## **Natural Resources Information For Economic Development A Study Hardcover:**

Environmental and Natural Resources Economics Steven Hackett, Sahan T. M. Dissanayake, 2014-12-18 Extensively revised and updated this popular text presents an accessible yet rigorous treatment of environmental and natural resources economics including climate change and the economics of sustainability Completely revised and updated the fourth edition now includes new figures and tables definitions to assist the reader and updated policy information New advances in the science economics and policy approaches to climate change have been integrated into essentially all new chapters on incentive regulation and global climate change This innovative textbook integrates economics with science and public policy in a balanced and accessible way that will be appreciated by students from disciplines ranging from economics and natural resources management to environmental studies and energy policy *The Economics of Natural Resources in Latin America* Osmel E. Manzano M., Fernando Navajas, Andrew Powell, 2017-11-15 Revenues from commodities are extremely important for Latin America and the Caribbean yet there is very little literature on the structure of these industries and on the various ways in which the state obtains commodity revenues This book aims to understand the trade off between the degree of taxation overall the profitability of the relevant industry and the amount of investment and subsequent production in the region as well as the relevance of institutions in the performance of the sector This volume focuses on economic efficiency where Latin America stands in terms of the current tax system for the extractive sector how policies have changed in this regard and how policies may be improved The Economics of Natural Resources in Latin America is timely since this new era of lower and volatile prices and possible reconfiguration of investment flows poses a challenge to natural resource tax systems in the world The argument of the book will be made by a collection of papers around the issue of tax efficiency in the region and concludes with chapters on institutions and the role of transparency This book shows that there are varieties of experiences in resource taxation and management of revenues in Latin America that could be used to shape policy interventions in other regions This variety is not only related to their diverse impact on welfare but also on the policy challenges faced by the countries in the region This volume is well suited for those who study and find interest in development economics political economy and public finance as well as policy *Natural Resources Information for Economic Development* Orris Clemens Herfindahl, 1967 **Natural Resources Information for Economic Development** Orris Clemens Herfindahl, 1969 An analysis of the effectiveness of various information gathering programs and techniques Has world wide application **Papers in ITJEMAST 12(6) 2021** , International Transaction Journal of Engineering Management Applied Sciences Technologies publishes a wide spectrum of research and technical articles as well as reviews experiments experiences modelings simulations designs and innovations from engineering sciences life sciences and related disciplines as well as interdisciplinary cross disciplinary multidisciplinary subjects Original work is required Article submitted must not be under consideration of other publishers for publications **Gender in Agriculture Sourcebook**

World Bank, Food and Agriculture Organization (FAO), International Fund for Agricultural Development (IFAD), 2008-10-07

The Gender in Agriculture Sourcebook provides an up to date understanding of gender issues and a rich compilation of compelling evidence of good practices and lessons learned to guide practitioners in integrating gender dimensions into agricultural projects and programs. It serves as a tool for guidance showcasing key principles in integrating gender into projects stimulating the imagination of practitioners to apply lessons learned experiences and innovations to the design of future support and investment in the agriculture sector. The Sourcebook draws on a wide range of experience from World Bank Food and Agriculture Organization FAO International Fund for Agricultural Development IFAD and other donor agencies governments institutions and groups active in agricultural development. The Sourcebook looks at access to and control of assets access to markets information and organization and capacity to manage risk and vulnerability through a gender lens. There are 16 modules covering themes of cross cutting importance for agriculture with strong gender dimensions: Policy Public Administration and Governance Agricultural Innovation and Education Food Security Markets Rural Finance Rural Infrastructure Water Land Labor Natural Resource Management and Disaster and Post Conflict Management and specific subsectors in agriculture: Crops Livestock Forestry and Fisheries. A separate module on Monitoring and Evaluation is included responding to the need to track implementation and development impact. Each module contains three different sub units: 1 A Module Overview gives a broad introduction to the topic and provides a summary of major development issues in the sector and rationale of looking at gender dimension 2 Thematic Notes provide a brief and technically sound guide in gender integration in selected themes with lessons learned guidelines checklists organizing principles key questions and key performance indicators and 3 Innovative Activity Profiles describe the design and innovative features of recent and exciting projects and activities that have been implemented or are ongoing.

*Livelihoods, Natural Resources, and Post-Conflict Peacebuilding* Helen Young, Lisa Goldman, 2015-04-10

Sustaining and strengthening local livelihoods is one of the most fundamental challenges faced by post conflict countries. By degrading the natural resources that are essential to livelihoods and by significantly hindering access to those resources conflict can wreak havoc on the ability of war torn populations to survive and recover. This book explores how natural resource management initiatives in more than twenty countries and territories have supported livelihoods and facilitated post conflict peacebuilding. Case studies and analyses identify lessons and opportunities for the more effective design of interventions to support the livelihoods that depend on natural resources from land to agriculture forestry fisheries and protected areas. The book also explores larger questions about how to structure livelihoods assistance as part of a coherent integrated approach to post conflict redevelopment. *Livelihoods and Natural Resources in Post Conflict Peacebuilding* is part of a global initiative to identify and analyze lessons in post conflict peacebuilding and natural resource management. The project has generated six books of case studies and analyses with contributions from practitioners policy makers and researchers. Other books in this series address

governmental structures in place it requires good governance Natural resources are essential to sustaining people and peace in post conflict countries but governance failures often jeopardize such efforts This book examines the theory practice and often surprising realities of post conflict governance natural resource management and peacebuilding in fifty conflict affected countries and territories It includes thirty nine chapters written by more than seventy researchers diplomats military personnel and practitioners from governmental intergovernmental and nongovernmental organizations The book highlights the mutually reinforcing relationship between natural resource management and good governance Natural resource management is crucial to rebuilding governance and the rule of law combating corruption improving transparency and accountability engaging disenfranchised populations and building confidence after conflict At the same time good governance is essential for ensuring that natural resource management can meet immediate needs for post conflict stability and development while simultaneously laying the foundation for a sustainable peace Drawing on analyses of the close relationship between governance and natural resource management the book explores lessons from past conflicts and ongoing reconstruction efforts illustrates how those lessons may be applied to the formulation and implementation of more effective governance initiatives and presents an emerging theoretical and practical framework for policy makers researchers practitioners and students Governance Natural Resources and Post Conflict Peacebuilding is part of a global initiative to identify and analyze lessons in post conflict peacebuilding and natural resource management The project has generated six books of case studies and analyses with contributions from practitioners policy makers and researchers Other books in this series address high value resources land water livelihoods and assessing and restoring natural resources

**Corporate Social Responsibility and Natural Resource Conflict** Kylie McKenna, 2015-10-23 This book examines the possibilities and limitations of corporate social responsibility in minimising the violent conflict often associated with natural resource exploitation Through detailed and penetrating empirical analysis the author skilfully asks why previous corporate social responsibility practices have not always achieved their aims This theme is explored through an analysis of two of the most complex and protracted conflicts linked to natural resources in the Asia Pacific region Bougainville Papua New Guinea and West Papua Indonesia Drawing on first hand accounts of corporate executives and communities affected by resource conflict this book documents the translation of global corporate social responsibility into local peace Covering topics as diverse as post colonialism law revenue distribution security the environment and customary reconciliation this ambitious text reveals how and why current corporate social responsibility initiatives may be unable to assist extractive companies avoid social conflict The study concludes that this is attributable to the failure of extractive companies to respond to the social and environmental issues of most concern to local host communities The idea is that extractive companies could actively contribute to peace building if they were to engage with the interdependencies between business activity and the root causes of conflict What sets this book apart is that it offers a holistic framework for extractive companies to engage with the

complexity of resource conflict Interdependent Engagement is an integrated model of corporate social responsibility that encourages extractive companies to deal with the underlying causes of resource conflict rather than applying solutions or critiques of their symptoms *Governance, Conflict, and Natural Resources in Africa* Hany Gamil Besada, 2021-04-22 A country's abundant natural resources may serve as a curse or a blessing with the outcome often dependent on prevailing governance structures and experience managing these assets Despite natural resource advantages many African countries have failed to transform their enormous economic potential and wealth into tangible benefits such as sustainable socio-economic development human security or peace *Governance Conflict and Natural Resources in Africa* reevaluates the role that foreign state owned and private sector actors play in resource rich states whether stable post conflict or fragile in sub-Saharan Africa Through research and an analysis of in depth interviews with local stakeholders in Ghana Sierra Leone and Ethiopia Hany Besada explains how foreign state owned and private sector corporations have contributed to economic growth at both the national and local levels in different resource rich countries This book reveals the unique challenges and opportunities created by these investors demonstrating that new policies in business practices and operations have the potential to generate sustainable development and positive economic transformation *Governance Conflict and Natural Resources in Africa* puts forward a novel framework for understanding the role of private economic actors in extractive industries in Africa and sheds new light on foreign private sector contributions to capacity building and economic development

**Governing Natural Resources for Africa's Development** Hany Gamil Besada, 2016-09-13 Bringing together some of the world's leading thinkers and policy experts in the area of natural resource governance and management in Africa this volume addresses the most critical policy issues affecting the continent's ability to manage and govern its precious resources The narrative of the book is solutions driven as experts weigh on specific issues within the context of Africa's natural resource governance and offer appropriate policy recommendations on how to best manage the continent's resources This is a must read for government policy makers in industrialized economies and more importantly in Africa and emerging economies as well as for academic researchers working in the field extractive companies operating on the continent extractive industry and trade associations and multilateral and donor aid institutions

**Reclaiming Economic Sovereignty in Africa** Horman Chitonge, 2025-04-08 This book has examined the way African countries utilise their natural wealth It has illustrated that weak economic sovereignty accounts for the irony that the most endowed continent on the planet has ended being the most impoverished It is argued in this book that weak economic sovereignty in Africa has several implications including the situation where the continent is unable to make the most out of its abundant natural wealth Weak economic sovereignty on the continent is manifested in the low levels of financial and monetary sovereignty among African countries but most importantly in low productive capabilities The conditions of low productive capabilities prevailing on the African continent have created a situation where most African countries are locked into economically debilitating

dependencies including dependence on commodity export such that they only get a tiny proportion of the value generated from natural resources extracted from their territories The book has also argued that the persisting weak economic sovereignty on the continent is a clear indication that while African countries attained political sovereignty six decades ago attaining economic sovereignty has remained an incomplete liberation project that requires a new strategy to accomplish

Creative Insecurity Dania Thafer, 2023-06-23 The Middle East is experiencing the world's most prominent youth bulge Yet many MENA economies institutional designs both formal and informal favour the power of business elites systematically discriminating against young people joining the workforce or opening businesses and thus limiting their ability to contribute to innovation Large youth populations can be a boon or a curse nurtured and integrated they can jumpstart stratospheric growth but if alienated and confined they can drain a society politically and economically The Gulf Cooperation Council countries are no exception to this perilous dilemma This book explores the problem through a new concept creative insecurity a state's subjection to an institutional ecosystem that is suppressing opportunities for innovation to the extent that it is causing economic and political vulnerabilities which in turn threaten national security Creative insecurity threatens the longevity of many states today In this original incisive study Dania Thafer argues that GCC member states should make it a national security imperative to cash in their demographic dividend by averting the deleterious effects of ill disposed elite politics Investing in an innovation ecosystem that harnesses the talent of the youth majority will be crucial for the GCC's successful transition to the post oil era

Markets and Development Toby Carroll, Darryl Jarvis, 2017-10-02 Markets and Development presents a series of critical contributions focused on the political relationship between citizens civil society and neoliberal development policy's latest form The dramatic increase of access to finance investments newly gender sensitive approaches to building neoliberal labour markets the universal promotion of public private partnerships and the development financing of extractive industries have all seen citizens social movements and NGOs variously engaged in and against neoliberalism like never before The precise form that this engagement takes is conditioned by both the perceived and real opportunities and the risks of an agenda which seeks to intern emerging and frontier markets deep within a concretising world market with transformative repercussions for both those involved and notably for state society relations The contributors to this volume focus on essential aspects of the contemporary neoliberal development agenda and its relationship to and with citizens and civil society tackling questions related to the roles that various actors within civil society in the underdeveloped world are playing under late capitalism and how these roles relate to current efforts to establish and extend markets and market society more broadly in a neoliberal image This book was originally published as a special issue of Globalizations

*Policy Instruments for Environmental and Natural Resource Management* Thomas Sterner, Jessica Coria, 2013-10-30 Thomas Sterner's book is an attempt to encourage more widespread and careful use of economic policy instruments The book compares the accumulated experiences of the use of economic policy instruments in the U S and

Europe as well as in rich and poor countries in Asia Africa and Latin America Ambitious in scope it discusses the design of instruments that can be employed in any country in a wide range of contexts including transportation industrial pollution water pricing waste fisheries forests and agriculture While deeply rooted in economics Policy Instruments for Environmental and Natural Resource Management is informed by political legal ecological and psychological research The new edition enhances what has already been widely hailed as a highly innovative work The book includes greatly expanded coverage of climate change covering aspects related to policy design international equity and discounting voluntary carbon markets permit trading in United States and the Clean Development Mechanism Focusing ever more on leading ideas in both theory and policy the new edition brings experimental economics into the main of its discussions It features expanded coverage of the monitoring and enforcement of environmental policy technological change the choice of policy instruments under imperfect competition and subjects such as corporate social responsibility bio fuels payments for ecosystem services and REDD

**Natural Resources and the Green Economy** ,2012-09-28 Considering that natural resources or green capital are the drivers of globalisation this book focuses on the link between investment trade and natural resource management in the context of the growing economic inequalities between states It argues that there is a need to pay attention to the environmental and social conflicts arising out of economic globalisation and the response of regulatory and institutional mechanisms to the challenges of rapid resource depletion This book will provide the readers a better understanding of the overlapping legal regimes disagreement and diversities of legal processes and the benefits and risks associated with sustainable management of the natural resource sector

**Managing Africa's Natural Resources** K. Hanson,C. D'Alessandro,F. Owusu,2014-09-23 The authors investigate well known concerns in natural resource management in Africa while focusing on the capacity dimension of the problems They examine dynamics of leadership governance criminality structural transformation as well as emerging issues such as green growth
