## **Nazis Fascists In Europe 1918 1945:**

**Nazis and Fascists in Europe, 1918-1945** John Weiss, 1969 The historical record of fascism numbs the imagination Mr Weiss writes The Nazis shot gassed or buried alive some six million Jews Three or four million other passive or potential opponents of the regime were slaughtered Perhaps as many as two million prisoners of war were shot or starved to death Entire populations of hundreds of villages in Eastern Europe were destroyed by fire or bullet often down to the last woman and child Hundreds of thousands of ordinary civilians were enslaved tortured and otherwise abused to further the economic aims of the Third Reich In this moving survey of that fateful period Mr Weiss has relied on the writings of many of those who were on the scene His selection of articles from the New York Times explores the reasons behind the history The book begins by illuminating the political situation that allowed the Nazis and fascists to seize power It then analyzes the political and social policies of totalitarianism in practice the development of fascism in Europe outside Germany and Italy and finally the experience of war Jacket flap The Rise of National Socialism and the Working Classes in Weimar Germany Conan

Fischer, 1996 Before seizing power the Nazi movement assembled an exceptionally broad social coalition of activists and supporters Many were working class but there remains considerable disagreement over the precise size and structure of this constituency and still more over its ideology and politics An indispensable work for scholars of interwar Germany and Nazism in general **Catholicism and Fascism in Europe 1918 - 1945** Jan Nelis, Anne Morelli, Danny Praet, 2015-05-01 Die im vorliegenden Band versammelten Aufsätze analysieren die vielfältige Art und Weise wie der Vatikan die nationalen Kirchen und einzelne Katholiken mit dem Aufstieg der extremen Rechten in Europa während der 1920er 1930er und frühen 1940er Jahre umgingen vom Ende des Ersten Weltkriegs der mit Recht als einer der wichtigsten Katalysatoren des europäischen Faschismus in der Zwischenkriegszeit gilt bis zum Schluss und zu den unmittelbaren Nachwirkungen des Zweiten Weltkriegs Während einige Aufsätze sich auf theoretische methodologische Probleme konzentrieren beschäftigen sich die meisten Beiträge mit jeweils einem Land oder einer Region wo eine faschistische Bewegung oder ein solches Regime zwischen den Kriegen und während des Zweiten Weltkriegs erfolgreich war und wo es gleichzeitig eine signifikante katholische Präsenz in der Gesellschaft gab Fast ganz Europa wird behandelt ein beispielloses Unternehmen und eine große Zahl wichtiger Kontexte und Methoden wird untersucht So wirken die Beiträge mit an der allgemeinen Entwicklung eines interpretativen Cluster Modells das eine Reihe von Grundmustern der Forschung vereinigt und zukünftige Untersuchungen anregen wird The papers presented in this volume analyse the many ways in which the Vatican national Churches and individual Catholics dealt with the rise of the extreme right in Europe throughout the 1920s 1930s and early 1940s from the end of the First World War arguably one of the main catalysts of European interwar fascism to the conclusion and immediate aftermath of the Second World War While a number of papers focus primarily on theoretical methodological issues pertaining to the book's general theme the majority of papers focus on either a country or region where a fascist movement or regime flourished between the

wars and during the Second World War and where there was a significant catholic presence in society The various chapters cover almost the entire European continent an endeavour that is unprecedented and they explore a wide range of relevant contexts and methodologies thus further contributing to the general development of an interpretive cluster model that incorporates a series of investigative matrixes and that will hopefully inspire future research The Nazi-Fascist New Order for European Culture Benjamin G. Martin,2016-10-24 Following France s defeat the Nazis moved forward with plans to reorganize a European continent now largely under Hitler s heel Some Nazi elites argued for a pan European cultural empire to crown Hitler s conquests Benjamin Martin charts the rise and fall of Nazi fascist soft power and brings into focus a neglected aspect of Axis geopolitics *Brill's Companion to the Classics, Fascist Italy and Nazi Germany* Helen Roche,Kyriakos N. Demetriou,2017-10-17 The first ever guide to the manifold uses and reinterpretations of the classical tradition in Mussolini s Italy and Hitler s Germany Brill s Companion to the Classics Fascist Italy and Nazi Germany explores how political propaganda manipulated and reinvented the legacy of ancient Greece and Rome in order to create consensus and historical legitimation for the Fascist and National Socialist dictatorships The memory of the past is a powerful tool to justify policy and create consensus and under the Fascist and Nazi regimes the legacy of classical antiquity was often evoked to promote thorough transformations of Italian and German culture society and even landscape At the same time the classical past was constantly recreated to fit the ideology of each regime **Fascist Italy and Nazi Germany** Alexander J. De Grand,2004 Revised throughout the second edition of this respected book takes account of recent historical research and includes an expanded discussion of the role of the military in the two regimes **Hitler and His Allies in World War Two** Jonathan Adelman,2020-03-25 In an area where in depth studies of Hitler s relations with Nazi Germany s allies and the failure of Nazi Germany to make more effective use of them during the war are scant this is a survey that looks at the Soviet Union Japan France Italy Spain Romania and Hungary and their relationship to Nazi Germany Using a comparative approach seven case studies examine themes such as co operation and resistance military and economic aid treatment of Jews relations with the enemies and the popular sentiment towards Germany Jonathan Adelman has provided students of the Second World War with a welcome mine of information and a unique perspective on a much studied topic Entangled Histories of the Balkans - Volume Two Roumen Daskalov,Diana Mishkova,2013-11-14 Modern Balkan history has traditionally been studied by national historians in terms of separate national histories taking place within bounded state territories The authors in this volume take a different approach They all seek to treat the modern history of the region from a transnational and relational perspective in terms of shared and connected as well as entangled histories transfers and crossings This goes along with an interest in the way ideas institutions and techniques were selected transferred and adapted to Balkan conditions and how they interacted with those conditions resulting in m langes and hybridization The volume also invites reflection on the interacting entities in the very process of their creation and consecutive transformations rather than taking them as givens

**Japan in the Fascist Era** E. Reynolds, 2004-07-15 In contrast to Euro centric works on comparative fascism that set Japan apart from Germany and Italy this book emphasizes parallels between Japan and its Axis Allies Romantic nationalist ideologies attracted a strong following in all three nations as they emerged as modern states in the late 1800s In both Germany and Japan these were from the beginning strongly racial in nature Spurred by grievances against the status quo powers all three took up aggressive policies in the 1930s producing a short lived fascist era Japan's prominent role demands a broader perspective and consideration of fascism as more than a purely European phenomenon

Futurism and Politics Gunter Berghaus, 1996-04-15 Futurism was the state of the Fascist regime this is the view one encounters in most books written on Futurist art and literature Whilst there can be no doubt about Futurist involvement with the founding of the fascist movement little is known about the internal relationship between Futurists and Fascists in the years 1918-22 nor about the reasons for the Futurists departure from the Fascist movement in 1920 or about Futurist opposition to and even armed struggle against the Fascist regime after 1924 Whilst the public documents testifying to Futurist support of Mussolini are well known little has been written about Futurist anti fascism camouflaged as official adherence to the regime This study based primarily on unknown or unpublished documents discovered in state archives and private collections presents a new and far more complex picture of the relationship of the two movements than has previously been shown by critics and historians

*Germany in the World: A Global History, 1500-2000* David Blackbourn, 2023-06-06 Brilliantly conceived and majestically written this monumental work of European history recasts the five hundred year history of Germany With *Germany in the World* award winning historian David Blackbourn radically revises conventional narratives of German history demonstrating the existence of a distinctly German presence in the world centuries before its unification and revealing a national identity far more complicated than previously imagined Blackbourn traces Germany's evolution from the loosely bound Holy Roman Empire of 1500 to a sprawling colonial power to a twenty first century beacon of democracy Viewed through a global lens familiar landmarks of German history the Reformation the Revolution of 1848 the Nazi regime are transformed while others are unearthed and explored as Blackbourn reveals Germany's leading role in creating modern universities and its sinister involvement in slave trade economies A global history for a global age *Germany in the World* is a bold and original account that upends the idea that a nation's history should be written as though it took place entirely within that nation's borders

1974 Annual Supplement Joan Schmitz Bergholt, 2013-12-21

Fascists Michael Mann, 2004-05-24 *Fascists* presents a theory of fascism based on intensive analysis of the men and women who became fascists It covers the six European countries in which fascism became most dominant Italy Germany Austria Hungary Romania and Spain It is a comprehensive analysis of who fascists actually were what beliefs they held and what actions they committed The book suggests that fascism was essentially a product of post World War I conditions in Europe and is unlikely to re appear in its

classic garb in the future Nonetheless elements of its ideology remain relevant to modern conditions and are now re appearing though mainly in different parts of the world

*Between Occultism and Nazism* Peter Staudenmaier, 2014-04-03 The relationship between Nazism and occultism has been an object of fascination and speculation for decades Peter Staudenmaier's *Between Occultism and Nazism* provides a detailed historical examination centered on the anthroposophist movement founded by Rudolf Steiner Its surprising findings reveal a remarkable level of Nazi support for Waldorf schools biodynamic farming and other anthroposophist initiatives even as Nazi officials attempted to suppress occult tendencies The book also includes an analysis of anthroposophist involvement in the racial policies of Fascist Italy Based on extensive archival research this study offers rich material on controversial questions about the nature of esoteric spirituality and alternative cultural ideals and their political resonance

**Yearbook of Transnational History** Thomas Adam, 2019-07-19 The Yearbook of Transnational History is dedicated to disseminating pioneering research in the field of transnational history This second volume provides readers with articles on topics such as transnational marriages exile soccer and missionaries as well as on the campaigns in Communist countries for freeing the American civil rights activist Angela Davis These articles highlight the movement of ideas people policies and practices across various cultures and societies and explore the relations connections and spaces created by these movements The articles in this volume explore interconnected historical phenomena in Asia North and South America and Europe from the late seventeenth century to the late twentieth century These articles make clear that historical phenomena such as soccer and exile cannot be contained and explained within just one national setting This volume also offers a theoretical article that provides insights into the concept of intercultural transfer studies and its relationship to comparative and global history and an article that surveys the state of research in the field of transnational crime
