Natural World Of New Zealand:

The East India Company and the Natural World V. Damodaran,A. Winterbottom,A. Lester,2014-12-01 This book is the first to explore the deep and lasting impacts of the largest colonial trading company the British East India Company on the natural environment The contributors drawn from a wide range of academic disciplines illuminate the relationship between colonial capital and the changing environment between 1600 and 1857 *Curiositree: Natural World* AJ Wood,Mike Jolley,2016-07-12 A first introduction to the natural world that looks at the myriad ways in which plants and animals have adapted to give themselves the best chance of survival Natural World explores and explains why living things look and behave the way they do in a series of visually compelling information charts *Man and the Natural World* Keith Thomas,1991-09-26 Man and the Natural World an encyclopaedic study of man s relationship to animals and plants is completely engrossing It explains everything why we eat what we do why we plant this and not that why we keep pets why we like some animals and not others why we kill the things we kill and love the things we love It is often a funny book and one to read again and again Paul Theroux Sunday Times The English historian Keith Thomas has revealed modes of thought and ways of life deeply strange to us Hilary Mantel New York Review of Books A treasury of unusual historical anecdote a delight to read and a pleasure to own Auberon Waugh Sunday Telegraph A dense and rich work the return to the grass roots of our own environmental convictions is made by the most enchantingly minor paths Ronald Blythe Guardian **Travel Writing and the Natural World, 1768-1840** P. Smethurst,2012-10-10 Taking as a starting point the parallel occurrence of Cook s Pacific voyages the development of natural history scenic tourism in Britain and romantic travel in Europe this book argues that the effect of these practices was the production of nature as an abstract space and that the genre of travel writing had a central role in reproducing it Imperialism and the natural world John M. MacKenzie,2017-03-01 Imperial power both formal and informal and research in the natural sciences were closely dependent in the nineteenth century This book examines a portion of the mass produced juvenile literature focusing on the cluster of ideas connected with Britain s role in the maintenance of order and the spread of civilization It discusses the political economy of Western ecological systems and the consequences of their extension to the colonial periphery particularly in forms of forest conservation Progress and consumerism were major constituents of the consensus that helped stabilise the late Victorian society but consumerism only works if it can deliver the goods From 1842 onwards almost all major episodes of coordinated popular resistance to colonial rule in India were preceded by phases of vigorous resistance to colonial forest control By the late 1840s a limited number of professional positions were available for geologists in British imperial service but imperial geology had a longer pedigree Modern imperialism or municipal imperialism offers a broader framework for understanding the origins long duration and persistent support for overseas expansion which transcended the rise and fall of cabinets or international realignments in the 1800s Although medical scientists began to discern and control the microbiological causes of tropical ills

after the mid nineteenth century the claims for climatic causation did not undergo a corresponding decline Arthur Pearson s Pearson s Magazine was patriotic militaristic and devoted to royalty The book explores how science emerged as an important feature of the development policies of the Colonial Office CO of the colonial empire   **The Natural World in Latin American Literatures** Adrian Taylor Kane,2014-01-10 From the Popol Vuh to postmodernism imagery of the natural world has played an important role in Latin American literature In contrast to the rise of ecocritical scholarship in Anglophone literary studies Latin American literary ecocriticism has been slower to take root This volume of eleven essays seeks to advance the ecocritical conversation among Latin Americanists furthering insight into the relationship between humans and their environments The essays address regions as diverse as Patagonia and the Chihuahua Desert   **The nature park guide for Paparoa National Park (New Zealand)** ,2025-09-26   **New Zealand in Pictures** Francesca DiPiazza,2005-09-01 Describes the history government economy people geography and cultural life of New Zealand   **The World in Your Hands. Beattie,2011-05-25 A new interpretation of imperialism and environmental change and the anxieties imperialism generated through environmental transformation and interaction with unknown landscapes Tying together South Asia and Australasia this book demonstrates how environmental anxieties led to increasing state resource management conservation and urban reform   *Leisure and the Politics of the Environment* Louise Mansfield,Belinda Wheaton,2023-04-14 Within leisure studies there is a growing awareness and intensifying conscience about the potential environmental threat posed by the continued and unmanaged economic growth and development of sport tourism and leisure This collection brings together explicit discussions from a range of fields including environmental geography consumer research sociology and politics of the increasing relevance and complexities of environmental politics in leisure studies It provides a snapshot into the wide ranging debates on the politics of the environment and leisure sport tourism and serves as a starting point for further dialogue between leisure studies scholars and those in other disciplines where many of environmental debates have been advanced The volume will be of great value to scholars and practitioners in the areas of leisure studies conservation and local politics This book was published as a special issue of Leisure Studies   *Changing Representations of Nature and the City* Gabriel N. Gee,Alison Vogelaar,2018-07-04 The turn of the 1960s 70s characterized by the rapid acceleration of globalization prompted a radical transformation in the perception of urban and natural environments The urban revolution and related prospect of the total urbanisation of the planet in concert with rapid population growth and resource exploitation instigated a surge in environmental awareness and activism One implication of this moment is a growing recognition of the integration and interconnection of natural and urban

entities The present collection is an interdisciplinary inquiry into the changing modes of representation of nature in the city beginning from the turn of the 1960s 70s Bringing together a number of different disciplinary approaches including architectural studies and aesthetics heritage studies and economics environmental science and communication the collection reflects upon the changing perception of socio natures in the context of increasing urban expansion and global interconnectedness as they are were manifest in specific representations Using cases studies from around the globe the collection offers a historical and theoretical understanding of a paradigmatic shift whose material and symbolic legacies are still accompanying us in the early 21st century **The World to Come** Lloyd Geering,2015-12-23 The Christian era is at an end after two thousand years the religious faith that has shaped western civilisation has been found wanting So argues Lloyd Geering in a controversial examination of society and religion in which he looks at the reasons for Christianity s decline and the likely shape of spirituality in a global future Geering a renowned writer and thinker on social and religious issues warns of endings and potential catastrophes But he sees grounds for hope in our increasing awareness of our human predicament claiming that a new global consciousness could provide the spiritual dimension to an evolving international culture
