## **Near East Since The First World War:**

**The Near East since the First World War** Malcolm Yapp, 2014-10-17 This clear balanced and authoritative survey of the history of the region is now fully up to date again The text contains a general regional introduction followed by a series of country by country analyses and a section which places the Near East in the international context Professor Yapp's new edition covers recent dramatic events including the end of the Cold War the Kuwait Crisis of 1990-91 and the continuing conflict in Israel as well as assessing the huge social and economic changes in the region It will be essential reading for students and scholars concerned with modern middle eastern history and politics of the middle east *Imagining the Middle East* Matthew F. Jacobs, 2011-09-12 As its interests have become deeply tied to the Middle East the United States has long sought to develop a usable understanding of the people politics and cultures of the region In *Imagining the Middle East* Matthew Jacobs illuminates how Americans ideas and perspectives about the region have shaped justified and sustained U S cultural economic military and political involvement there Jacobs examines the ways in which an informal network of academic business government and media specialists interpreted and shared their perceptions of the Middle East from the end of World War I through the late 1960s During that period Jacobs argues members of this network imagined the Middle East as a region defined by certain common characteristics religion mass politics underdevelopment and an escalating Arab Israeli Palestinian conflict and as a place that might be transformed through U S involvement Thus the ways in which specialists and policymakers imagined the Middle East of the past or present came to justify policies designed to create an imagined Middle East of the future Jacobs demonstrates that an analysis of the intellectual roots of current politics and foreign policy is critical to comprehending the styles of U S engagement with the Middle East in a post 9/11 world

**Eisenhower, Macmillan and the Problem of Nasser** N. Ashton, 1996-11-08 The years 1955-59 were a vital transitional period for the Anglo American relationship in the Middle East British and American leaders sought to protect cold war and oil interests in the region against the background of a renaissance of Arab nationalism personified by the Egyptian leader Nasser With the aid of extensive declassified official documentation this study traces the British and American responses to the Turco Iraqi Pact of 1955 the Suez crisis the Syrian crisis of 1957 the outbreak of civil strife in Lebanon and the Iraqi Revolution of 1958 It shows how the differing priorities of the two powers in the region promoted a patchwork of confrontation and cooperation over Middle Eastern questions For Britain this study reveals that it was the Iraqi Revolution rather than Suez which led to a redefinition of strategy in the region and a concentration on the defence of her oil interests in the Gulf State Power and Politics in the Making of the Modern Middle East Lecturer in the Recent Economic History of the Middle East and Fellow Roger Owen, Roger Owen, 2002-04-12 Roger Owen has fully revised and updated his authoritative text to take into account the considerable developments in the Middle East in the 1990s **State, Power and Politics in the Making of the Modern Middle East** Roger Owen, 2013-01-11 Roger Owen has fully revised and updated his

of peace politics      **Palestine Refugees** United States. Congress. House. Committee on Foreign Affairs, 1950 Considers 81 S J Res 153      **Hearings** United States. Congress. House. Committee on Foreign Affairs, 1950      The Middle East Philip Robins, 2016-09-01 The wave of popular uprisings that swept through the Middle East promised to pave the way for democracy It brought down dictators and captured the popular imagination but for most of the region peace and stability remain as elusive today as they have ever been In this fully revised introduction Oxford University s Philip Robins takes a close look at the issues plaguing the region With each chapter focusing on a key theme Robins weaves together the disparate countries into a coherent and entertaining narrative From leadership and gender to religion and society The Middle East A Beginner s Guide is replete with case studies astute analysis profiles of key personalities and even jokes from the region There is no better resource for understanding the Middle East both past and present      **A Line in the Sand: The Anglo-French Struggle for the Middle East, 1914-1948** James Barr, 2012-01-09 Uses recently declassified French and British government documents to describe how the two countries secretly divided the Middle East during World War I and the effect these mandates had on local Arabs and Jews      **The Oil Crisis** Fiona Venn, 2016-07-01 In October 1973 two crises one economic one political intersected with dramatic and long term consequences for international relations On 6 October Egypt and Syria launched an attack on Israel and within a few days the major Arab oil producers announced their support by use of the oil weapon including a boycott of supplies for countries friendly to Israel and a programme of production cuts This was followed by the unilateral declaration of a steep increase in the price of oil by the Organization of Petroleum Exporting Countries OPEC The result was international panic and world recession Crude oil prices soared by a massive fourfold in just three months The West s vulnerability had been exposed it was being held hostage to oil Yet despite efforts to address this dependence on oil imports in following years the 1979 Iranian Revolution triggered a further upward surge in prices Today the importance of oil remains at the forefront of the West s foreign policy calculations in the Middle East In this fascinating and timely new look at the oil crisis Fiona Venn examines these issues and the more unexpected effects of the crisis She asks just how much really changed in the economic balance of power Most importantly she argues that OPEC was used as a scapegoat for the world recession which had been already underway when the crisis detonated      **Keep Your Friends Close and Your Enemies Closer** Robert K. Ulmstead, 2012-09-28 The Islamic Republic of Iran IRI has pursued a nuclear program since 1985 In February 2006 with the last round of international negotiations having failed and International Atomic Energy Agency IAEA having reported the dossier to the United Nations Security Council Tehran is on the precipice of being able to field a nuclear weapon at a time convenient to the IRI A nuclear armed Iran will change the strategic calculus in the Middle East and Central Asia and present new risks to US interests in the region This monograph will address the issue of a nuclear armed Iran from four perspectives historical patterns of Iranian behavior with respect to foreign influence a western perspective of these patterns a technical review of Iran s nuclear program and a methodology called systemic operational

design SOD SOD is an application of systems theory to operational art that focuses on the relationships between the entities within a system to translate strategic direction and policy into an operational design This systemic approach synthesizes the Iranian historical pattern of balancing one foreign power with another while simultaneously seeking to limit foreign influence with the Western perspectives of international politics and the technical realities of Iran s nuclear program A design that seeks to keep our friends close and our enemies closer by simultaneously pursuing economic growth and regional stability through reopening of the US embassy in Iran while disrupting the foreign networks that support the proliferation of nuclear technology along with those that finance and support the foreign activities of Iran s IRGC and Hezbollah provides an initial frame and direction for action to manage the risks posed by a nuclear armed Iran

Islam, Orientalism and Intellectual History Mohammad R. Salama, 2011-03-30 Debates on the relationship between Islam and the West rage on from talk of clashing civilizations to political pacification from ethical and historical perspectives to distrust xenophobia and fear Here Mohammad Salama argues that the events of 9 11 force us to engage ourselves fully without preconditions in understanding not just the history of Islam as a religion but of Islam as a historical condition that has existed in relationship to the West since the seventh century Salama compares the Arab Islamic and European traditions of historical thought since the early modern period focusing on the watershed moments that informed the two traditions ideas of intellectual history and perceptions of one another He draws attention to European intellectual history s entangled links with the Islamic philosophy of history especially the complexities of orientalism and modernity Recent critical reflections on the work of Ibn Khald n confirm this intertwined and troubled relationship reflecting major disparities and contradictions At the same time recent Arab writings on Europe s intellectual history reveal a struggle against erasure and intellectual superiority Calling for a new understanding of the relationship between Islam and the West Salama argues that Islam has played a major role in enabling and positioning various paths of Western historiography at crucial moments of its development leaving palpable imprints on Islamic historiography in the process He proposes an answer to a fundamental question how to make sense of the mechanics of production in Arab Islamic and Western historiographies or how to identify the ways in which they have both failed to make sense of themselves and of each other in an increasingly disenchanted postnationalist world Spanning an impressive array of recent writings on these themes as well as older foundational texts in both traditions including al Tabar Ibn Khald n Hegel al Jabart Toynbee Foucault Edward Said and Hourani this book is both timely and crucial for all those interested in Islamic and Middle Eastern studies Western and Islamic philosophies of history modernity and the relationship between Islam and the West

*Austen Chamberlain and the Commitment to Europe* Dr Richard S Grayson, Richard S. Grayson, 2014-01-27 This is a study of Austen Chamberlain s term of office as Stanley Baldwin s Foreign Secretary from 1924 29 It is argued that Chamberlain s priority was a two stage policy in Western Europe which aimed at pacifying both France and Germany as well as encouraging the League of Nations

**Islam and the Culture of Modern Egypt** Mohammad

Salama,2018-11-08 Examines the influence of Islam as a religion a practice and a tradition on Egypt s visual and literary modernity      **Between Capital and Land** Eric Engel Tuten,2004-08-02 This book provides a detailed examination of the Jewish National Fund s internal development and analyzes the relationship between Jewish National Fund finances and land purchase priorities during the Second World War      **Medieval Persia 1040-1797** David Morgan,2014-09-19 The medieval period of Persia s remarkably continuous history began with its conquest by the Muslim Arabs in the seventh century AD and gave way to the modern period at the end of the eighteenth century when the influence of the West became pervasive Without an understanding of the confused legacy of these centuries no one can hope to understand the complexities and dynamism of modern Iran Concise clear and colourful David Morgan s book is the best and most up to date short account of its subject in the English language      Eastern Christianity in the Modern Middle East Anthony O'Mahony,Emma Loosley,2009-12-16 The Middle East is the birthplace of Christianity and the home to a number of Eastern Churches with millions of followers This book provides a comprehensive survey of the various denominations in the modern Middle East and will be of interest to a wide variety of scholars and students studying theology history and politics
