## **Shutter A Ghost Hunters Communion With The Paran:**

**The Other Side** Marley Gibson, Patrick Burns, Dave Schrader, 2009 The basics of scientific ghost hunting from the experts     *The Yoga of Ghost Hunting* Richard Salva, 2014-04-07 In *The Yoga of Ghost Hunting* discover a new perspective on ghost hunting Touring haunted houses is an exciting pastime but there is so much more to it than that When dealing with the afterlife and metaphysical realities it helps to have the insights of those who have explored those worlds and returned to enlighten us Yoga to the rescue Yoga is much more than physical postures It is an ancient spiritual science that offers answers to many questions related to the supernatural Learn what the yogis have revealed tips and techniques that can help you with your paranormal investigations Let yogi author Richard Salva enlighten you about the hidden yogic secrets that every ghost hunter should know Discover how to Protect yourself psychically Banish spirits Overcome fears of ghosts Connect with helpful spirits Achieve mental clarity and much more From the author's introduction As a daily practitioner for more than thirty years of meditation and the deeper teachings of yoga I have found it curious that even though I have not sought them out I have crossed paths with ghosts and other astral forces In fact when I was asked to lecture on my book *The Reincarnation of Abraham Lincoln* at a paranormal conference a few years ago I realized that I had a lot to say on the subjects of ghosts and ghost hunting It also became clear as I spoke that most of what I was saying was new to my listeners I was presenting a view of ghost hunting that veteran ghost hunters had never heard before In addition I was aware of techniques and concepts that could help ghost hunters achieve greater success in their efforts and avoid some of the pitfalls of their pastime Here then is the essence of what I have shared at ghost hunting conferences along with additional helpful tips and techniques all based on ancient yogic teachings Once we know more about what ghosts are and the world in which they live we can gain a better understanding of what we may experience on a ghost hunt     **Ghost Hunting** Dawn J. Schofield, 2024-11-07 A creak of the floorboard The wind whistling in the eaves The rustle of some small creature a mouse maybe scurrying in the basement These are all sounds you might expect to hear in an old house But what if they were signs of something more Paranormal investigator Dawn J Schofield knows from experience that not all strange phenomena have a rational explanation In her thirty years of ghost hunting she's seen heard and even smelled things she couldn't debunk and now she's here to show you how to capture your own evidence of specters and spirits In this guide she shares her approach to paranormal investigation gives tips for location sourcing explains the tools of the trade and much more Along the way she tells true spine tingling tales of ghostly encounters from her own life from unexplained apparitions to disembodied voices to terrifying contact with spirits through a Ouija board By the end of this book you'll know all about the equipment techniques and unwritten rules you need to start exploring the supernatural Now the only thing left to do is muster the courage to face the unknown     **The Other Side** Marley Gibson, Patrick Burns, Dave Schrader, 2009-09-14 It used to be you needed a crystal a psychic or a Oijia board to make contact with the spirit world So who would think science would make it possible for just

about anyone to experience a ghostly connection Cameras recorders computers magnetic field readers and other scientific means are now the tools of the trade But there s so much available how does the average teen weed through it all to create the best possible ghost hunting team Here to help sort it all out are three of today s leading investigators of the field Together Patrick Burns Dave Schrader and Marley Gibson have more than ten years of experience They ve put together this guide to impart their knowledge and wisdom on to the next generation of ghost hunters What s included How to set up a ghost hunting team The equipment needed and how to use it Where to look for spirits Safety safety and more safety Ghost hunting is equal parts science and belief Patrick Dave and Marley are here to help with the science part **Of Communion**
