**Computational, Geometric, and Process Perspectives on Facial Cognition** Michael J. Wenger,James T. Townsend,2005-04-11 Within the last three decades interest in the psychological experience of human faces has drawn together cognitive science researchers from diverse backgrounds Computer scientists talk to neural scientists who draw on the work of mathematicians who explicitly influence those conducting behavioral experiments The chapters in this volume illustrate the breadth of the research on facial perception and memory with the emphasis being on mathematical and computational approaches In pulling together these chapters the editors sought to do much more than illustrate breadth They endeavored as well to illustrate the synergies and tensions that inevitably result from adopting a broad view one consistent with the emerging discipline of cognitive science

**Philosophy of Language** Colin McGinn,2015-01-16 Many beginning students in philosophy of language find themselves grappling with dense and difficult texts not easily understood by someone new to the field This book offers an introduction to philosophy of language by explaining ten classic often anthologized texts Accessible and thorough written with a unique combination of informality and careful formulation the book addresses sense and reference proper names definite descriptions indexicals the definition of truth truth and meaning and the nature of speaker meaning as addressed by Frege Kripke Russell Donnellan Kaplan Evans Putnam Tarski Davidson and Grice The explanations aim to be as simple as possible without sacrificing accuracy critical assessments are included with the exposition in order to stimulate further thought and discussion

Philosophy of Language will be an essential resource for undergraduates in a typical philosophy of language course or for graduate students with no background in the field It can be used in conjunction with an anthology of classic texts sparing the instructor much arduous exegesis ContentsFrege on Sense and Reference Kripke on Names Russell on Definite Descriptions Donnellan s Distinction Kaplan on Demonstratives Evans on Understanding Demonstratives Putnam on Semantic Externalism Tarski s Theory of Truth Davidson s Semantics for Natural Language Grice s Theory of Speaker Meaning

*Listening in the Language Classroom* John Field,2009-01-22 This book challenges the orthodox approach to the teaching of second language listening which is based upon the asking and answering of comprehension questions The book s central argument is that a preoccupation with the notion of comprehension has led teachers to focus upon the product of listening in the form of answers to questions ignoring the listening process itself The author provides an informed account of the psychological processes which make up the skill of listening and analyses the characteristics of the speech signal from

which listeners have to construct a message Drawing upon this information the book proposes a radical alternative to the comprehension approach and provides for intensive small scale practice in aspects of listening that are perceptually or cognitively demanding for the learner Listening in the Language Classroom was winner of the Ben Warren International Trust House Prize in 2008      *Analysing Interactions in Childhood* Hilary Gardner, Michael Forrester, 2009-12-01 Offers a fresh perspective on how conversation analysis can be used to highlight the sophisticated nature of what children actually do when interacting with their peers parents and other adults Brings together a contributor team of leading experts in the emerging field of child focused conversation analytic studies from both academic and professional research backgrounds Includes examples of typically developing children and those who face a variety of challenges to participation as they interact with parents and friends teachers counsellors and health professionals Encompasses linguistic psychological and sociological perspectives Offers new insights into children s communication as they move from home into wider society highlighting how this is expressed in different cultural contexts      **Popular Science** ,1927-12 Popular Science gives our readers the information and tools to improve their technology and their world The core belief that Popular Science and our readers share The future is going to be better and science and technology are the driving forces that will help make it better      **John Angell James; a review of his history, character, eloquence, and literary labours** John Campbell, 1860      John Angel James John Campbell, 1860
