your blood pressure and every 15 minutes check it up to see whether it has gone up or gone down Believe you me there are hypochondriacs like that or you can also call them overly obsessed with their blood pressure who do this futile activity regularly every half an hour And if the blood pressure has not gone down their stress level goes up and the blood pressure goes up accordingly So that is a Catch 22 situation So take a deep breath and think about the last time you got your blood pressure checked Interesting is not it that when you were a kid you definitely do not bother much about blood pressure because you did not know about it But with the coming of the Internet you decided to go online researching for blood pressure And you got 178 000 000 sites depending on the browser which you are using telling you something about blood pressure Now that you are thoroughly confused it is time I begin to tell you about the reality behind blood pressure and why there are just some moments when you need to be scared about it But do not go extending your arm to a doctor saying Doctor please check my blood pressure you checked it in the morning has it gone down in a very anxious squeak three times a day It takes a little while for your blood pressure to go down or even to go up So if you have just taken a medicine and expect it to have a miraculous effect within the next 15 minutes not gonna happen especially if you are still stressed out tense not relaxing or are suffering from blood pressure as a side effect and symptom of some long chronic ailment For millenniums people knew that there was something which caused people to suffer from heart disease one sudden heart attack or stroke Believe it or not in today s world and in countries where lifestyles are full of stress and tension one out of every four persons is suffering from high blood pressure or low blood pressure And every day at least 400 people all over the world have a heart attack which could have been prevented or suffer from a stroke This book is going to tell you about a large number of natural remedies on home remedies for high blood pressure and low blood pressure
