Ocular Pathology, 1971 *Current Catalog* National Library of Medicine (U.S.), 1993 First multi year cumulation covers six years 1965 70 Ocular Pathology David J. Apple, Maurice F. Rabb, 1998 This new fifth edition of Ocular Pathology maintains its reputation as an essential reference for understanding diagnosing and treating diseases of the eye Offering comprehensive information on the latest clinical findings it is unique in its full colour atlas presentation of pathology specimens reflecting the most current topics in the field It remains an excellent reference for practising ophthalmologists cataract and refractive surgeons and all individuals interested in vision care and visual sciences Assists the reader in understanding the nature causes and development of abnormal conditions in the eye Updated self assessment questions test overall understanding of the field and prepare for the Board Examination Book is well positioned for all levels of Eye Health Care Providers Over 240 color photographs and 930 black and white illustrations clearly depict hundreds of clinical entities and pathology specimens external and slit lamp photographs fundus photographs retinal angiograms anatomic histologic and electromicroscopic photos of all eye tissues and their diseases along with numerous sketches and schematic illustrations of

tissues Increased number of Questions and Answers from 35 to 50 per chapter for a total of 550 Update on diagnosis and therapy of retinal diseases including AIDS and new material on indocyanine green angiography Updated sections on pathology of lens cataract surgery and intraocular lenses This material has been updated to include modern small incision surgery and foldable lens technology which has greatly expanded since 1989 and is now the preferred cataract surgical procedure of most ophthalmologists This book continues to be the only text available which covers the pathology of cataract surgery and intraocular lenses A new chapter has been added which represents the first comprehensive publication on clinicopathological correlation of refractive surgery including incisional refractive surgery RK refractive surgery with lasers PRK and LASIK and refractive intraocular lenses The information is based on the extensive experience of Dr Apple's laboratory at the Storm Eye Institute in Charleston The material and illustrations in this chapter have never been published elsewhere There has been extensive update of references of all topics in the book *Ophthalmic Histopathology* W.R. Lee, 2013-04-17 This book has been written to give guidance to histopathologists who are dealing with pathological specimens submitted by ophthalmologists whether in a general pathology laboratory or in a specialist ophthalmic pathology laboratory The bias has been given to the diseases encountered commonly in the routine service or in the autopsy room and the intention is to show how to achieve the maximum information from each specimen Conventional textbooks deal with diseases of the eye on an anatomical basis but this is inappropriate for a histopathologist who is studying a globe in which the disease has varying effects on each of the individual tissue components While unconventional it seemed more acceptable to lay the book out under the relatively limited and broad headings which ophthalmologists use as indications for enucleation trauma tumour endophthalmitis vascular disease etc It also seemed logical to include a separate chapter on ocular disease as it is encountered in the autopsy room and continuing the theme to consider a keratoplasty specimen and the topics of orbital biopsy and conjunctival biopsy in separate chapters In each pathological process whenever appropriate it was important to include the effects of modern therapeutic measures because this is one of the main features of interest for the clinician For the beginner an introductory chapter on the techniques and rationale of the preliminary systematic macroscopic examination of a globe has been included with an account of the supplementary techniques which are essential for an accurate diagnosis
