MARAKELLUM Sawyer N. Winter, 2010-09-01 GolGanth a wizard from the past decides to bring help to a threatened galaxy He leads Rodger Rodgers on a trail of deceit and misdirection while gradually accomplishing his goals His subterfuge is aided by the ego of his forced accomplice Rodgers Steadily solving problems using both magic and double meaning information GolGanth works toward his target in secrecy While seeming to fix one thing he successfully misleads our hero in the proper direction Several humorous setbacks are encountered generated by misunderstanding Despite numerous obvious clues the would be savior goes through the story in a haze of oblivion as he misinterprets nearly everything This is credited to his sarcastic flippant attitude which he uses as a tool to lighten the seriousness of the situation **Quentin Tarantino**

Edward Gallafent, 2014-09-11 Quentin Tarantino is one of the best known living American filmmakers in the world and the story of his career has been the subject of a number of books and articles But what do his films mean In this new study Edward Gallafent does not look at Tarantino s story but at the films themselves He asks to what extent Tarantino can be seen as a specifically American filmmaker with the kinds of preoccupations and interests that have formed part of Hollywood s traditions and also how he explores the expressive possibilities of current cinema The book concentrates on the main feature films of Tarantino s career so far Reservoir Dogs Pulp Fiction Jackie Brown and the two volumes of Kill Bill Apart from Kill

Bill the films are not treated individually but in terms of some of the subjects that connect them together such as success and tradition their notorious deployment of violence and Tarantino s approach to story telling his interest in presenting events out of chronological order The book also covers adaptations of Tarantino s work looking at the screenplays of True Romance and Natural Born Killers as well as the films made from them and compares Tarantino s approach to adapting Elmore Leonard with that of another important American filmmaker Paul Schrader The aim of the book is to explore these topics and to take the reader back to what the American critic Robert Warshow called the actual immediate experience of seeing and responding to the movies It is designed to appeal both to those who were excited by the films on first seeing them in the cinema and to those taking the opportunity of reconsidering them on the screen or on DVD Gothic Realities L. Andrew Cooper,2014-01-10

Eighteenth century critics believed Gothic fiction would inspire deviant sexuality instill heretical beliefs and encourage antisocial violence this book puts these beliefs to the test After examining the assumptions behind critics fears it considers nineteenth century concerns about sexual deviance showing how Frankenstein Dr Jekyll and Mr Hyde Dorian Gray and other works helped construct homosexuality as a pathological dangerous phenomenon It then turns to television and film particularly Buffy the Vampire Slayer and David DeCoteau s direct to video movies to trace Gothicized sexuality s lasting impact Moving to heretical beliefs Gothic Realities surveys ghost stories from Dickens s A Christmas Carol to Poltergeist articulating the relationships between fiction and the real supernatural Finally it considers connections between Gothic horror and real world violence especially the tragedies at Columbine and Virginia Tech

about mass media violence tend to ignore the long history of staged violence in the theatres and rituals of many cultures In *Theatres of Human Sacrifice* Mark Pizzato relates the appeal and possible effects of screen violence today in sports movies and television news to specific sacrificial rites and performance conventions in ancient Greek Aztec and Roman culture Using the psychoanalytic theories of Lacan Kristeva and Žižek as well as the theatrical theories of Artaud and Brecht the book offers insights into the ritual lures and effects of current mass media spectatorship especially regarding the pleasures purposes and risks of violent display Updating Aristotle's notion of catharsis Pizzato identifies a sacrificial imperative within the human mind structured by various patriarchal cultures and manifested in distinctive rites and dramas with both positive and negative potential effects on their audiences
