Cathedral Age, 2001 **Mad at School** Margaret Price, 2011-02-17 A very important study that will appeal to a disability studies audience as well as scholars in social movements social justice critical pedagogy literacy education professional development for disability and learning specialists in access centers and student counseling centers as well as the broader domains of sociology and education Melanie Panitch Ryerson University Ableism is alive and well in higher education We do not know how to abandon the myth of the pure ivory tower that props up and is propped up by ableist ideology *Mad at School* is thoroughly researched and pathbreaking The author's presentation of her own experience with mental illness is woven throughout the text with candor and eloquence Linda Ware State University of

New York at Geneseo *Mad at School* explores the contested boundaries between disability illness and mental illness in the setting of U S higher education Much of the research and teaching within disability studies assumes a disabled body but a rational and energetic an agile mind In *Mad at School* scholar and disabilities activist Margaret Price asks How might our education practices change if we understood disability to incorporate the disabled mind Mental disability more often called mental illness is a topic of fast growing interest in all spheres of American culture including popular governmental aesthetic and academic *Mad at School* is a close study of the ways that mental disabilities impact academic culture Investigating spaces including classrooms faculty meeting rooms and job searches Price challenges her readers to reconsider long held values of academic life including productivity participation security and independence Ultimately she argues that academic discourse both produces and is produced by a tacitly privileged able mind and that U S higher education would benefit from practices that create a more accessible academic world *Mad at School* is the first book to use a disability studies perspective to focus specifically on the ways that mental disabilities impact academic culture at institutions of higher education Individual chapters examine the language used to denote mental disability the role of participation and presence in student learning the role of collegiality in faculty work the controversy over security and free speech that has arisen in the wake of recent school shootings and the marginalized status of independent scholars with mental disabilities Margaret Price is Associate Professor of English at Spelman College

Home Will Never Be the Same Again Carol R. Hughes,Bruce R. Fredenburg,2020-06-22 Adult children are often overlooked and forgotten when their parents divorce later in life but in these pages they will find comfort and understanding for the many feelings frustrations and challenges they face For more than two decades a silent revolution has been occurring and creating a seismic shift in the American family and families in other countries It has been unfolding without much comment and its effects are being felt across three to four generations more couples are divorcing later in life Called the gray divorce revolution the cultural phenomenon describes couples who divorce after the age of 50 Overlooked in the issues that affect couples divorcing later in in life are the adult children of divorcing parents Their voices open this book and they are the voices of men and women 18 to 50 years old Some of them are single some are married Some have children of their own All of them are in different stages of shock fear and sudden dramatic change In Home Will Never Be the Same A Guide for Adult Children of Gray Divorce Carol Hughes and Bruce Fredenburg share their deep understanding gained during the innumerable hours they have spent with these women and men in their clinical practices The result is a valuable resource for these too often forgotten adult children many of whom find that whenever they express their feelings and experiences the most important people in their lives frequently ignore and dismiss them As the divorce rate for older adults soars so too does the number of adult children who are experiencing parental divorce Yet these adult children frequently say that they are the only ones who are aware of what they are going through no one understands what they are experiencing and they feel painfully alone
