**complètes de Voltaire: Dictionnaire philosophiques** Voltaire, 1818 Political Thought of Hume and his Contemporaries Frederick G. Whelan, 2014-12-05 Intended for scholars in the fields of political theory and the history of political thought this two volume examines David Hume's Political Thought 1711 1776 and that of his contemporaries including Smith Blackstone Burke and Robertson This book is unified by its temporal focus on the middle and later decades of the eighteenth century and hence on what is usually taken to be the core period of the Enlightenment a somewhat problematic term Covering topics such as property contract and resistance theory religious establishments the law of nations the balance of power demography and the role of unintended consequences in social life Frederick G Whelan convincingly conveys the diversity and creativity of the intellectual engagements of even a limited set of Enlightenment thinkers in contrast to dismissive attitudes in some quarters toward the Enlightenment and its supposed unitary project Political Thought of Hume and his Contemporaries Enlightenment Projects Vol 2 contains six in depth studies of eighteenth century political thought including both normative issues and examples of Enlightenment social science including international relations and law the problem of double standards political economy demography and the causes of imperial decline The central figure is David Hume with

substantial attention to William Robertson Adam Smith Montesquieu Malthus and others **Philosophical Religions from Plato to Spinoza** Carlos Fraenkel, 2012-11-22 Many pagan Jewish Christian and Muslim philosophers from Antiquity to the Enlightenment made no meaningful distinction between philosophy and religion Instead they advocated a philosophical religion arguing that God is Reason and that the historical forms of a religious tradition serve as philosophy's handmaid to promote the life of reason among non philosophers Carlos Fraenkel provides the first account of this concept and traces its history back to Plato He shows how Jews and Christians appropriated it in Antiquity follows it through the Middle Ages in both Islamic and Jewish forms and argues that it underlies Spinoza's interpretation of Christianity The main challenge to a philosophical religion comes from the modern view that all human beings are equally able to order their lives rationally and

hence need no guidance from religion Fraenkel's wide ranging book will appeal to anyone interested in how philosophy has interacted with Jewish Christian and Muslim religious traditions *Œuvres complètes de Voltaire (Complete Works of Voltaire)* 1B Nicholas Voltaire, 2002-01-01 Part of the complete works of the French philosopher historian and social reformer Voltaire Brings together Voltaire's earliest poetic works from student experimentation in rhetoric to his first major philosophical poem *Épître à Uranie* For students and scholars of the 18th century Enlightenment **History of Political Ideas** Eric Voegelin, 1997 Volume six presents four long chapters which justify the opening words of Voegelin's 1901-1985 best known book *The New Science of Politics* The existence of man in political society is historical existence and a theory of politics if it penetrates to the principles must at the same time be a theory of history Voegelin discusses the conflict between Bishop Bossuet and Voltaire concerning the relationship between what is conventionally identified as sacred history and profane history This volume also includes a textual analysis of Giambattista Vico's *La scienza nuova* which can be read with the chapters on Bodin and Schelling in other volumes as an element of Voegelin's own spiritual autobiography Annotation copyrighted by Book News Inc Portland OR **Lehrbuch der christlichen Kirchengeschichte von der ältesten Zeit bis auf die Gegenwart** Christian Wilhelm Niedner, 1866 **Neueste, vom dem Verfasser ausgearb.
