Moore,2013-04-18 Using James Truslow Adams definition of the American dream this book investigates whether black African immigrants in Texas are achieving the American dream Almost all of the study participants Moore interviewed considered America a land of opportunity Additionally most of the black African immigrants definitions of the American dream focused on material aspects Although participants mostly reported that the United States had been good to them they nonetheless felt that they had not yet achieved the American dream Additionally they reported that their lives in the United States had been at best incomplete They also encountered other challenges which mainly reflected the moralistic aspect of the definition of the American dream They reported experiences such as not being fully accepted by native born Americans in general and by white Americans in particular being discriminated against and being unappreciated In fact all of these challenges created a sense of marginalization among study participants However aware of the benefits of migration they were willing to endure these challenges Islam and the Blackamerican Sherman A. of black immigrants from Africa the Caribbean South America and Europe These epic migrations have made and remade African American life Ira Berlin's magisterial new account of these passages evokes both the terrible price and the moving triumphs of a people forcibly and then willingly migrating to America In effect Berlin rewrites the master narrative of African America challenging the traditional presentation of a linear path of progress He finds instead a dynamic of change in which eras of deep rootedness alternate with eras of massive movement tradition giving way to innovation The culture of black America is constantly evolving affected by and affecting places as far away from one another as Biloxi Chicago Kingston and Lagos Certain to garner widespread media attention The Making of African America is a bold new account of a long and crucial chapter of American history
