Nardi, Keli Fancher, 2025-05-15 This collection investigates how Hayao Miyazaki Isao Takahata and other Studio Ghibli storytellers have approached the process of reimagining literary sources for animation Studio Ghibli is renowned for its original storytelling in films like *My Neighbor Totoro* but many of its most famous films including *Howl s Moving Castle* and *Ponyo* have their origins in pre existing novels manga or fairy tales Studio Ghibli s adaptations seldom directly translate source material to animation but instead transform the works to incorporate themes or imagery central to the studio s sensibilities *Studio Ghibli Animation as Adaptations* explores how these adaptations often blur genre boundaries and raise questions about what constitutes fidelity to source material The collection also shows how the studio reinterprets and recontextualizes stories across cultures for Japanese audiences and across mediums like manga **Shinto, Nature and Ideology in Contemporary Japan** Aike P.

Rots, 2017-09-07 *Shinto Nature and Ideology in Contemporary Japan* is the first systematic study of Shinto s environmental turn The book traces the development in recent decades of the idea of Shinto as an ancient nature religion and a resource for overcoming environmental problems The volume shows how these ideas gradually achieved popularity among scientists priests Shinto related new religious movements and eventually the conservative shrine establishment Aike P. Rots argues that central to this development is the notion of *chinju no mori* the sacred groves surrounding many Shinto shrines Although initially used to refer to remaining areas of primary or secondary forest today the term has come to be extended to any sort

of shrine land signifying not only historical and ecological continuity but also abstract values such as community spirit patriotism and traditional culture The book shows how Shinto's environmental turn has also provided legitimacy internationally influenced by the global discourse on religion and ecology in recent years the Shinto establishment has actively engaged with international organizations devoted to the conservation of sacred sites Shinto sacred forests thus carry significance locally as well as nationally and internationally and figure prominently in attempts to reposition Shinto in the centre of public space

Paik argues is a critique of the limitations and deadlocks of the political imagination The utopias dreamed of by totalitarianism which must be imposed through torture oppression and mass imprisonment nevertheless persist in liberal political systems With this reality looming throughout Paik demonstrates the uneasy juxtaposition of saintliness and cynically manipulative realpolitik of torture and the assertion of human dignity of cruelty and benevolence
