Filial Obsessions P. Steven Sangren,2017-03-13 This book employs a broad analysis of Chinese patriliney to propose a distinctive theoretical conceptualization of the role of desire in culture It utilizes a unique synthesis of Marxian and psychoanalytic insights in arguing that Chinese patriliney is best understood as simultaneously a mode of production of desire and as instituted fantasy The argument advances through discussions and analyses of kinship family gender filial piety ritual and especially mythic narratives In each of these domains P Steven Sangren addresses the complex sentiments and ambivalences associated with filial relations Unlike most earlier studies which approach Chinese patriliney and filial piety as irreducible markers of cultural difference Sangren argues that Chinese patriliney is better approached as a topic of critical inquiry in its own right

Karl,Peter Zarrow,2020-03-23 The nine essays in this volume reexamine the hundred days in 1898 and focus particularly on the aftermath of this reform movement Their collective goal is to rethink the reforms not as a failed attempt at modernizing China but as a period in which many of the institutions that have since structured China began Among the subjects covered are the reform movement the reformers newspapers education the urban environment female literacy the new woman citizenship and literature All the contributors urge the view that modernity must be seen as a conceptual framework that shaped the Chinese experience of a global process an experience through which new problems were raised and old problems rethought in creative inventive and contradictory ways

China Marches West Peter C Perdue,2009-06-30 From about 1600 to 1800 the Qing empire of China expanded to unprecedented size Through astute diplomacy economic investment and a series of ambitious military campaigns into the heart of Central Eurasia the Manchu rulers defeated the Zunghar Mongols and brought all of modern Xinjiang and Mongolia under their control while gaining dominant influence in Tibet The China we know is a product of these vast conquests Peter C Perdue chronicles this little known story of China s expansion into the northwestern frontier Unlike previous Chinese dynasties the Qing achieved lasting domination over the eastern half of the Eurasian continent Rulers used forcible repression when faced with resistance but also aimed to win over subject peoples by peaceful means They invested heavily in the economic and administrative development of the frontier promoted trade networks and adapted ceremonies to the distinct regional cultures Perdue thus

illuminates how China came to rule Central Eurasia and how it justifies that control what holds the Chinese nation together and how its relations with the Islamic world and Mongolia developed He offers valuable comparisons to other colonial empires and discusses the legacy left by China's frontier expansion The Beijing government today faces unrest on its frontiers from peoples who reject its autocratic rule At the same time China has launched an ambitious development program in its interior that in many ways echoes the old Qing policies China Marches West is a tour de force that will fundamentally alter the way we understand Central Eurasia Routledge Handbook of Religions in Asia Bryan Turner, Oscar Salemink, 2014-09-25 The Routledge Handbook of Religions in Asia provides a contemporary and comprehensive overview of religion in contemporary Asia Compiled and introduced by Bryan S Turner and Oscar Salemink the Handbook contains specially written chapters by experts in their respective fields The wide ranging introduction discusses issues surrounding Orientalism and the historical development of the discipline of Religious Studies It conveys how there have been many centuries of interaction between different religious traditions in Asia and discusses the problem of world religions and the range of concepts such as high and low traditions folk and formal religions popular and orthodox developments Individual chapters are presented in the following five sections Asian Origins religious formations Missions States and Religious Competition Reform Movements and Modernity Popular Religions Religion and Globalization social dimensions Striking a balance between offering basic information about religious cultures in Asia and addressing the complexity of employing a western terminology in societies with radically different traditions this advanced level reference work will be essential reading for students researchers and scholars of Asian Religions Sociology Anthropology Asian Studies and Religious Studies

development the other implies that China is an authoritarian regime that has always been subject to autocratic power in which citizens and citizenship play a limited role This volume negates both assumptions On the one hand it shows that China has its own unique and rich experiences of the emergence development rights obligations acts culture education and sites of citizenship indicating the need to widen the scope of citizenship studies to include non Western societies On the other hand it aims to show that citizenship has been a core issue running through China's political development since the modern period urging scholars to bring citizenship into consideration in the study of Chinese politics This Handbook sets a new agenda for citizenship studies and Chinese politics Its clear accessible style makes it essential reading for students and scholars interested in citizenship and China studies

Empire and Local Worlds Mingming Wang, 2017-03-02 Mingming Wang one of the most prolific anthropologists in China has produced a work both of long term historical anthropology and of broad social theory In it he traces almost a millennium of history of the southern Chinese city of Quanzhou a major international trading entrepot in the 13th century that declined to a peripheral regional center by the end of the 19th century But the historical trajectory understates the complex set of interrelationships between local structures and imperial agendas that played out over the course of centuries and dynasties Using urban structure documentary analysis and archaeological artifacts Wang shows how the study of Quanzhou represents a Chinese template for civilizational studies one distinctly different from Eurocentric models propounded by such theorists as Sahlins Wolf and Elias

An Anthropological Inquiry into Confucianism Guo Wu, 2022-03-24 An Anthropological Inquiry into Confucianism provides a chronological historicized reappraisal of Confucianism as a belief system and a way of life that revolves around three key concepts ritual Li emotion qing and rational principle li Instead of examining all pertinent concepts of Confucianism the book focuses on how Confucian thinkers grappled with these three words and tried to balance them throughout multiple dynasties and by polemics an practice performing rites in daily life Informed by the theory and perspectives of anthropology Guo Wu revisits the origin of Confucianism and treats it as part of the legacy of pre textual worshipping and funerary rites which are incorporated recorded and interpreted by Confucians An anthropological angle continues to flesh out the extant Confucian classics by reinterpreting the parts concerning the human human human animal and human sacred objects relations Modern anthropological studies are referenced to showed how Confucian ritualism permeated to the lifeworld of Chinese villages since the Song dynasty and revived in Ming Qing dynasties along with a resurgent interest in the expression of human emotions which had an inherent tension with Heavenly rational principle The book concludes that the Confucian balancing of the triad continues into the 21st century along with its revival in China
