QuickBooks for Not-for-Profit Organizations - Version 2004-2005 Questiva Consultants, 2004-12 **Contractor's**

Guide to QuickBooks Pro 2004 Karen Mitchell, Craig Savage, Jim Erwin, 2004 According to a recent national survey, more construction contractors use QuickBooks Pro and QuickBooks than all other accounting programs combined. And for good reason, QuickBooks Pro excels at all the routine paperwork in a construction office: writing checks, keeping track of your bank balance, sending out invoices and statements, creating up to the minute profit and loss statements for the month, year, or by job, writing payroll checks, paying suppliers and subcontractors, tracking job costs, comparing estimated and actual costs for each job, and much more. But there's a lot to learn in QuickBooks Pro. And converting to a new accounting system can be a complex and confusing task, even if you have a strong background in accounting and plenty of time to install the new system. That's why this book was written: because most construction pros aren't accounting experts and have more important work to do at the job site. *Contractor's Guide to QuickBooks Pro 2004* will walk you step by step through QuickBooks Pro's detailed setup procedure and then explain item by item how you should be using QuickBooks Pro every day. In days rather than weeks, you'll create a first rate accounting system that's an asset to your company. Here you'll find simple, well illustrated instructions for customizing the setup for QuickBooks Pro 2004, including what each screen on your monitor should look like.
