**Populism** Chiara Chini,Sheyla Moroni,2018-10-09 Populism is a category which is often abused in current public discourse It is an issue that is usually looked at from the perspective of political science or cultural studies while historians have rarely confronted it Nonetheless the study of historical cases of populism is a necessary preliminary task for an in depth examination of the topic This book opens up a channel of dialogue among political scientists sociologists philosophers and historians in order to launch a debate on the declination of the populist phenomenon The essays here consist of the reflections of various scholars on several national cases through a survey conducted on a large temporal and spatial horizon from the experiences developed in Eastern Europe at the end of the nineteenth century to the more recent events of Ukraine s revolution at the end of the twentieth and from the first case of a populist party in the US to the examples of the Italian political scenario in the 1980s in order to identify which historical perspective would be the most suitable for understanding populism and if populism can actually be considered a category that fits into the historical investigation of these phenomena

**The Historiography of the First Russian Antarctic Expedition, 1819-21** Rip Bulkeley,2021-04-26 This book looks at the different ways in which Russian historians and authors have thought about their country s first Antarctic expedition 1819 21 over the past 200 years It considers the effects their discussions have had on Russia s Antarctic policy and may yet have on Antarctica itself In particular it examines the Soviet decision in 1949 in line with the cultural policies of late Stalinism to revise the traditional view of the expedition in order to claim that it was Russian seamen that first sighted the Antarctic mainland in January 1820 this claim remains the official position in Russia today The author illustrates however that the case for such a claim has never been established and that attempts to make it damaged the work of successive Russian historians Providing a timely assessment of Russian historiography of the Bellingshausen expedition and examining the connections between the priority claim and national policy goals this book represents an important contribution to the history of the Antarctic

**Sinews of Survival** Betty Kobayashi Issenman,2011-11-01 Betty Issenman examines all aspects of winter and summer Inuit clothing going back 4000 years with particular emphasis on northern Canadian Inuit She also describes the kinds of material and tools used to make the clothing The focus is on on Inuit clothing as protection identity and culture bearer roles it has played for thousands of years No other book brings together contemporary and historical material from the circumpolar worlds with original research Sinews of Survival is a fascinating study of Inuit clothing past and present It includes over 200 illustrations of various kinds of clothing The voices of the Inuit are heard throughout the text in quotations from consultations and the literature By describing one component of Inuit society the author opens a pathway to understanding the culture as a whole

Field practice in archaeology varies greatly throughout the world mainly because archaeological sites survive in very different ways in different countries Many manuals see this as a problem to be defeated by the imposition of standardised procedures In this book we relish the variety of field practice seeing it rather as the way the best archaeologists have responded creatively to the challenges of terrain research objectives and the communities within which they work While insisting on the highest levels of investigation we celebrate the different designs concepts scientific detection methods and recording systems applied so embracing standards but not standardisation The book is organised in four parts Part 1 offers a summary of field procedures Part 2 reviews the principal methods applied above and below ground and how the results are analysed Part 3 illustrates the huge variety confronted by field workers with a series of exemplary commercial and academic projects enacted in downland jungle desert permafrost road schemes and towns Approaches also differ according to the traditional methodologies that have evolved in particular countries In Part 4 we give examples of some of the strongest and oldest of those practised on four continents      [Explorers of the Maritime Pacific Northwest](#) William L.
