Outrunner Odyssey R. H. Thompson Jr., 2008-11-11 The long environmental nightmare had ended Planet Earth had been healed Its beauty and majesty had been restored by a race of evolving human descendants known as the Mirsiens They had prevailed against those who would have used the knowledge and the power for themselves alone Now with the home world renewed the time had come for the Mirsiens to reach for the stars Taya G Xallnyk is one of them She seeks her place in the universe and the answers to all things unknown She also commands the Outrunner vessel Oasis ValiMirum as it travels deep into the constellation of Orion The vessel is a living evolving entity in itself a technological masterpiece in both form and function a magnificent structure of almost unimaginable power Others join the Mirsiens along the way Together they experience the frigid cold depths of space the searing hot plains of Xolnon III the conflicts with the Maljex the mysterious spacial particle field and the foreboding canyon on Zantauva Their voyage is an incredible journey from one dimensional portal to the next as they travel through their wondrous and perilous galaxy

Foundations for a Humanitarian Economy William D. Bishop,2022-03-17 The modern global economy and discipline of economics place mathematical calculation above human concern However a re-reading of Boethius The Consolation of Philosophy can positively highlight the contrast in values and spirit of the early medieval European world with our own scientific age This book discusses the historical and cultural contexts that influenced Boethius writing and explores how Consolation offers a radically different understanding of economic concepts wealth from inner happiness and virtues poverty from hoarding outer possessions self sufficiency in the greater whole enlightenment through misfortune and development as fruition from the Good These economic considerations resonate with a range of heterodox economic perspectives such as Ecological and Buddhist Economics The fundamental revaluations gained through Boethius pose a critique of mainstream neoclassical and neoliberal economics to consumerism avarice growth and technology fetishism and market rationality These economic foundations resonate into a time when global crises raise the question of fundamental human priorities offering alternatives to an ever expanding industrial market economy designed for profit and helping to avoid irrevocable socio ecological disasters The issues raised and questioned in this book will be of significant interest to readers with concern for pluralist approaches to economics philosophy classics ancient history and theology The

Mary Chesnut's Civil War Epic
 Julia A. Stern, 2010-01-15 A genteel southern intellectual saloniste and wife to a prominent colonel in Jefferson Davis's inner circle Mary Chesnut today is remembered best for her penetrating Civil War diary Composed between 1861 and 1865 and revised thoroughly from the late 1870s until Chesnut's death in 1886 the diary was published first in 1905 again in 1949 and later to great acclaim in 1981 This complicated literary history and the questions that attend it which edition represents the real Chesnut To what genre does this text belong may explain why the document largely has until now been overlooked in literary studies Julia A Stern's critical analysis returns Chesnut to her rightful place among American writers In Mary Chesnut's Civil War Epic Stern argues that the revised diary offers the most trenchant literary account of race and slavery until the work of Faulkner and that along with his Yoknapatawpha novels it constitutes one of the two great Civil War epics of the American canon By restoring Chesnut's 1880s revision to its complex multidecade cultural context Stern argues both for Chesnut's reinsertion into the pantheon of nineteenth century American letters and for her centrality to the literary history of women's writing as it evolved

from sentimental to tragic to realist forms **Modern Honor** Anthony Cunningham, 2013-08-21 This book examines the notion of honor with an eye to dissecting its intellectual demise and with the aim of making a case for honor's rehabilitation. Western intellectuals acknowledge honor's influence but they lament its authority. For Western democratic societies to embrace honor it must be compatible with social ideals like liberty, equality, and fraternity. Cunningham details a conception of honor that can do justice to these ideals. This vision revolves around three elements: character, being, relationships, relating, and activities, and accomplishment. Taken together, these elements articulate a shared aspiration for excellence. We can turn the tables on traditional ills of honor: serious problems of gender, race, and class, by forging a vision of honor that rejects lives predicated on power and oppression. *English Journal*, 1981 [Subject Guide to Children's Books in Print 1997](#)
