## **Odybey Of The Gods The Alien History Of Ancient Greece:**

Odyssey of the Gods Erich von Däniken,2011-10-15 Erich von D niken s monumental Chariots of the Gods changed the way generations have looked at mythology ancient history and the possibility of advanced beings from other worlds visiting Earth Now he tackles the history of Greece and again challenges our beliefs about how our civilization arose Using painstaking archaeological research and evidence from the writings of Plato and Aristotle he suggests that the Greek myths were in fact very much a reality that the Greek gods were actually extraterrestrial beings who arrived on Earth many thousands of years ago Many of you may find von D niken s conclusions astounding but they are argued with such vigor and clarity that you ll be forced to consider the implications of his findings for mankind Odyssey of the Gods includes new eye opening information about A revolutionary interpretation of the sites and legends of ancient Greece The conflict between alien gods and humans The true origin of centaurs the Cyclops and other mythical creatures A startling new explanation of the Atlantis legend

*Odyssey of the Gods* Erich Von Daniken,2002-02-13 Using archaeological evidence and citing authors such as Plato and Aristotle Erich von Daniken sets out to show that the Greek gods were in fact extraterrestrial beings who arrived on Earth many thousands of years ago He explains how these gods interbred with humans giving rise to heroes with special powers and their genetic experiments resulted in mythical creatures such as the centaur and the Cyclops The ancient archaeological sites are now shown to have had practical as well as religious purposes For instance the massive earthenware jars found at the palace of Knossos on Crete might once have served as storage containers for oil used to fuel flying tubs belonging to the children of the gods The author goes on to examine the Machine of Antikythera which was discovered in a shipwreck at the beginning of the last century This was an astronomical machine of great complexity which was most likely used as a sophisticated navigational device Many may find von Daniken s conclusions astounding but they are what have made him such a compelling and persuasive writer and only the close minded will fail to be stimulated and provoked into considering the implications of his findings for mankind Stimulating new theories about the Greek gods argued with the vigour and clarity Backed up by compelling archaeological evidence Written by one of the world s foremost ufologists and researchers

**Odyssey of the Gods** Erich von Däniken,2000 The author turns his attention to Ancient Greece and using archaeological evidence and citing authors such as Plato and Aristotle he sets out to show that the Greek gods were in fact extraterrestrial beings who arrived on Earth many thousand years ago

**The Cult of Alien Gods** Jason Colavito,2010-03-05 Fans of fantasy horror writer H P Lovecraft must add The Cult of Alien Gods H P Lovecraft and Extraterrestrial Pop Culture to their reading lists California BookwatchCombining literary theory cultural criticism and muckraking Colavito aims to debunk alternative history He does a fair job of presenting his case using a great deal of textual analysis but believers will dismiss it as yet another attempt to suppress the truth while those who haven t been immersed in the literature are likely to be bewildered or indifferent the writing is engaging and the topic intriguing Publishers

Weekly Nearly half of all Americans believe in the existence of extraterrestrials and many are also convinced that aliens have visited earth at some point in history Included among such popular beliefs is the notion that so called ancient astronauts visitors from outer space were responsible for historical wonders like the pyramids In The Cult of Alien Gods author Jason Colavito reveals for the first time that the entire genre of ancient astronaut books is based upon fictional horror stories whose author once wrote that he never wished to mislead anyone In this entertaining and informative book Colavito traces the origins of the belief in ancient extraterrestrial visitors to the work of horror writer H P Lovecraft 1890 1937 This amazing tale takes the reader through fifty years of pop culture and pseudoscience highlighting such influential figures and developments as Erich von Däniken Chariots of the Gods Graham Hancock Fingerprints of the Gods Zecharia Sitchin Twelfth Planet and the Raelian Revolution The astounding and improbable connections among these various characters are revealed along with the disturbing consequences of Lovecraft's little joke for modern science and public knowledge Beyond documenting Lovecraft's influence on ancient astronaut theories and Raelian cloning efforts Colavito also argues that the appeal of such modern myths is a troubling sign in an age when science is having its greatest success He suggests that at the dawn of the 21st century Western society is witnessing a deep seated erosion of Enlightenment values that are the basis of the modern world Jason Colavito is a freelance writer and editor who has written for Skeptic magazine among other publications

**Jason and the Argonauts through the Ages** Jason Colavito, 2014-04-07 The story of Jason and the Argonauts is one of the most famous in Greek myth and its development from the oldest layers of Greek mythology down to the modern age encapsulates the dramatic changes in faith power and culture that Western civilization has seen over the past three millennia From the Bronze Age to the Classical Age from the medieval world to today the Jason story has been told and retold with new stories details and meanings This book explores the epic history of a colorful myth and probes the most ancient origins of the quest for the Golden Fleece a quest that takes us to the very dawn of Greek religion and its close relationship with Near Eastern peoples and cultures Jesus The Extraterrestrial , **A Brief Guide to the Greek Myths**

Stephen P. Kershaw, 2013-02-07 The book leads the reader through these vibrant stories from the origins of the gods through to the homecomings of the Trojan heroes All the familiar narratives are here along with some less familiar characters and motifs In addition to the tales the book explains key issues arising from the narratives and discusses the myths and their wider relevance This long overdue book crystallises three key areas of interest the nature of the tales the stories themselves and how they have and might be interpreted For the first time it brings together aspects of Greek mythology only usually available in disparate forms namely children's books and academic works There will be much here that is interesting surprising and strange as well as familiar Experts and non experts adults students and schoolchildren alike will gain entertainment and insight from this fascinating and important volume **The Mammoth Encyclopedia of**
