does so in the course of everyday activities The common misconception is that science is a body of boring abstract often mathematical facts In truth science is a process Looking at the world Thinking about what makes it work Testing your mental model by comparing it to reality and Telling others about your results all things that people do daily By revealing the connection between the everyday activities that people do solving crossword puzzles playing sports or even watching mystery shows on television and the processes used to make great scientific discoveries Eureka shows that this process is one everybody uses regularly and something that anyone can do     The Unique Crossword Dictionary Athol Crane,2008-08-30 The unique dictionary is a dictionary designed for quick reference printed in a handy format to be a great companion for crossword partakers     Weird Al Lily E.
