject of arts policy as a subject of public policy making proper in UK and Ireland with a particular focus on theatre as a profession rather than a mere hobby Previous studies have placed the burden of policy improvements on the arts themselves looking at what the arts can do to be worthy of government funding and favourable policy and have seen government actions as if they have a uniform effect This study takes the arts out of the abstract and discusses specific ways that diverse activities with even more diverse needs can be best approached with government policy assessing the strengths and weaknesses of government initiatives It is aimed at both political scientists and anyone with an interest in arts and cultural policy

Is Art Good for Us? Joli Jensen,2002 Are the arts good for us This book questions our taken for granted assumptions about the transformational powers of high culture by critiquing an instrumental American heritage of beliefs about the arts Jensen argues that faith in high culture s unproven ability to transform people and society allows social critics to keep faith with the idea of a democratic society while deploring popular culture Employing perspectives from Tocqueville and Dewey she argues that the arts are good but they don t do good Instead of expecting the arts to improve things and blaming the media for ruining them we need to recognize that it is up to us not the arts to make the world a better place
