## Oeuvres Complètes Tome 2:

**Volume 11, Tome II: Kierkegaard's Influence on Philosophy** Jon Stewart, 2016-12-05 Kierkegaard's relation to the field of philosophy is a particularly complex and disputed one. He rejected the model of philosophical inquiry that was mainstream in his day and was careful to have his pseudonymous authors repeatedly disassociate themselves from philosophy. But although it seems clear that Kierkegaard never regarded himself as a philosopher, there can be no doubt that his writings contain philosophical ideas and insights and have been profoundly influential in a number of different philosophical traditions. The tomes in this volume seek to document the different traditions of the philosophical reception of Kierkegaard's thought and the articles demonstrate the reach of Kierkegaard's writings in philosophical contexts that were often different from his own. The present volume attempts to document these different traditions of the philosophical reception of Kierkegaard's thought. The articles featured here aim to demonstrate the vast reach of Kierkegaard's writings in philosophical contexts that were often quite different from his own. Tome II is dedicated to exploring Kierkegaard's influence on Francophone philosophy. The French intellectual tradition squares well with Kierkegaard's eclectic profile since its leading figures are often difficult to classify unambiguously as philosophers, theologians, literary critics, or simply writers. Kierkegaard's thinking was highly influential for many generations of French philosophers right up to the present. It was not just existentialism that tried to co-opt Kierkegaard for its own purposes; he has also been influential in the context of almost every modern school of French thought: phenomenology, feminism, structuralism, post-structuralism, semiotics, and deconstruction.

**Dismemberment in Drama / Dismemberment of Drama** Lance Norman, 2021-02-03 *Dismemberment in Drama* is an essay collection which considers the dramatic possibility contained in the images and narratives of dismemberment frequently recurring on the western stage. The Classical Tragedies of Sophocles and Euripides, the Romanticism of Kleist, the surrealism of Artaud, and the contemporary drama of Suzan-Lori Parks and Marina Carr are just some of the fractured and fragmented bodies analyzed in this collection. Both individually and in concert, the contributors ask what a dismembered body means. Such an inquiry allows them to confront dismemberment as a theoretical category which understands such twentieth-century innovations as the Theatre of Cruelty, the Epic Theatre, the Open Theater, and documentary theatre as part of a long dramatic tradition. *Dismemberment in drama* examines the tenuous bond between representation and the object being represented by highlighting the dismemberment of drama as a form that occurs during drama's repeated theorizations of its own enactment. There is a conflict between disintegration and unity inherent in mimesis, theatrical phenomenology, and performance.

*The Inner Scar* Andrew Hussey, 2022-05-16 Since his death in 1962, Georges Bataille has acquired the status of one of the most influential thinkers of the age. The fact that this reputation has been established by the likes of Michel Foucault, Jacques Derrida, Julia Kristeva, and Philippe Sollers appears to confirm Bataille as a precursor of the postmodernist condition. Few contemporary accounts of Bataille's thought have, however, engaged with

those aspects of his thinking which are influenced by his interest in mysticism This is an omission which is all the more striking given that Bataille considered his thought to be not only opposite to all philosophical traditions originating in the Enlightenment but also a form of speculation intricately related to the religious exigencies of the Christian Medieval period This book presents the first major study in English of how Bataille's mystical practices and texts interact with the outer worlds of politics social relations and externalised discourse which Bataille sets up as the antipodes of his inner experience From this starting point Andrew Hussey argues that the inner experience of limits in Bataille's work the movement which he terms transgression is unlike the textual dramas cherished by his postmodernist admirers a non metaphorical even visceral event

Lovell, 2020-11-09 This book presents an interpretation of Maurice Scève's lyric sequence *Dieu objet de plus haulte vertu* Lyon 1544 in literary relation to the *Vita nuova* *Commedia* and other works of Dante Alighieri Dante's subtle influence on Scève is elucidated in depth for the first time augmenting the allusions in *Dieu* to the *Canzoniere* of Petrarch Francesco Petrarca Scève's sequence of dense epigrammatic dizains is considered to be an early example prior to the Pléiade poets of French Renaissance imitation of Petrarch's vernacular poetry in a time when imitatio was an established literary practice signifying the poet's participation in a tradition While the *Canzoniere* is an important source for Scève's *Dieu* both works are part of a poetic lineage that includes Occitan troubadours Guinizzelli Cavalcanti and Dante The book situates Dante as a relevant predecessor and source for Scève and examines anew the Petrarchan label for *Dieu* Compelling poetic affinities emerge between Dante and Scève that do not correlate with Petrarch
