Natural Magic Renée Bergland, 2024-04-30 A captivating portrait of the poet and the scientist who shared an enchanted view of nature Emily Dickinson and Charles Darwin were born at a time when the

science of studying the natural world was known as natural philosophy a pastime for poets priests and schoolgirls The world began to change in the 1830s while Darwin was exploring the Pacific aboard the Beagle and Dickinson was a student in Amherst Massachusetts Poetry and science started to grow apart and modern thinkers challenged the old orthodoxies offering thrilling new perspectives that suddenly felt radical and too dangerous for women Natural Magic intertwines the stories of these two luminary nineteenth century minds whose thought and writings captured the awesome possibilities of the new sciences and at the same time strove to preserve the magic of nature Just as Darwin s work was informed by his roots in natural philosophy and his belief in the interconnectedness of all life Dickinson s poetry was shaped by her education in botany astronomy and chemistry and by her fascination with the enchanting possibilities of Darwinian science Casting their two very different careers in an entirely fresh light Ren e Bergland brings to life a time when ideas about science were rapidly evolving reshaped by poets scientists philosophers and theologians alike She paints a colorful portrait of a remarkable century that transformed how we see the natural world Illuminating and insightful Natural Magic explores how Dickinson and Darwin refused to accept the separation of art and science Today more than ever we need to reclaim their shared sense of ecological wonder

The Cambridge History of Magic and Witchcraft in the West David J. Collins, S. J., 2015-03-02 This book presents twenty chapters by experts in their fields providing a thorough and interdisciplinary overview of the theory and practice of magic in the West Its chronological scope extends from the Ancient Near East to twenty first century North America its objects of analysis range from Persian curse tablets to US neo paganism For comparative purposes the volume includes chapters on developments in the Jewish and Muslim worlds evaluated not simply for what they contributed at various points to European notions of magic but also as models of alternative development in ancient Mediterranean legacy Similarly the volume highlights the transformative and challenging encounters of Europeans with non Europeans regarding the practice of magic in both early modern colonization

and more recent decolonization Magic, Witchcraft and the Otherworld Susan Greenwood, 2020-08-02 Anthropology's long and complex relationship to magic has been strongly influenced by western science and notions of rationality. This book takes a refreshing new look at modern magic as practised by contemporary Pagans in Britain. It focuses on what Pagans see as the essence of magic: a communication with an otherworldly reality. Examining issues of identity, gender, and morality, the author argues that the otherworld forms a central defining characteristic of magical practice. Integrating an experiential ethnographic approach with an analysis of magic, this book asks penetrating questions about the nature of otherworldly knowledge and argues that our scientific frameworks need re-envisioning. It is unique in providing an insider's view of how magic is practised in contemporary western culture **The Path of the Hedge Witch** Joanna van der Hoeven, 2022-10-08

Monter, 2002-12-23 A compact survey of the European witch craze of the early modern period, a craze that later spilled over to America **Witchcraft and Magic in Europe, Volume 4** William Monter, 2002-01-01 The fifteenth to eighteenth centuries were a period of witchcraft prosecutions throughout Europe, and modern scholars have now devoted a huge amount of research to these episodes. This volume will attempt to bring this work together by summarising the history of the trials in a new way, according to the types of legal systems involved. Other topics covered will be the continued practical use made of magic, the elaboration of demonological theories about witchcraft and magic, and the further development of scientific interests in natural magic through the Neoplatonic and Hermetic period. Amongst the topics included here are Superstition and Belief in high and popular culture, the place of Medicine, Witchcraft survivals in art and literature, and the survival of Persecution Witchcraft in the Middle Ages Jeffrey Burton Russell, 1972 Building on a foundation of newly discovered primary sources and recent secondary interpretations, Jeffrey Burton Russell first establishes the facts and then explains the phenomenon of witchcraft in terms of its social and religious environment, particularly in relation to medieval heresies.

The Nature of Magic Susan Greenwood, 2020-06-03 This book examines how and why practitioners of nature religion Western witches druids shamans seek to relate spiritually with nature through magical consciousness Magic and consciousness are concepts that are often fraught with prejudice and ambiguity respectively Greenwood develops a new theory of magical consciousness by arguing that magic ultimately has more to do with the workings of the human mind in terms of an expanded awareness than with socio cultural explanations She combines her own subjective insights gained from magical practice with practitioners in depth accounts and sustained academic theory on the process of magic She also tracks magical consciousness in philosophy myth folklore story telling and the hi tech discourse of postmodernity and asks important questions concerning nature religion s environmental credentials such as whether it is inherently ecological as many of its practitioners claim
