A Bible for A Thoughtfull Skeptic, the Natural History of Intelligence
Thom Pain, Jr., 2005-02 This book makes the case for realistic faith in the power of intelligence as opposed to blind faith in the pronouncements of those who claim infallibility or divine guidance The author Thom Pain identifies the discoveries of systems and information theory early in the twentieth century as the key to a naturalistic explanation of purposeful life and intelligence and to the last stage in the emancipation of science from theology He begins his story with the discoveries that revealed the memory mechanism as a built in tropisms for truth that gave even primitive creatures a logical tool for improving their decisions and solving their problems It is a story that reveals a surprisingly early version of intelligence and an amazing versatility in the types and range of intelligence When one species developed symbolic languages it becomes the story of the cultural developments of the human species As civilization evolved Thom identifies the rulers and the ruling classes as both the leaders and the obstacles to intellectual progress In their new role the rulers either claimed to be gods or the representative of the gods and often led the exploitation that had become the privilege of conquerors and of the ruling classes Indoctrinated faith and loyalty became authoritarian tools of aggression and oppression In this cruel environment religion also became a source of moral strength and initiative for the oppressed and religious rebels were often the leaders in the struggles for political and intellectual freedom These struggles were not about the belief in God but about the abuses of authority by those who claimed to be the representatives of God Thom follows this story as it sharpened the distinction
