Sida Global:

Educational Publishing in Global Perspective Shobhana Sosale, 1999 The chain of stakeholders associated with educational books is long and impressive By contrast our information about the educational book publishing industry has been fragmented at best To consolidate and share this information a seminar on Understanding the Educational Book Industry was organized by the World Bank in Washington D C September 9 10 1997 This report reflects the deliberations that emerged from that seminar The seminar focused on four themes policies for the provision of educational materials the publishing industry growth in developing countries thorny issues such as procurement protection and copyright and longer term solutions Over the last three years the World Bank has lent approximately US 550 million in one form or another for textbook components within education projects With textbooks continuing to be such a rarity in developing countries we need to pause and ask the questions Are current processes effective Do we know enough about the educational book industry to claim that we have helped to promote literate societies This report attempts to answer these and other questions toward the ultimate goal of educating society

Global Good Samaritans Alison Brysk, 2009-03-17 In a troubled world where millions die at the hands of their own governments and societies some states risk their citizens lives considerable portions of their national budgets and repercussions from opposing states to protect helpless foreigners Dozens of Canadian peacekeepers have died in Afghanistan defending humanitarian reconstruction in a shattered faraway land with no ties to their own Each year Sweden contributes over 3 billion to aid the world's poorest citizens and struggling democracies asking nothing in return And a generation ago Costa Rica defied U S power to broker a peace accord that ended civil wars in three neighboring countries and has now joined with principled peers like South Africa to support the United Nations International Criminal Court despite U S pressure and aid cuts Hundreds of thousands of refugees are alive today because they have been sheltered by one of these nations Global Good Samaritans looks at the reasons why and how some states promote human rights internationally arguing that humanitarian internationalism is more than episodic altruism it is a pattern of persistent principled politics Human rights as a principled foreign policy defies the realist prediction of untrammelled pursuit of national interest and suggests the utility of constructivist approaches that investigate the role of ideas identities and influences on state action Brysk shows how a diverse set of democratic middle powers inspired by visionary leaders and strong civil societies came to see the linkage between their long term interest and the common good She concludes that state promotion of global human rights may be an option for many more members of the international community and that the international human rights regime can be strengthened at the interstate level alongside social movement campaigns and the struggle for the democratization of global governance
