Navajo Chapter Government Handbook Sam Bingham, Janet Bingham, 1976 Navajo Nation Peacemaking Marianne O. Nielsen, James W. Zion, 2005-09-01 Navajo peacemaking is one of the most renowned restorative justice programs in the world Neither mediation nor alternative dispute resolution it has been called a horizontal system of justice because all participants are treated as equals with the purpose of preserving ongoing relationships and restoring harmony among involved parties In peacemaking there is no coercion and there are no sides No one is labeled the offender or the victim the plaintiff or the defendant This is a book about peacemaking as it exists in the Navajo Nation today describing its origins history context and contributions with an eye toward sharing knowledge between Navajo and European based criminal justice systems It provides practitioners with information about important aspects of peacemaking such as structure procedures and outcomes that will be useful for them as they work with the Navajo courts and the peacemakers It also offers outsiders the first one volume overview of this traditional form of justice The collection comprises insights of individuals who have served within the Navajo Judicial Branch voices that authoritatively reflect peacemaking from an insider s point of view It also features an article by Justice Sandra Day O Connor and includes contributions from other scholars who with the cooperation of the Navajo Nation have worked to bring a comparative perspective to peacemaking research In addition some chapters describe the personal journey through which peacemaking takes the parties in a dispute demonstrating that its purpose is not to fulfill some abstract notion of Justice but to restore harmony so that the participants are returned to good relations Navajo Nation Peacemaking seeks to promote both peacemaking and Navajo common law development By establishing the foundations of the Navajo way of natural justice and offering a vision for its future it shows that there are many lessons offered by Navajo peacemaking for those who want to approach old problems in sensible new ways **The Handbook of Race, Ethnicity, Crime, and Justice** Ramiro Martinez, Jr., Meghan E. Let the Water Do the Work Bill Zeedyk, Van Clothier, 2014 Let the Water Do the Work is an important contribution to riparian restoration By thinking like a creek one can harness the regenerative power of floods to reshape stream banks and rebuild floodplains along gullied stream channels Induced Meandering is an artful blend of the natural sciences geomorphology hydrology and ecology which govern channel forming processes Induced Meandering directly challenges the dominant paradigm of river and creek stabilization by promoting the intentional erosion of selected banks while fostering deposition of eroded materials on an evolving floodplain The river self heals as the growth of native riparian vegetation accelerates the meandering process Not all stream channel types are appropriate for Induced Meandering yet the Induced Meandering philosophy of going with the flow can inform all stream restoration projects Induced meandering strives to understand rivers as timeless entities governed by immutable rules serving their watersheds setting their own timetables and coping with their own realities as they carry mountains grain by grain to the sea Anyone with an interest in natural resource management in these uncertain times should read this book and put these ideas to work
