A Natural History of the Senses Diane Ackerman, 1991-09-10 Diane Ackerman's lusciously written grand tour of the realm of the senses includes conversations with an iceberg in Antarctica and a professional nose in New York along with dissertations on kisses and tattoos sadistic cuisine and the music played by the planet Earth Delightful gives the reader the richest possible feeling of the worlds the senses take in The New York Times *A Natural History of the Senses* Diane Ackerman, 1991-12-01 A naturalist guides readers through the human senses discussing the evolution of the kiss the sadistic cuisine of eighteenth century England the chemistry of pain and the melodies of Earth Saturday Review of Literature, 1930

A History of the Senses Robert Jütte, 2005 This path breaking book examines our attitudes to the senses from antiquity through to the present day Robert Jutte explores a wealth of different traditions images metaphors and ideas that have survived through time and describes how sensual impressions change the way in which we experience the world Throughout history societies have been both intrigued or unsettled by the five senses The author looks at the way in which the social world conditions our perception and traces the rediscovery of sensual pleasure in the twentieth century paying attention to experiences as varied as fast food deodorization and extra sensory perception He concludes by exploring technological change and cyberspace reflecting on how developments in these fields will affect our relationship with the senses in the future *A Cultural History of the Senses in the Modern Age* David Howes, 2014-10-23 In the 20th century many aspects of life became a matter of perception in the wake of the multiplication of media stylistic experimentation and the rise of multiculturalism Life sped up as a result of new modes of transportation automobiles and airplanes and communication telephones and personal computers which emphasized the rapid movement of people and ideas The proliferation of synthetic products and simulated experiences from artificial flavors to video games in turn created heady virtual worlds of sensation This progressive mediation and acceleration of sensation along with the sensory and environmental pollution it often spawned also sparked various countertrends such as the back to nature movement the craft movement slow food and alternative medicine This volume shows how attending to the sensory dynamics of the modern age yields many fresh insights into the intertwined processes which gave the 20th century its particular feel of technological prowess and gaudy artificiality *A Cultural History of the Senses in the Modern Age* presents essays on the following topics the social life of the senses urban sensations the senses in the marketplace the senses in religion the senses in philosophy and science medicine and the senses the senses in literature art and the senses and sensory media

A Cultural History of the Senses in the Age of Enlightenment Anne C. Vila, 2014-10-23 This volume examines the varied ways in which the senses were perceived afresh during the Enlightenment In addition to introducing new philosophical and scientific models which sometimes upended the classic hierarchy of the senses this period witnessed major changes in living and working habits including urbanization travel and exploration the invention of new sonic and visual media and the rise of comfort and

pleasure as values that cut across a range of social classes As this volume shows those developments inspired a wealth of sensorially stimulating styles of design art music poetry foodstuffs material goods and modes of worship and entertainment The volume also demonstrates the period's countervailing concern with managing the senses evident in fields like natural philosophy medicine education religion and public hygiene Finally it explores some of the Enlightenment's desensualizing tendencies like the separation of sensuous body from discerning mind in certain arenas of science and manufacturing and the late 18th century shift away from a politics of publicity or intense visual and aural scrutiny toward the secret ballot

A. Dell, 2012-01 Unlike some other reproductions of classic texts 1 We have not used OCR Optical Character Recognition as this leads to bad quality books with introduced typos 2 In books where there are images such as portraits maps sketches etc We have endeavoured to keep the quality of these images so they represent accurately the original artefact Although occasionally there may be certain imperfections with these old texts we feel they deserve to be made available for future generations to enjoy **The Deepest Sense** Constance Classen, 2012-05-15 From the softest caress to the harshest blow touch lies at the heart of our experience of the world Now for the first time this deepest of senses is the subject of an extensive historical exploration *The Deepest Sense A Cultural History of Touch* fleshes out our understanding of the past with explorations of lived experiences of embodiment from the middle ages to modernity This intimate and sensuous approach to history makes it possible to foreground the tactile foundations of Western culture the ways in which feelings shaped society Constance Classen explores a variety of tactile realms including the feel of the medieval city the tactile appeal of relics the social histories of pain pleasure and affection the bonds of touch between humans and animals the strenuous excitement of sports such as wrestling and jousting and the sensuous attractions of consumer culture She delves into a range of vital issues from the uses and prohibitions of touch in social interaction to the disciplining of the body by the modern state from the changing feel of the urban landscape to the technologization of touch in modernity Through poignant descriptions of the healing power of a medieval king's hand or the grueling conditions of a nineteenth century prison we find that history far from being a dry

and lifeless subject touches us to the quick *Our Senses* Rob DeSalle,2018-01-01 A lively and unconventional exploration of our senses how they work what is revealed when they don t and how they connect us to the world Over the past decade neuroscience has uncovered a wealth of new information about our senses and how they serve as our gateway to the world This splendidly accessible book explores the most intriguing findings of this research With infectious enthusiasm Rob DeSalle illuminates not only how we see hear smell touch taste maintain balance feel pain and rely on other less familiar senses but also how these senses shape our perception of the world aesthetically artistically and musically DeSalle first examines the question of how perception and consciousness are formed in the brain setting human senses in an evolutionary context He then investigates such varied themes as supersenses and diminished senses synesthesia and other cross sensory phenomena hemispheric specialization diseases anomalies induced by brain injuries and hallucinations Focusing on what is revealed about our senses through the extraordinary he provides unparalleled insights into the unique wonders of the human brain
