Gifts, Romance, and Consumer Culture Yuko Minowa, Russell W. Belk, 2018-09-05 How do people communicate their romantic feelings Gift giving is one way Giving and receiving of gifts is a characteristic of intimate relationships Gifts are a message a form of communication with a tangible material object about love affection or concern for the recipient The romantic gift evokes a multitude of intertwined meanings passion intimacy affection persuasion care celebration altruism and nostalgia They can also connote the negative images of obligation and reciprocity Romantic gift giving may be practiced at rituals during rites of passage or for casual occasions to affirm the continued importance of the romantic relationship We may even romanticize the giving of gifts to the self to nonhuman companions and to others we do not know personally If loving and giving are a practice then romantic gift giving is a practice of loving with intimate or would be intimate others This book addresses gift giving among consumers attempting to express and construct romantic love It lies at the intersection of consumption markets and culture In societies shaped by the globalizing neo liberal economic order increasing wealth disparity and a partially digitized social environment that they help to co construct it may be time to rethink romantic love Gift giving is a key arena to do so as gifts make love tangible and act as carriers of meaning as well as cultural symbols In gift giving the meanings of romance are renewed renegotiated and reconstructed Gifts Romance And Consumer Culture demonstrates a wide variety of scholarly work bearing on romantic gift giving using an interpretive consumer research perspective The book introduces critical studies by scholars in this unfolding and new interdisciplinary field

EMERGENCE AND INTERPRETATION Ding Weixiang, 2023-03-22 Mencius many assertions from virtue Being what I inherently possess to this virtue is what Heaven or Nature gives to me clearly show the basic self

consciousness of virtue in pre Qin Confucianism and the confirmation that virtue originates from Heaven or Nature Then what was the reason for the Chinese Axis Age thinkers to unanimously trace the origin of human virtue back to Heaven or Nature and the mandate of Heaven Of course for them the source of human virtue is Heaven or Nature which means that they realized that human being was the limit of cognition Since in their view the problem is itself a question that transcends human cognition or that human understanding can possibly clarify both virtue itself and the source of human virtue being beyond the bounds of human knowledge Namely tracing back virtue to its source is a quest that transcends the capacity of human understanding However those who have been influenced by modern cognitive theory and who constantly explore how Confucian thought emerged as well as how it took shape cannot give a satisfying answer Therefore to trace the emergence and development of Confucianism through the perspective of the survival of agency and the foundation of the survival of agency is not only my own personal interest but also one necessary for clarifying the development of Confucianism and the legitimacy of its existence *The New Age* ,1920 **The Old World and America** Most Rev. Cherishing Men from Afar James Louis Hevia,1995 In the late eighteenth century two expansive Eurasian empires met formally for the first time the Manchu or Qing dynasty of China and the maritime empire of Great Britain The occasion was the mission of Lord Macartney sent by the British crown and sponsored by the East India Company to the court of the Qianlong emperor *Cherishing Men from Afar* looks at the initial confrontation between these two empires from a historical perspective informed by the insights of contemporary postcolonial criticism and cultural studies The history of this encounter like that of most colonial and imperial encounters has traditionally been told from the Europeans point of view In this book James L Hevia consults Chinese sources many previously untranslated for a broader sense of what Qing court officials understood and considers these documents in light of a sophisticated anthropological understanding of Qing ritual processes and expectations He also reexamines the more familiar British accounts in the context of recent critiques of orientalism and work on the development of the bourgeois subject Hevia s reading of these sources reveals the logics of two discrete imperial formations not so much impaired by the cultural misunderstandings that have historically been attributed to their meeting but animated by differing ideas about constructing relations of sovereignty and power His examination of Chinese and English language scholarly treatments of this event both historical and contemporary sheds new light on the place of the Macartney mission in the dynamics of colonial and imperial encounters **The Pall Mall Budget** ,1872 *Beyond the Stars: Stock characters in American popular film* Paul Loukides,Linda K. Although race a concept of human difference that establishes hierarchies of power and domination has played a critical role
in the development of modern architectural discourse and practice since the Enlightenment its influence on the discipline
remains largely underexplored This volume offers a welcome and long awaited intervention for the field by shining a
spotlight on constructions of race and their impact on architecture and theory in Europe and North America and across
various global contexts since the eighteenth century Challenging us to write race back into architectural history contributors
confront how racial thinking has intimately shaped some of the key concepts of modern architecture and culture over time
including freedom revolution character national and indigenous style progress hybridity climate representation and
radicalism By analyzing how architecture has intersected with histories of slavery colonialism and inequality from eighteenth
century neoclassical governmental buildings to present day housing projects for immigrants **Race and Modern Architecture**
