**Navigating Boundaries** Brenda Marshall, Molly A. Mayhead, 2000-06-30 Marshall Mayhead and their contributors explore the discourse women use to negotiate political boundaries The analysis based on the study of five governors Nellie Tayloe Ross Martha Layne Collins Ann Richards Barbara Roberts and Christine Todd Whitman illustrates that women bring issues of caring empowerment family and inclusivity to the office These issues contrast sharply with traditional male centered ideologies and give renewed vigor to a revised moral point of view in contemporary politics The essays also demonstrate that women governors must still work within the traditional societal constructs for women Yet at the same time they need to create new paradigms that redefine women s roles and exemplify that woman s place is in the private sphere and the public political arena The work examines the common obstacles these women faced despite differences in era political affiliation geographic location and ideologies Simply by being elected each woman operated within a public private sphere duality she struggled to overcome Each woman recognized that she needed to craft appropriate rhetorical strategies to succeed in office while not abandoning the unique values and perspectives she brought to the statehouse The essays contend that women serving in the governorship resculpt the face of the office restructure the political landscape and redefine women s roles The volume will be of particular value to students and scholars dealing with issues of public address and rhetorical criticism women s communication political communication and women in politics

*The Rhetoric of First Lady Hillary Rodham Clinton* Colleen Kelley, 2001-01-30 Kelley provides an examination of Hillary Rodham Clinton s rhetorical responses to mediated versions of crises in the Clinton Administration She begins by examining the historical First Lady and then looks at mediated political realities in general as well as those of the Clinton presidency Kelley also examines the rhetorical management of political crises and the crises management style of First Ladies including Florence Harding and Eleanor Roosevelt The book focuses on the analysis of Hillary Rodham Clinton s rhetorical management of crises in her husband s Administration including health care Travelgate Whitewater and allegations of sexual misconduct Kelley s approach is grounded in Kenneth Burke s framework of language as a symbolic means of inducing cooperation through rhetorical identification She concludes with speculation regarding both the degree of success of Hillary Clinton s efforts as well as the implications of those efforts to rhetorical and political communication and feminist theory This book will be of particular interest to scholars and researchers of the presidency and the role of the First Lady political communication and feminist studies

Bystrom, Barbara Burrell, 2018-12-01 This book examines how women candidates voters and office holders shape U S political processes and institutions lending their perspectives to gradually evolve American life and values This book provides an encyclopedic sourcebook on the evolution of women s

involvement in American politics from the colonial era to the present covering all of the individuals organizations cultural forces political issues and legal decisions that have collectively served to elevate the role of women at the ballot box on the campaign trail in Washington and in state and city level political offices across the country The in depth essays document and examine the rising prominence of women as voters candidates public officials and lawmakers enabling readers to understand how U S political processes and institutions have been and will continue to be shaped by women and their perspectives on American life and values The entries cover a range of women politicians and officials female activists and media figures relevant organizations and interest groups such as Emily s List League of Women Voters and National Right to Life key laws court cases and events such as the Nineteenth Amendment the Equal Rights Amendment the Seneca Falls Convention the passage of Title IX and Roe v Wade and other topics like media coverage of appearance women s roles as campaign strategists fundraisers gender differences in policy priorities and the gender gap in political ambitions The text is supplemented by sidebars that highlight selected landmarks in women s political history in the United States such as the 2012 election of Tammy Baldwin the first openly gay U S senator

**Women, Power, and Politics** Lori Cox Han, Caroline Heldman, 2023-05-29 As women continue to gain more prominence as active participants in the American political and electoral process as voters candidates and officeholders it becomes even more important to understand how gender shapes political power and the distribution of resources within our society There are many areas of research in a variety of disciplines focusing on women gender and feminism and many of them intersect with a discussion of women in American politics Our goal in writing this book is to present these topics in an interesting lively and timely way through an analysis of contemporary political gender related issues We hope to have provided just enough of an historical context to get students interested in the evolution of women in American political life and enough theory and analysis to inspire them to seek more information and knowledge about gender justice today The study of women and U S politics as well as the role gender plays in the broader political context has emerged as a powerful voice within the discipline of Political Science in the last few decades As such we hope that readers find this text a useful addition to the ongoing dialogue while instructors find it to be a useful pedagogical tool for their courses on women gender and politics

Almost Madam President Nichola D. Gutgold, 2009-08-16 All around the world women are presidents and prime ministers yet in America we have yet to elect the first woman president When Barack Obama accepted the nomination as the Democratic candidate for president in 2008 the media were quick to point out that Hillary Clinton lost Yet Clinton won almost 18 million votes and was the first front runner woman candidate Almost Madam President Why Hillary Clinton Won in 2008 argues that Hillary Clinton gained more than she lost in her bid for the presidency This book takes the reader on a rhetorical journey through Hillary Clinton s 2008 presidential campaign focusing on Clinton s sophisticated You Tube style announcement speech the debates and the many notable stump speeches and media events on the campaign trail Along the way Gutgold examines the obstacles and

opportunities of women as presidential candidates      **Governors Speak** Jack D. Fleer, 2007 Governors in the United States are becoming prime policy makers in state and national politics They preside over vast and increasingly important administrative structures through numerous appointments of key personnel and the management of growing budgets Governors provide leadership for state legislatures by advocating their policy agendas and by mobilizing public opinion and political resources Through these roles governors have far reaching influence in citizen s daily lives This work examines these major political leaders by closely examining the careers of five recent governors 1960D2001 Terry Sanford 1961D1965 Robert Bob W Scott 1969D1973 James E Jim Holshouser Jr 1973D1977 James G Jim Martin 1985D1993 James B Jim Hunt Jr 1977D1985 1993D2001 and compares their performances in office with governors in other states No other book has looked as closely at the persons who serve as governors during this time period      **Governor Lady** Teva J. Scheer, 2005-12-14 Governor Lady is the fascinating story of one of the most famous political women of her generation Nellie Tayloe Ross was elected governor of Wyoming in 1924 just four years after American women won the vote and she went on to be nominated for U S vice president in 1928 named vice chairman of the Democratic National Committee the same year and appointed the first female director of the Mint in 1932 Ross launched her career when her husband William Bradford Ross the preceding governor died leaving her widowed with four sons and no means of supporting them She was an ironic choice to be such a pioneer in women s rights since she claimed her entire life that she had no interest in feminism Nevertheless she believed in equal opportunity and advancement in merit irrespective of gender core feminist values The dichotomy between Ross s career and life choices and her stated priorities of wife and mother is a critical contradiction making her an intriguing woman Exhaustively researched and powerfully written Governor Lady chronicles the challenges and barriers that a woman with no job experience higher education or training faced on the way to becoming a confident and effective public administrator In addition to the discrimination and resentment she faced from some of her male associates she also aroused the enmity of Eleanor Roosevelt whom she displaced at the DNC Born exactly one hundred years after the signing of the Declaration of Independence Ross lived to celebrate the nation s bicentennial so her long and remarkable life precisely spanned the second U S century She was reared in the Victorian era when upper and middle class women were expected to be domestic decorative and submissive but she died as the women s movement was creating a multitude of opportunities for young women of the 1970s Nellie s story will be of great interest to anyone curious about women s history and biography The contemporary American career woman will especially identify with Ross s struggle to balance her career family and active personal life      **Stranger in a Strange State** Christopher J. Galdieri, 2019-05-01 Candidates normally run for office in the places where they live Occasionally however a politician will run as a carpetbagger someone who moves to a new state for the express purpose of running or who runs in one state after holding office in another Stranger in a Strange State examines what makes some politicians take this drastic step and how that shapes their campaigns and chances for victory Focusing on

races for the US Senate from 1964 forward Christopher J Galdieri analyzes the campaigns of nine carpetbaggers including nationally known figures such as Robert F Kennedy and Hillary Rodham Clinton and less well known candidates like Elizabeth Cheney and Scott Brown These case studies draw on archival research contemporaneous accounts of each campaign and scholarship on campaigns and representation While the record reveals that it generally takes national political stature for a carpetbagger to win an election some recent campaigns suggest that in today s polarized political era both politicians and state political parties might want to be more open to the prospect of carpetbagging

*Governing Codes* Karrin Vasby Anderson, Kristina Horn Sheeler, 2005-08-23 Familiar narratives and simplistic stereotypes frame the representation of women in U S politics Pervasive containment rhetorics such as the distinction between women as mothers and caregivers and men as rational thinkers create unique hurdles for any woman seeking public office While these governing codes generally act to constrain female political power they can also be harnessed as a resource depending on the particular circumstances e g party affiliation geographic location and personal style One of these governing codes the metaphor is an especially powerful tool in politics today particularly for women By examining the political careers of four of the most prominent and influential women in contemporary U S politics\_ Democrats Ann Richards and Hillary Rodham Clinton and Republicans Christine Todd Whitman and Elizabeth Dole\_ Karrin Vasby Anderson and Kristina Horn Sheeler illustrate how metaphors in public discourse may be both familiar narratives to embrace and boundaries to overturn

**Right to Silence and Non-Participation in Education** Amy Hanna, 2023-10-27 This insightful book re-examines the concept of student voice through an exploration of children's implicit rights to silence and non-participation. By considering what remains unspoken but is voiced through silence, this book theorises silence through the lens of power. Responding to calls for more critical approaches to children's participation under the UN Convention on the Rights of the Child, this unique exposition of silence ventures beyond traditional notions of voice as a defining term for justice and participation and traditional understandings of silence as powerlessness. Instead, this book presents young people's uses and understandings of silence at school as an instrument of power. Based on empirical research, the book reconceptualises children's participation rights through silence. Addressing an important gap in the literature on student voice and children's participation, this book is a valuable resource for academics, researchers, and postgraduate students in the fields of children's human rights, childhood studies, and educational philosophy. *Telling Political Lives* Brenda DeVore Marshall, Molly A. Mayhead, 2008-06-24 This

book investigates the autobiographical writings of Barbara Jordan, Patricia Schroeder, Geraldine Ferraro, Elizabeth Dole, Wilma Mankiller, Hillary Rodham Clinton, Madeleine Albright, and Christine Todd Whitman. These eight women represent the diversity that permeates the cultural backgrounds, life adventures, and ideologies women bring to the political table. From differences in race, class, and geographic location to variations in personal and family experiences, religious beliefs, and political ideology, these women illustrate many of the divergent standpoints from which women craft their lives in the United States. Each essay focuses on the autobiographical text as political discourse and therefore as an appropriate site for the rhetorical construction of a personal and civic self situated within local and national political communities. The collection examines issues such as the intersection between the politicization of the private and the personalization of the public evident in the women's narratives, the description of U.S. politics the women provide in their writings, the ways in which the women's personal stories craft arguments about their political ideologies, the strategies these women leaders employ in navigating the gendered double binds of politics, and the manner in which the women's discourse serves to encourage, instruct, and empower future women leaders. The analyses embody and explicate the political and rhetorical strategies these leaders employ in their efforts to act on their convictions, highlight the need for, and reality of women's involvement in all levels of politics, and serve as an impetus and inspiration for scholars and activists alike.
