**Œuvres complètes de Voltaire (Complete Works of Voltaire) 31B** Voltaire, 1994-01-01 Part of the complete works of the French philosopher historian and social reformer Voltaire Contains his highly successful comedy Nanine as well as other essays and poetry For students and scholars of the 18th century Enlightenment The Hamburg Dramaturgy by G.E. Lessing Natalya Baldyga, 2018-10-26 While eighteenth century playwright and critic Gotthold Ephraim Lessing made numerous contributions in his lifetime to the theater the text that best documents his dynamic and shifting views on dramatic theory is also that which continues to resonate with later generations the Hamburg Dramaturgy Hamburgische Dramaturgie 1767 69 This collection of 104 short essays represents one of the eighteenth century s most important critical engagements with the theater and its potential to promote humanistic discourse Lessing s essays are an immensely erudite deeply engaged witty ironic and occasionally scathing investigation of European theatrical culture bolstered by deep analysis of Aristotelian dramatic theory and utopian visions of theater as a vehicle for human connection This is the first complete English translation of Lessing s text with extensive annotations that place the work in its historical context For the first time English language readers can trace primary source references and link Lessing s observations on drama theory and performance not only to the plays he discusses but also to dramatic criticism and acting theory This volume also includes three introductory essays that situate Lessing s work both within his historical time period and in terms of his influence on Enlightenment and post Enlightenment theater and criticism The newly translated Hamburg Dramaturgy will speak to dramaturgs directors and humanities scholars who see theater not only for entertainment but also for philosophical and political debate

**Architecture, Print Culture and the Public Sphere in Eighteenth-Century France** Richard Wittman, 2007 This book focuses on the complex ways in which architectural practice theory patronage and experience became modern with the rise of a mass public and a reconfigured public sphere between the end of the seventeenth century and the French Revolution Presenting a fresh theoretical orientation and a large body of new primary research this book offers a new cultural history of virtually all the major monuments of eighteenth century Parisian architecture with detailed analyses of the public debates that erupted around such Parisian monuments as the east facade of the Louvre the Place Louis XV the Place de la Concorde and the church of Sainte Genevieve the Pantheon Depicting the passage of architecture into a mediatized public culture as a turning point and interrogating it as a symptom of the distinctly modern configuration of individual society and space that emerged during this period this study will interest readers well beyond the discipline of architectural history
