The Atlantic Alliance and Western Security: Naval forces and Western security Francis J. West, 1987 **Naval Forces and Western Security**, 1987 **Conventional Arms Control and East-West Security** Institute for East-West Security Studies, 1989 This important and timely work prepared by the leading researchers planners and policymakers from both Eastern and Western alliances analyzes the major issues in the Vienna talks on conventional forces in Europe involving NATO and Warsaw Pact nations It is likely to have a significant influence on the course of these negotiations and on emerging debate on conventional arms control The contributors met in Moscow prior to the Vienna conference to review and compare their analyses and revised them thereafter for publication in this work New Conventional Weapons and East-West Security Christoph Bertram, 1979-06-17 *Spain, Europe, and Western Security Policy* David Javier García Cantalapiedra, 2024-11-26 This book analyzes the limitations in the Europeanization of Spanish security and defense policy For various reasons Spain has maintained an amalgamated security system based on agreements with NATO the EU and the US This combination has produced a dysfunctional system as it is not truly able to address some of the country's vital security interests above all in North Africa and the Mediterranean At the same time due mainly to domestic reasons various Spanish governments have been reluctant to pursue autonomy in the country's security policy and defense capabilities Written by a team of scholars and practitioners this book offers policymakers and professionals both a general overview of and deeper insights into the issue Due to the lack of comprehensive studies on Spanish security and defense policy and its ties to Europe this book will be of particular interest The Internal Fabric of Western Security Gregory Flynn, 2025-03-03 Changes in domestic economic and political conditions together with a loss of confidence in the United States leadership produced serious problems within the Atlantic Alliance The Internal Fabric of Western Security first published in 1981 examines the effects of domestic change upon perceived security requirements and explores ways to deal with the problems that developed Beginning with an examination of Allied and European relations the book outlines external challenges to security that the Alliance faces in the 1980s and discusses internal problems that affect member nations ability to deal with them Country studies of the four largest European members of the Alliance systematically examine domestic constraints on security policy and assess probable approaches for the 1980s A more general analysis is offered on how this situation affects the Allies ability to work together in dealing with their common security problems The need to integrate economic and military requirements is also discussed **New Technology and Western Security Policy** Robert O'Neill, 1985-06-18

Miller, 1992 For most of the Cold War naval arms control was the forgotten dimension of arms control Beginning in the late 1980s however it has become increasingly prominent in the East West dialogue But it is usually studied from the perspective of Soviet American relations This book examines the subject from a European perspective What role might naval arms control play in the European context What impact might naval arms control have on the interests and perceptions of European states What opportunities for and obstacles to naval arms control exist in Europe The authors address these questions describing the naval interests and attitudes towards naval arms control of European coastal states as well as the Soviet Union and the United States in the Norwegian Baltic and
