## **Navajo Confrontation Crisis:**

A Navajo Confrontation and Crisis Floyd Allen Pollock, 1984      The Navajo Political Experience David E.

Wilkins, 2013-10-25 Native nations like the Navajo nation have proven to be remarkably adept at retaining and exercising ever increasing amounts of self determination even when faced with powerful external constraints and limited resources Now in this fourth edition of David E Wilkins The Navajo Political Experience political developments of the last decade are discussed and analyzed comprehensively and with as much accessibility as thoroughness and detail The Din people and their governing leaders have recently experienced a host of events that dramatically affected the shape of the nation a plethora of effective grassroots organizations that had a profound impact on the structure of the Navajo political system a dramatic reduction in the size of the legislative branch from eighty eight to twenty four members the introduction of institutional gambling unresolved battles over water rights and a tense political crisis that pitted the legislative branch against the judicial branch as the court sought to ensure that the Fundamental Law was to be adhered to by all governing bodies These and other developments are examined in this new edition which includes three new appendices The Navajo Fundamental Law of 2002 The Din Natural Resource Protection Act of 2005 and Nelson v Shirley 2010 which add to the book s value as a classroom tool and a primary source

**Dreaming of Sheep in Navajo Country** Marsha Weisiger, 2011-11-15 Dreaming of Sheep in Navajo Country offers a fresh interpretation of the history of Navajo Din pastoralism The dramatic reduction of livestock on the Navajo Reservation in the 1930s when hundreds of thousands of sheep goats and horses were killed was an ambitious attempt by the federal government to eliminate overgrazing on an arid landscape and to better the lives of the people who lived there Instead the policy was a disaster resulting in the loss of livelihood for Navajos especially women the primary owners and tenders of the animals without significant improvement of the grazing lands Livestock on the reservation increased exponentially after the late 1860s as more and more people and animals hemmed in on all sides by Anglo and Hispanic ranchers tried to feed themselves on an increasingly barren landscape At the beginning of the twentieth century grazing lands were showing signs of distress As soil conditions worsened weeds unpalatable for livestock pushed out nutritious native grasses until by the 1930s federal officials believed conditions had reached a critical point Well intentioned New Dealers made serious errors in anticipating the human and environmental consequences of removing or killing tens of thousands of animals Environmental historian Marsha Weisiger examines the factors that led to the poor condition of the range and explains how the Bureau of Indian Affairs the Navajos and climate change contributed to it Using archival sources and oral accounts she describes the importance of land and stock animals in Navajo culture By positioning women at the center of the story she demonstrates the place they hold as significant actors in Native American and environmental history Dreaming of Sheep in Navajo Country is a compelling and important story that looks at the people and conditions that contributed to a botched policy whose legacy is still felt by the Navajos and their lands today

potential consequences and hold power to induce change on our actions It is up to human beings to confront challenges such as climate change to consider what has been critically assessed in thought and reflect on potential responses Crucial in this dialog is the ability to take the standpoint of the other including that of species as well as ecosystems in human imagination It also means to develop a sensibility for the other in making sense of the world that today is largely shaped by humans Throughout history narratives stories images artistic expressions have all played a key role for imaginative ventures that allow the mind to imagine the past present and the future Language and communication can serve comprehension of an issue like climate change and provide a path in developing responsible responses to abstract problems of complex global future dimensions
