## Siege Of Leningrad:

The Siege of Leningrad Leon Gouré,1962 Documented study of the siege which lasted from Aug 1941 until Jan 1944

*Leningrad* Michael Jones,2008-07-01 All offers of surrender from Leningrad must be rejected wrote Adolph Hitler on September 29 1941 at the outset of Operation Barbarossa In this struggle for survival we have no interest in keeping even a proportion of the city s population alive During the famed 900 day siege of Leningrad the German High Command deliberately planned to eradicate the city s population through starvation Viewing the Slavs as sub human Hitler embarked on a vicious program of ethnic cleansing By the time the siege ended in January 1944 almost a million people had died Those who survived would be marked permanently by what they endured as the city descended into chaos In Leningrad military historian Michael Jones chronicles the human story of this epic siege Drawing on newly available eyewitness accounts and diaries he reveals the true horrors of the ordeal including stories long suppressed by the Soviets of looting criminal gangs and cannibalism But he also shows the immense psychological resources on which the citizens of Leningrad drew to survive against desperate odds At the height of the siege for instance an extraordinary live performance of Shostakovich s Seventh Symphony profoundly strengthened the city s will to resist A riveting account of one of the most harrowing sieges of world history Leningrad also portrays the astonishing power of the human will in the face of even the direst catastrophe **The 900 Days** Harrison Salisbury,2009-04-29 The Nazi siege of Leningrad from 1941 to 1943 during which time the city was cut off from the rest of the world was one of the most gruesome episodes of World War II In scale the tragedy of Leningrad dwarfs even the Warsaw ghetto or Hiroshima Nearly three million people endured it just under half of them died starving or freezing to death most in the six months from October 1941 to April 1942 when the temperature often stayed at 30 degrees below zero For twenty five years the distinguished journalist and historian Harrison Salisbury has assembled material for this story He has interviewed survivors sifted through the Russian archives and drawn on his vast experience as a correspondent in the Soviet Union What he has discovered and imparted in *The 900 Days* is an epic narrative of villainy and survival in which the city had as much to fear from Stalin as from Hitler He concludes his story with the culminating disaster of the Leningrad Affair a plot hatched by Stalin three years after the war had ended Almost every official who had been instrumental in the city s survival was implicated convicted and executed Harrison Salisbury has told this overwhelming story boldly unforgettably and definitively *Leningrad* Anna Reid,2011-09-05 On 8 September 1941 eleven short weeks after Hitler launched Operation Barbarossa his brutal surprise attack on the Soviet Union Leningrad was surrounded The siege would not be lifted for two and a half years and during the 872 days of blockade and bombardment as many as two million Soviet lives would be lost Had the city fallen the history of the Second World War and of the twentieth century would have been very different Leningrad is a gripping narrative history interwoven with personal stories immediate accounts of daily siege life drawn from diarists and memoirists on both sides These twentieth century European civilians living through

unbearable hardship reveal the terrible details of life in the blockaded city the all consuming and daily search for food crawling up ice rounded steps on hands and knees hauling a bucket of water a woman who has just buried her father noticing how the cemetery guards have used a frozen corpse with outstretched arm and cigarette between its teeth as a signpost to a mass grave another using a dried pea to make a rattle for her evacuated grandson s first birthday and putting it away in a drawer when she hears six months later that he has died of meningitis In Leningrad Anna Reid answers many of the previously unanswered questions about the siege How good a job did Leningrad s leadership do would many lives have been saved if it had been better organised How much was Stalin s and Moscow s wariness of western leaning Leningrad formerly the Tsars capital St Petersburg a contributing factor How close did Leningrad come to falling into German hands And above all how did those who lived through it survive     The Leningrad Blockade, 1941-1944 Richard Bidlack,Nikita

Lomagin,2012-06-26 Chronicles the three year siege of Leningrad during World War II focusing on the city s inhabitants the inner workings of the Communist Party and secret police and the people s will to survive     *Leningrad Under Siege* Ales

Silver Winner ForeWord Magazine Book of the Year History From September 1941 until January 1944 Leningrad suffered under one of the worst sieges in the history of warfare At least one million civilians died many during the terribly cold first winter Bearing the brunt of this hardship and keeping the city alive through their daily toil and sacrifice were the women of Leningrad Yet their perspective on life during the siege has been little examined Cynthia Simmons and Nina Perlina have searched archival holdings for letters and diaries written during the siege conducted interviews with survivors and collected poetry fiction and retrospective memoirs written by the blokadnitsy women survivors to present a truer picture of the city under siege In simple direct even heartbreaking language these documents tell of lost husbands mothers children meager rations often supplemented with sawdust and other inedible additives crime cruelty and even cannibalism They also relate

Glantz,2001 This military history describes the Seige of Leningrad during World War II The author explains how Hitler commanded his troops to seal off Leningrad then to weaken it by terror and starvation and of the Soviet s frantic efforts to keep Leningrad supplied in the face of the increasing privations      **Leningrad** Anna Reid,2011-08-30 A narrative account of the siege of Leningrad reveals the Nazi decision to starve Leningrad into surrender and related Soviet leadership failures describing the harrowing experiences of residents within the blockaded city      Leningrad Captivating History,2020-07-25

August 1941 to late January 1944 bringing unparalleled hardship to the population Out of over three million persons in the city more than one million lost their lives through cold disease and starvation bombs and artillery fire The severe winter of 1941 42 was by far the worst period of the siege when food reserves ran out rations dropped to a little over three ounces of bread per person per day and regular supplies of water fuel and electricity stopped Its epic suffering and endurance earned Leningrad the title of Hero City of the Soviet Union This book is from an article in issue 123 of After the Battle magazine the joint authors were Karel Margry and Ron Hogg

**The Greatest Battles in History** Charles River Charles River Editors,2018-02-14 Includes pictures Includes accounts of the siege by citizens soldiers and important generals Includes a bibliography for further reading The city is dead There is no electricity no trams Warm rooms are rare No water Almost the only form of transport is sleds carrying corpses in plain coffins covered with rags or half clothed Daily six to eight thousand die The city is dying as it has lived for the last half year clenching its teeth Nikolai Markevich s diary entry on January 24 1942 The casualties inflicted on all sides during World War II nearly defy belief and even today estimates of the number of dead differ by tens of millions of people Amid all of the destruction and carnage perhaps nothing symbolizes the war quite like the Siege of Leningrad one of the longest sieges in history and by far the deadliest When the Soviet Nazi non aggression pact of 1939 was broken by a German offensive against Russia the surprised Red Army was quickly driven eastward away from the border with Poland and Russian forces found themselves in a desperate attempt to defend major Russian cities from the Germany invaders Leningrad which had a population of roughly three million on the eve of the German attack was one of the victims of the Russian unpreparedness but once the siege began in the fall of 1941 the Soviets knew they were in a desperate struggle to the death In fact the Russians wouldn t have even been given a chance to surrender if they had wanted to because the orders to the German forces instructed them to completely raze the city After the defeat of Soviet Russia there can be no interest in the continued existence of this large urban center Following the city s encirclement requests for surrender negotiations shall be denied since the problem of relocating and feeding the population cannot and should not be solved by us In this war for our very existence we can have no interest in maintaining even a part of this very large urban population The Russians managed to barely supply the encircled city through a small corridor of land that connected to Lake Ladoga with transports crossing the lake when it froze over in winter This euphemistically became known as the Road of Life but the precarious conditions and the Luftwaffe also left many referring to it as the Road of Death And even though the Nazis never managed to entirely cut off that supply route during the nearly 900 day siege which lasted from September 1941 January 1944 at least 750 000 civilians starved to death one out of every three or four members of the pre siege population The siege was so devastating that estimates of civilian dead from all causes were estimated at over a million To put the massive death toll of the siege of Leningrad in perspective roughly 35 times more civilians died at Leningrad than in the London Blitz and 4 times more died than in the bombings of Nagasaki and Hiroshima combined Of course the civilians were

hardly the only ones struggling around Leningrad during the siege because soldiers on both sides had to deal with combat and terrible weather conditions over the course of nearly 28 months. By the time the siege was lifted the Germans had suffered an estimated 1 million casualties while the Soviets suffered an estimated 1 million dead or missing and over 2 million wounded. Not surprisingly the city itself was a hollow shell of itself with over 11 000 buildings destroyed and wreckage strewn everywhere.

**The Greatest Battles in History: The Siege of Leningrad** comprehensively covers the entire military situation that led up to the siege, analyzes the decisions made by important leaders, and explains the aftermath of the Soviet victory. Along with a bibliography and pictures of important people and places, you will learn about the Siege of Leningrad like never before in no time at all. *Leningrad 1943* Alexander Werth, 2019-10-31

The Siege of Leningrad is the most powerful testimony to the immeasurable cruelty and horror of World War II. From 1941-1945 the Eastern Front was the site of some of the bloodiest atrocities of the war, and the city of Leningrad (now St. Petersburg) proved to be a decisive point in the conflict. German policy was resolutely determined to redraw the map of Europe, annihilate the Soviet Union, and give large areas of territory to Finland. Through Hitler's ambition to completely eradicate the city and its entire population, it was decided that the most efficient method of invasion was to encircle and bombard the city into submission. After 872 days of aggression, one and a half million people lost their lives, mostly from starvation. As the sole British correspondent to have been in Leningrad during the blockade, Alexander Werth's eyewitness account presents a harrowing perspective on the savagery and destruction wrought by the Nazis against the civilian population of the city. His writing evokes compelling images of terror, the oil bombing of children's hospitals, mass starvation, and cannibalism, with rich and sophisticated commentary on the internal politics of Soviet party chiefs, soldiers, and civilian resistance fighters. Both an authoritative historical document and a journalistic retelling of the overwhelming sadness, grief, and futility of 20th-century warfare, this is an invaluable look at one of the greatest losses of human life in recorded history. *The Siege of Leningrad: Epic of Survival* Alan Wykes, 1968

The story of the siege of Leningrad, that lasted for 900 days, the longest siege of modern times and the most violently conducted in history. *Blockade Diary* Elena Kochina, 1990

**Siege of Leningrad** R. Conrad Stein, 1983 Describes the nearly 900-day siege of the Baltic port city of Leningrad during which more than one million Russian civilians died from starvation, cold, and German shells.
