### **Derek Walcott's Encounter with Homer**

Rachel D. Friedman, 2024-02-23 Derek Walcott's Encounter with Homer puts Derek Walcott's epic poem Omeros in conversation with Homer especially the Odyssey to show how reading them against each other changes our understanding of the poems of both poets It explores Walcott's conscious use of the Odyssey and the Homeric persona of Omeros to explore his own deepening relationship with his craft and his identity as a Caribbean poet Walcott's ability to serve as the vessel of history for his people and their landscapes rests on his transformation into and self perception as Homer's contemporary and equal Central to the project of Omeros is thus an account of his shift from a diachronic to synchronic relationship with Homer over the course of the poem his poetic persona the Poet and Homer come to occupy the same temporality and creative space By locating the poems of Walcott and Homer in a zone of vibrant and unexpected encounter Rachel Friedman demonstrates how they can be seen as mutually informing texts each made richer in the presence of the other The argument follows two intertwined thematic threads The first focuses on the poems landscapes and seascapes and the ways in which Omeros

reworks the Odyssey's affective geography While the Odyssey represents the sea as a dangerous space and valorizes life on land Walcott reverses this trajectory from sea to land bearing witness to the painful histories carried in the St Lucian soil and relocating homecoming to the space of the Caribbean Sea a space which accommodates diasporic histories and the imagining of fluid forms of emplacement The second thread focuses on Walcott's poetic persona his journey in and out of the poem and his positioning of himself as a tribal poet like Homer Central to the project of Omeros is the Poet's account of the processes by which he becomes the poet who can adequately give voice to the histories of his people and the archipelago they inhabit

FIELDING to TURGENEV      *Time and Space in Ancient Myth, Religion and Culture* SNF-Projekt, Menelaos Christopoulos, Athina Papachrysostomou, 2017-10-10

From Homer to Sophocles and Greek Middle Comedy and from Plato and Protagoras to Ovid this volume features a panoramic and cross generic overview of the diverse handling and ad hoc elaboration of the overarching literary notions of time and space

The twenty one contributions of this volume written by an international group of esteemed scholars provide an equal number of hermeneutic approaches to individual distinct aspects of Greek and Latin literature

The volume is purposely designed not as a linear display of knowledge but rather as an anthology of select paradigms that aim to demonstrate the multidimensional function and multifaceted role of the twin notions of time and space throughout ancient Greek and Latin literary texts

The volume opens with analyses of conspicuous cases from epic poetry proceeds with examples from drama tragedy and comedy and concludes with diverse instances of chronotopes empirical imaginary and even shifting ones in various literary genres

The volume is of greatest relevance since it meets the cultural and theoretical trends of today s Classics

It therefore will attract not only the interest of specialised Classicists but it is also intended for a wider general readership

**Antiquity and the Meanings of Time** Duncan F. Kennedy, 2013-05-30

Society and contemporary culture seem forever fascinated by the topic of time

In modern fiction Ian McEwan *The Child in Time* and Martin Amis *Time s Arrow* have led the way in exploring the human condition in relation to past present and future

In cinema several cultural texts *Memento* *Minority Report* *The Hours* have similarly reflected a preoccupation with temporality and human experience

And in the sphere of politics debates about the end of history prompted by Francis Fukuyama indicate that how we live is deeply determined by our relationship not only to place but also to the passing of time

But what did the ancients think about time

Is our interest in chronology a relatively recent phenomenon

Or does it go further back

In his major new work Duncan Kennedy indicates that our own fascination with time reckoning is by no means unique

Discussing a number of key texts such as Homer s *Odyssey* Sophocles *Oedipus Rex* Virgil s *Aeneid* and Ovid s *Metamorphoses* and imaginatively setting these side by side with modern works such as Sterne s *Tristram Shandy* and Joyce s *Ulysses* he shows that from era to era and in different ways human beings have uniformly striven to understand the unfolding of history and their relationship to it

This sophisticated cross disciplinary book will appeal not only to classicists but also to scholars and students in the humanities more broadly as well as beyond

**Why Homer Matters** Adam Nicolson, 2014-11-18

Adam

Nicolson writes popular books as popular books used to be a breeze rather than a scholarly sweat but humanely erudite elegantly written passionately felt and his excitement is contagious James Wood *The New Yorker* Adam Nicolson sees the Iliad and the Odyssey as the foundation myths of Greek and our consciousness collapsing the passage of 4 000 years and making the distant past of the Mediterranean world as immediate to us as the events of our own time Why Homer Matters is a magical journey of discovery across wide stretches of the past sewn together by the poems themselves and their metaphors of life and trouble Homer's poems occupy as Adam Nicolson writes a third space in the way we relate to the past not as memory which lasts no more than three generations nor as the objective accounts of history but as epic invented after memory but before history poetry which aims to bind the wounds that time inflicts The Homeric poems are among the oldest stories we have drawing on deep roots in the Eurasian steppes beyond the Black Sea but emerging at a time around 2000 B C when the people who would become the Greeks came south and both clashed and fused with the more sophisticated inhabitants of the Eastern Mediterranean The poems which ask the eternal questions about the individual and the community honor and service love and war tell us how we became who we are

**Love's Confusions** C. D. C.

Reeve, 2005-03-31 Love's confusions are legion We promise to love but we cannot love at will Love God we're commanded but we cannot love on command And given the vicissitudes of self love even if we could love our neighbors as we love ourselves would it be a good thing to do so These are a few of the paradoxes that typically lead philosophers to oversimplify love and that draw C D C Reeve to explore it in all its complexity searching for the lessons to be found within love's confusions Ranging from Plato who wrote so eloquently on the subject to writers as diverse as Shakespeare Proust Forster Beckett Huxley Lawrence and Larkin Reeve brings the vast resources of Western literature and philosophy to bear on the question of love As he explores the origins of Western thought on the subject he also turns to the origins of individual experience the relationship of mother and child the template of all possible permutations of love and to the views of such theorists as Freud

Melanie Klein and Carol Gilligan At the same time he uses the story of the prototypical absent father Odysseus to demonstrate the importance of reconciling a desire for tenderness with a desire for strength if we are to make the most of love's potentials Looking at love in light of the classical world and Christianity and in its complex relationship with pornography violence sadomasochism fantasy sentimentality and jealousy Reeve invites us to think more broadly about love and to find the confusions that inevitably result to be creative rather than disturbing Cartography and Art William Cartwright, Georg Gartner, Antje Lehn, 2009-02-26 This book is the fruition of work from contributors to the Art and Cartography Cartography and Art symposium held in Vienna in February 2008 This meeting brought together cartographers who were interested in the design and aesthetics elements of cartography and artists who use maps as the basis for their art or who incorporate place and space in their expressions The outcome of bringing together these like minds culminated in a wonderful event spanning three evenings and two days in the Austrian capital Papers exhibitions and installations provided a forum for appreciating the endeavors of artists and cartographers and their representations of geography As well as indulging in an expansive and expressive occasion attendees were able to reflect on their own work and discuss similar elements in each other's work It also allowed cartographers and artists to discuss the potential for collaboration in future research and development To recognise the significance of this event paper authors were invited to further develop their work and contribute chapters to this book We believe that this book marks both a significant occasion in Vienna and a starting point for future collaborative efforts between artists and cartographers The editors would like to acknowledge the work of Manuela Schmidt and Felix Ortag who undertook the task of the design and layout of the chapters
