Nature Of History:

The Nature of History Arthur Marwick, 1989 Developed for students and general readers looking for a concise guide to the methods and purposes of historical study this book seeks to explore the nature of historical evidence to show how history comes to be written and to offer a basis on which good history can be distinguished from bad

The New Nature of History Arthur Marwick, 2001-07-12 Addressing the key questions of what history is and why and how one studies it this rewritten version of *The Nature of History* 1970 makes a forceful attack on post modernism and argues for the importance to society of the study of the past

The Nature of History Reader Keith Jenkins, Alun Munslow, 2004 The question of what the nature of history is is a key issue for all students of history It is recognized by many that the past and history are different phenomena and that the way the past is actively historicized can be highly problematic and contested

The Nature of History Arthur Marwick, 2001

The Unity of Nature and History in Pannenberg's Theology Cornelius A. Buller, 1996 The Unity of Nature and History in Pannenberg's Theology addresses the problematic relationship of humans to the non human world by analyzing Wolfhart Pannenberg's theology and ethics

Nature, History, State Martin Heidegger, 2013-10-10 Nature History State 1933 1934 presents the first complete English language translation of Heidegger's seminar On the Essence and Concepts of Nature History and State together with full introductory material and interpretive essays by five leading thinkers and scholars Robert Bernasconi Peter Eli Gordon Marion Heinz Theodore Kiesel and Slavoj Žižek The seminar which was held while Heidegger was serving as National Socialist rector of the University of Freiburg represents important evidence of the development of Heidegger's political thought The text consists of ten protocols on the seminar sessions composed by students and reviewed by Heidegger The first session's protocol is a rather personal commentary on the atmosphere in the classroom but the remainder have every appearance of being faithful transcripts of Heidegger's words in which he raises a variety of fundamental questions about nature history and the state The seminar culminates in an attempt to sketch a political philosophy that supports the Führer state The text is important evidence for anyone considering the tortured question of Heidegger's Nazism and its connection to his philosophy in general

History as a Social Science F. Dovring, 2012-12-06 This essay has grown out of an attempt to find the answers to problems basically inherent in the making of historical research Widespread among humanists is a vagueness of concepts which many times makes it difficult or impossible to translate our way of thinking into the terms of natural science or vice versa It sounds sometimes as if humanistic studies were a world of its own rather than a part of the natural world we all live in How long can we go on believing that there are different kinds of knowledge To this conflict of theory another is added a feeling of urgency about cultural problems that are too often left to the future to solve History is not as some natural

scientists tend to believe a matter of no practical consequence It is a virulent factor in political and social conflicts and a basic substance in the structure of our personalities The present dynamic epoch raises with particular stress the problem of understanding the conditioning influence which the past exercises upon the present in each particular community Such a substance is neither a toy for pastime hobbies nor an innocent weapon in the hands of dictators Which is then the responsibility of the historian both for what he does and for what he abstains from doing The necessity to stay independent in order to approach objectivity makes for no easy answer

Human Tissue in the Realist Novel, 1850-1895 Ben Moore, 2023-03-20 This Pivot engages with current debates about anthropocentrism and the Anthropocene to propose a reappraisal of the realist novel in the second half of the nineteenth century Through three case studies it argues for human tissue as a conceptual tool for reading that brings together biology literature and questions of layering This new approach is shown to be especially salient to the Victorian period when the application of tissue to biology first emerges The book is distinctive in bringing together theoretical concerns around realism and the Anthropocene two major topics in literary criticism and presenting a new methodology to approach this conjunction demonstrated through original readings of Charles Kingsley George Eliot and Emile Zola and two English language writers he influenced George Moore and Vernon Lee

The Routledge Companion to Historical Theory Chiel van den Akker, 2021-11-15 This Companion provides a wide ranging and up to date overview of the conceptual issues that history as a discipline and mode of thought gives rise to The book offers both historical and systematic treatments of these issues as well as addressing their contemporary relevance Structured in three parts Modes and Schools of Historical Thought Epistemology and Metaphysics of History and Issues and Challenges in Historical Theory it offers the reader a wide scope and expert treatment of each topic in this vibrant field that can be read in any order An international team of experts both discuss the basis of their topic and present their own view offering the reader a cutting edge contribution while ensuring their chapters are of interest to both students and specialists in the field of historical theory and engaging with the very nature of historical thought the metaphysics of historical existence the politics of history writing and the intelligibility of the historical process The volume is an indispensable companion to the study of history and essential reading for anyone interested in the reflection on the nature of history and our historical existence

Nature, Culture, and History K. R. Howe, 2000-03-01 Explores the changing ways in which Pacific Islanders have been seen and represented by outsiders over the last 200 years The Pacific Islands has been a testing ground for various Western ideas and ideologies and the author looks at this long intellectual history as an artifact of the Western imagination Of particular concern is to see how concepts of nature culture and history have defined Western perceptions of Pacific Islanders

Ideologies of History in the Spanish Golden Age Anthony J. Cascardi, 1997-09-15 Spain in the sixteenth and seventeenth centuries was in the throes of modernization arising from trade with the New World and the rise of an urban society During this period Spanish culture came to be dominated by the tension between an old regime of traditional values

honor lineage purity of blood and these modernizing influences Anthony J Cascardi examines the literature of the Golden Age as the point at which tensions between the old and the new converged and proposes that this historical drama provided the context for subject formation in early modern Spain He examines how Spanish writers envisioned history and studies how these visions revealed or concealed contradictions between social values of their time particularly between the value systems of caste and class Ideologies of History in the Spanish Golden Age draws on recent theoretical paradigms in contemporary philosophy psychoanalysis political and social theory and literary history to place Spain's major literary figures in challenging new contexts By accounting for both modernizing desires and resistances to modernization Cascardi provides readers interested in theories of ideology and history with a new way of looking at the literature of the Spanish Golden Age *The Cambridge History of Eighteenth-century Philosophy* Knud Haakonssen, 2006 This two volume set presents a comprehensive and up to date history of eighteenth century philosophy The subject is treated systematically by topic not by individual thinker school or movement thus enabling a much more historically nuanced picture of the period to be painted *Text as Dance* Mark Franko, 2024-12-12 This book offers a groundbreaking investigation into issues of gender power and the representation of sovereignty in French Baroque court ballet and in today's performances that recall them Mark Franko uses powerful interpretive tools derived from historiography and critical theory especially the work of German Jewish philosopher Walter Benjamin to offer the reader both a historical and a theoretical interpretation of this genre of dance in France c 1615 1654 as well as its aftermath and legacy today Through doing so he reaches conclusions about how sovereignty and power were both perceived by viewers at the time and how they were represented through dance given that it was the noble class who devised and performed court ballets He enquires into the role of choreography and theatricality as potentially critical forces operating at the heart of sovereignty Franko places the work of Louis Marin on power representation and movement in French Baroque painting and performance in juxtaposition to that of Benjamin on theater Other historians whose work is prominent in this study are Ernst Kantorowicz Michel Foucault and Jos Antonio Maravall With wide breadth in the work of historians philosophers political scientists critical theorists musicologists and dance historians this is the culmination of a career's worth of scholarship and research in the field **Times of History, Times of Nature** Anders Ekström, Staffan Bergwik, 2022-02-11 As climate change becomes an increasingly important part of public discourse the relationship between time in nature and history is changing Nature can no longer be considered a slow and immobile background to human history and the future can no longer be viewed as open and detached from the past Times of History Times of Nature engages with this historical shift in temporal sensibilities through a combination of detailed case studies and synthesizing efforts Focusing on the history of knowledge media theory and environmental humanities this volume explores the rich and nuanced notions of time and temporality that have emerged in response to climate change **Text-Book of Church History. [Translated by J. H. A. Bomberger.]** Johann Heinrich KURTZ, 1870 **A History of the Earth and Animated Nature** Oliver

Goldsmith,1881 **Marxism and Phenomenology** Bryan Smyth,Richard Westerman,2021-10-25 Marxism and Phenomenology The Dialectical Horizons of Critique edited by Bryan Smyth and Richard Westerman offers new perspectives on the possibility of a philosophical outlook that combines Marxism and phenomenology in the critique of capitalism Although Marxism s focus on impersonal social structures and phenomenology s concern with lived experience can make these traditions appear conceptually incompatible the potential critical force of a theoretical reconciliation inspired several attempts in the twentieth century to articulate a phenomenological Marxism Updating and extending this approach the contributors to this volume identify and develop new and previously overlooked connections between the traditions offering new perspectives on Marx Husserl and Heidegger exploring themes such as alienation reification and ecology and examining the intersection of Marxism and phenomenology in figures such as Michel Henry Walter Benjamin and Frantz Fanon These glimpses of a productive reconciliation of the respective strengths of phenomenology and Marxism offer promising possibilities for illuminating and resolving the increasingly intense social crises of capitalism in the twenty first century
