

Nazi Revolution

James DeFronzo

Nazi Revolution:

Republic to Reich: the Making of the Nazi Revolution Hajo Holborn, 1973 **Hitler and the Nazi State** Martin Collier, Philip Pedley, 2005 A comprehensive resource that helps candidates tackle the intricacies of the relationship between Hitler and his lieutenants and the power structure of the Nazi state This book has been written for Edexcel and with the right level of depth for A2 contains thorough and up to date exam preparation including practice questions advice on what makes a good answer and help for students on how to interpret the questions and plan essays is written by an expert author team who have a wide experience of teaching and examining A level History and focus on exactly what students need to know and how to prepare for the exam *Hitler's Germany: The Nazi Background to War* Karl Loewenstein, 2025-06-29 So far no book has been published which contains in so narrow a compass so many indeed practically all essential facts concerning the structure of Nazi Germany and the organization of Nazi activities in the various branches of public life A great deal about the constitution and governmental institutions the organization of national economy labor education religion the professions and an especially brilliant chapter on the party will be found in this outline which is all the more impressive by its strict adherence to the sober and cool statement of facts The American Political Science Review A highly reliable book on National Socialist Germany the most authoritative study written so far on the constitutional structure of the Third Reich and its operation The author a constitutional lawyer by training is one of the few really qualified scholars whose words must be regarded irreproachable in a field of modern government where prejudice and predilections easily lead to immature presentation California Law Review We can recommend this book as the most succinct and up to date analysis of the Third Reich and its structure In 176 small pages are summarized not only the most important features of the political institutions and the methods of domination but also the results of their application The Review of Politics This compact and readable work is a revised study of the author's Hitler's Germany which originally reached his publishers at the very outbreak of the present European conflict It is a scholarly presentation of the revolutionary structure of the Third Reich which was erected upon the ruins of the Weimar Republic Moreover it is a reliable manual of the ideologies of the Nazis their symbolism racialism and mass control through emotionalism The Annals of the American Academy of Political and Social Science Not just another book on that world problem called Germany this compact little volume occupies a unique place in such literature Professor Loewenstein has repressed any natural resentment to produce a realistic study whose effect is the more definite by reason of its restraint We have seen no other book on any subject which compresses more information than does this small volume World Affairs A lucid balanced work Privileged to draw upon both official sources and migr literature sufficiently withdrawn from the scene to give a composite view without loss of perspective Loewenstein gives a succinct picture portraying not only the externals of the Third Reich but also the inner sources of its power in both domestic and foreign affairs The American Journal of International Law **The Encyclopedia of Political Revolutions** Jack A.

Goldstone,2015-04-29 The Encyclopedia of Political Revolutions is an important reference work that describes revolutionary events that have affected and often changed the course of history Suitable for students and interested lay readers yet authoritative enough for scholars its 200 articles by leading scholars from around the world provide quick answers to specific questions as well as in depth treatment of events and trends accompanying revolutions Includes descriptions of specific revolutions important revolutionary figures and major revolutionary themes such as communism and socialism ideology and nationalism Illustrative material consists of photographs detailed maps and a timeline of revolutions *The Nazi Party 1919-1945* Dietrich Orlow,2013-10-18 The only existing in depth exhaustive and complete history of the Nazi Party [Hitler and Nazi Germany](#) Stephen J. Lee,2005-07-15 Hitler and Nazi Germany details the major themes of Hitler s rise to power beginning with the formation of the Nazi movement and the forerunners to the Nazi Party The book goes on to document the establishment of dictatorship foreign policy the Nazi economy and the use of propaganda With indispensable analysis of the nature of National Socialism this concise guide addresses the issues essential to the understanding of this topic including the issue of race and the Holocaust **Revolutionary Movements in World History** James DeFronzo,2006-07-20 This groundbreaking three volume encyclopedia is the first to focus exclusively on the revolutionary movements that have changed the course of history from the American and French Revolutions to the present ABC CLIO is proud to present an encyclopedia that reaches around the globe to explore the most momentous and impactful political revolutions of the last two and a half centuries exploring their origins courses consequences and influences on subsequent individuals and groups seeking to change their own governments and societies In three volumes Revolutionary Movements in World History covers 79 revolutions from the American and French uprisings of the late 18th century to the rise of communism Nazism and fascism from Ho Chi Minh and Fidel Castro to the Ayatollah al Qaeda and the fall of the Berlin wall Written by leading experts from a number of nations this insightful cutting edge work combines detailed portrayals of specific revolutions with essays on important overarching themes Full of revealing insights compelling personalities and some of the most remarkable moments in the world s human drama Revolutionary Movements in World History offers a new way of looking at how societies reinvent themselves *Weimar and Nazi Germany* Stephen J. Lee,1996 This text is one in a series that meets the requirements of the revised GCSE syllabus Looking at Nazi Germany it covers the ghettos propaganda and the individual s role providing source material There are exam questions at the end of each unit A simplified foundation edition is available *Hitler's Charisma* Laurence Rees,2014-01-28 At the age of twenty four in 1913 Adolf Hitler was eking out a living as a painter of pictures for tourists in Munich Nothing marked him in any way as exceptional but he did possess certain distinguishing characteristics a capacity to hate an inability to accept criticism and a massive overconfidence in his own abilities He was a socially and emotionally inadequate individual without direction from whence came a sense of personal mission that would transform these weaknesses and liabilities into strengths certainties that would provide him not only with

a sense of identity but of purpose in a communal enterprise This is the focus of Laurence Rees's social psychological and historical investigation into a personality that would end up articulating the hopes and dreams of millions of Germans With 16 pages of black and white illustrations *Complete Idiot's Guide to Nazi Germany* Robert Smith Thompson, 2003 A comprehensive guide to the Third Reich this book chronicles the events leading up to the rise of Adolf Hitler and the Nazi Party to the downfall of both **Heidegger, Žižek and Revolution** Tere Vadén, 2014-08-07 Why did Martin Heidegger the giant of continental philosophy believe in 1933 that Hitler is the future of Europe And why does Slavoj Žižek the most dangerous philosopher in the West support Heidegger's right wing militancy Heidegger and Žižek are not only erudite thinkers on human being but also incorrigible revolutionaries who even after the catastrophic failures of their favourite revolutions the October revolution for Žižek and the National Socialist revolution for Heidegger want to overcome capitalism undemocratically if necessary The two share a spirited and sophisticated rejection of the liberalist worldview and the social order based on it The problem is not that liberalism is factually wrong but rather that it is ethically bad Both argue for building and educating a new collective based on human finitude and communality In the tradition of the Enlightenment Žižek advocates a universalist revolution whereas Heidegger sees the transformation rooted in particular historical existence inviting a bewildering array of mutually exclusive criticisms and apologies of his view The crisis that Heidegger and Žižek want to address is still here but their unquestioned Europocentrism sets a dark cloud over the whole idea of revolution

Revolutionary Saints: Heidegger, National Socialism, and Antinomian Politics, 2002 European Dictatorships 1918-1945 Stephen J. Lee, 2016-02-12 European Dictatorships 1918-1945 surveys the extraordinary circumstances leading to and arising from the transformation of over half of Europe's states to dictatorships between the first and the second world wars From the notorious dictatorships of Mussolini Hitler and Stalin to less well known states and leaders Stephen J Lee scrutinizes the experiences of Russia Germany Italy Spain Portugal and Central and Eastern European states This fourth edition has been fully revised and updated throughout New material for this edition includes the most recent research on individual dictatorships a new chapter on the experiences of Europe's democracies at the hands of Germany Italy and Russia an expanded chapter on Spain a new section on dictatorships beyond Europe exploring the European and indigenous roots of dictatorships in Latin America Asia and Africa Extensively illustrated with images maps tables and a comparative timeline and supported by a companion website providing further resources for study www.routledge.com/cw/lee/EuropeanDictatorships19181945 is a clear detailed and highly accessible analysis of the tumultuous events of early twentieth century Europe **When Men Fell from the Sky** Claire Andrieu, 2023-04-13 A fascinating comparative history of the treatment of fallen airmen in Second World War Europe **The Hitler Years: Triumph, 1933-1939** Frank McDonough, 2021-06-22 From historian Frank McDonough the first volume of a new chronicle of the Third Reich under Hitler's hand On January 30th 1933 Adolf Hitler was appointed the German Chancellor of a coalition government by President Hindenburg Within a few

months he had installed a dictatorship jailing and killing his leftwing opponents terrorizing the rest of the population and driving Jews out of public life He embarked on a crash program of militaristic Keynesianism reviving the economy and achieving full employment through massive public works vast armaments spending and the cancellations of foreign debts After the grim years of the Great Depression Germany seemed to have been reborn as a brutal and determined European power Over the course of the years from 1933 to 1939 Hitler won over most of the population to his vision of a renewed Reich In these years of domestic triumph cunning maneuvers pitting neighboring powers against each other and biding his time we see Hitler preparing for the moment that would realize his ambition But what drove Hitler s success was also to be the fatal flaw of his regime a relentless belief in war as the motor of greatness a dream of vast conquests in Eastern Europe and an astonishingly fanatical racism

Ideas and Events Leonard Krieger, 1992-11 Leonard Krieger has long been revered as a contemporary master historian With an eye toward placing his critical achievements before an expanded readership he helped compile this core collection of his most important essays Together these essays bring under a single cover the key themes and ideas of his life s work to serve as a handbook for intellectual history and historians of every stripe This book reflects Krieger s conviction that the value of intellectual history is as a source of orientation in a world of information overload In Krieger s hands intellectual history has stressed thinking through the relations between ideas and events rather than the compilation and recapitulation of mere facts and historical categories The essays in this collection cover a range of topics including history of ideas intellectual history early modern political history German political history Hegel Marx and more Many of these essays are already classics of historical scholarship With the demise of the Soviet Union and state sponsored Marxism and with the reunification of Germany Krieger s history takes on new relevance and a renewed importance With a splendid introduction by Michael Ermath and an extensive bibliography of Krieger s most important books and essays this is a must read for every serious student of modern history Leonard Krieger was University Professor

Emeritus in the Department of History at the University of Chicago until his death in 1990 **When Men Revolt and Why** Harold J. Bershad, 2020-03-26 The environment within which humans interact has changed dramatically since the Industrial Revolution However their expectations stem from the same hopes and dreams people have had from the beginning of humankind When Men Revolt and Why encourages readers to look closer and more deeply into the relationships between humans and the institutions that have originated to help them realize their full potential The contributors not only examine people but also the need to change institutions that have outworn their usefulness When institutions inhibit rather than facilitate everyone s desire to live a full life the result is likely to be violence This book offers the ideas of many people who have tried to dig deeper into basic causes of violence Included in this volume are selections by Aristotle Tocqueville Marx and Engels and Brinton The ideas they espoused still hold vitality In his new introduction James Davies talks about the circumstances under which this book was originally published In Vietnam a people were fighting for their autonomy In the

United States many Americans were protesting against American involvement in the Vietnam War Blacks were marching for their civil rights Women were fighting for equality Time has tempered these conflicts Davies maintains that we remain ignorant of the elemental forces that impel people and nations to resort to violence We are usually surprised by their anger and shocked by their violence Davies asserts that we need to learn more about how humans respond to change so as to prepare ourselves for such responses to change When Men Revolt and Why is as timely as ever as we deal with uncertainty in various areas of the world the former Yugoslavia the Middle East and Ireland among others It is especially pertinent for political scientists historians and sociologists

When Men Revolt and Why James Chowning Davies, 1997-01-01 The environment within which humans interact has changed dramatically since the Industrial Revolution However their expectations stem from the same hopes and dreams people have had from the beginning of humankind When Men Revolt and Why encourages readers to look closer and more deeply into the relationships between humans and the institutions that have originated to help them realize their full potential The contributors not only examine people but also the need to change institutions that have outworn their usefulness When institutions inhibit rather than facilitate everyone's desire to live a full life the result is likely to be violence This book offers the ideas of many people who have tried to dig deeper into basic causes of violence Included in this volume are selections by Aristotle Tocqueville Marx and Engels and Brinton The ideas they espoused still hold vitality In his new introduction James Davies talks about the circumstances under which this book was originally published In Vietnam a people were fighting for their autonomy In the United States many Americans were protesting against American involvement in the Vietnam War Blacks were marching for their civil rights Women were fighting for equality Time has tempered these conflicts Davies maintains that we remain ignorant of the elemental forces that impel people and nations to resort to violence We are usually surprised by their anger and shocked by their violence Davies asserts that we need to learn more about how humans respond to change so as to prepare ourselves for such responses to change When Men Revolt and Why is as timely as ever as we deal with uncertainty in various areas of the world the former Yugoslavia the Middle East and Ireland among others It is especially pertinent for political scientists historians and sociologists

History and International Relations Martin Wight, 2023 History and International Relations collects works of fundamental importance about history and international relations by the late Professor Martin Wight 1913-1972 who earned fame as the author of International Theory The Three Traditions 1991 and other posthumous books Fascism Walter Laqueur, 1978
