Of Cargoes Colonies And Kings Diplomatic And Administrative Service From Africa To The Pacific:

Of Cargoes, Colonies and Kings Andrew Stuart, 2004-09-24 *Of Cargoes Colonies and Kings* gives an offbeat account of Andrew Stuart's wide ranging experiences. Never a stereotypical colonialist as the son of a missionary he knew the people, the politicians and the kings of Uganda from his childhood and worked with them until 1965, four years after independence when he joined the British Diplomatic Service. As a diplomat before ending up as British Ambassador to Finland he was soon drawn back into the closing stages of the British Empire. The end of empire in British and French territories from Africa to the Pacific, the rise of China to near superpower status and the opening of political fissures on the Indian subcontinent all are themes of global and enduring importance. Andrew Stuart's eventful career as a colonial administrator and diplomat took place against this international backdrop.

Gender, Violence and Criminal Justice in the Colonial Pacific Kate Stevens, 2022-12-29 Centering on cases of sexual violence, this open access book illuminates the contested introduction of British and French colonial criminal justice in the Pacific Islands during the late 19th and early 20th centuries, focusing on Fiji, New Caledonia and Vanuatu, New Hebrides. It foregrounds the experiences of Indigenous Islanders and indentured laborers in the colonial court system, a space in which marginalized voices entered the historical record. Rape and sexual assault trials reveal how hierarchies of race, gender and status all shaped the practice of colonial law in the courtroom and the gendered experiences of colonialism. Trials provided a space where men and women narrated their own story and at times challenged the operation of colonial law. Through these cases *Gender, Violence and Criminal Justice in the Colonial Pacific* highlights the extent to which colonial bureaucracies engaged with and affected private lives as well as the varied ways in which individuals and communities responded to such intrusions and themselves reshaped legal practices and institutions in the Pacific. With bureaucratic institutions unable to deal with the complex realities of colonial lives, Stevens reveals how the courtroom often became a theatrical space in which authority was performed, deliberately obscuring the more complex and violent practices that were central to both colonialism and colonial law making. Exploring the intersections of legal pluralism and local pragmatism across British and French colonialization in the Pacific, this book shows how island communities and early colonial administrators adopted diverse and flexible approaches towards criminal justice, pursuing alternative forms of justice ranging from unofficial courts to punitive violence in order to deal with cases of sexual assault. Winding up the British Empire in the Pacific Islands W. David McIntyre, 2016-11-24 Little has been written about when, how and why the British Government changed its mind about giving independence to the Pacific Islands. Using recently opened archives, *Winding Up the British Empire in the Pacific Islands* gives the first detailed account of this event. As Britain began to dissolve the Empire in Asia in the aftermath of the Second World War, it announced that there were some countries that were so small, remote and lacking in resources that

they could never become independent states However between 1970 and 1980 there was a rapid about turn Accelerated decolonization suddenly became the order of the day Here was the death warrant of the Empire and hastily arranged independence ceremonies were performed for six new states Tonga Fiji Solomon Islands Tuvalu Kiribati and Vanuatu The rise of anti imperialist pressures in the United Nations had a major role in this change in policy as did the pioneering examples marked by the release of Western Samoa by New Zealand in 1962 and Nauru by Australia in 1968 The tenacity of Pacific Islanders in maintaining their cultures was in contrast to more strident Afro Asia nationalisms The closing of the Colonial Office by merger with the Commonwealth Relations Office in 1966 followed by the joining of the Commonwealth and Foreign Offices in 1968 became a major turning point in Britain s relations with the Islands In place of long nurtured traditions of trusteeship for indigenous populations that had evolved in the Colonial Office the new Foreign Commonwealth Office concentrated on fostering British interests which came to mean reducing distant commitments and focussing on the Atlantic world and Europe

A Political Memoir of the Anglo-French Condominium of the New Hebrides Keith Woodward,2014-10-22 Keith Woodward has produced an inside account of the intricacies of official politics in the latter stages of the history of the Anglo French Condominium of the New Hebrides which will be essential reading for anyone interested in the colonial period of Vanuatu Woodward spent 25 years in the New Hebrides 1953 to 1978 based in the British Residency and it is his long service which makes his memoir so informative and important Following a fascinating and insightful description of Port Vila and the New Hebrides when he arrived in the 1950s Woodward focuses the rest of his memoir on issues relating to the difficulties the British faced in convincing the French that the two powers should come to an agreement on decolonisation of the New Hebrides that is to establish a process of constitutional advancement leading ultimately to independence Howard Van Trease Honorary Research Fellow Emalus Campus University of the South Pacific Port Vila This is a highly original evocative and engaging memoir which offers an insightful firsthand account of colonial administration bilateral French and British relations political change and decolonisation in Vanuatu It addresses some lacunae in the historiography of Vanuatu and dispels a number of assumptions about French intentions there It will be of great benefit to people interested in Vanuatu and more broadly in political change in the Pacific constitutional arrangements decolonisation French British relations and particularly the divergent colonial policies of France and the United Kingdom Gregory Rawlings Anthropology University of Otago

Let There Be Light Mark L. Clifford,2023-07-18 The remarkable success of twentieth century Hong Kong was driven by electricity The British colony s stunning export driven economic growth its status as a Cold War capitalist dynamo its energetic civil society its alluring

urban modernity all of these are stories of electricity's transformative power. *Let There Be Light* is a groundbreaking history of electrification in Hong Kong. Mark L. Clifford traces how a power company and its visionary founder jumpstarted Hong Kong's postwar economic rise and set in motion far-reaching political and social change against the backdrop of Hong Kong's shifting relations with the People's Republic of China and the United Kingdom. Clifford examines avowedly laissez-faire Hong Kong's attempt to nationalize electricity companies and the longer-term implications of debates over the power supply for citizen activism and the development of civil society, government involvement in tackling housing and other social issues, and state controls on private businesses. Clifford explores the effects of electrification on both grand politics and daily life. In the geopolitical struggle of the Cold War, Hong Kong became an explicitly anti-Communist showcase of production and consumption. Its bright lights and neon signs stood in contrast to the darkness and drabness of neighboring China. Electricity transformed people's everyday lives, allowing children to study at night, streets to be lit, and shops in a self-consciously commercial mecca to stay open late. Offering new perspectives on twentieth-century Hong Kong, *Let There Be Light* reveals electricity as a catalyst of modernization.

[The End of Empire in Uganda](#) Spencer Mawby, 2020-05-14 The negative legacy of the British empire is often thought of in terms of war and economic exploitation, while the positive contribution is associated with the establishment of good governance and effective modern institutions. In this new analysis of the end of empire in Uganda, Spencer Mawby challenges these preconceptions by explaining the many difficulties which arose when the British attempted to impose western institutional models on Ugandan society. Ranging from international institutions including the Commonwealth to state organisations like the parliament and army, and to civic institutions such as trade unions, the press, and the Anglican church, Mawby uncovers a wealth of new material about the way in which the British sought to consolidate their influence in the years prior to independence. The book also investigates how Ugandans responded to institutional reform and innovation both before and after independence, and in doing so sheds new light on the emergence of the notorious military dictatorship of Idi Amin. By unpicking historical orthodoxies about 20th-century imperial history, this institutional history of the end of empire and the early years of independence offers an opportunity to think afresh about the nature of the colonial impact on Africa and the development of authoritarian rule on the continent.

[The Iconography of Independence](#) Robert Holland, Susan Williams, Terry Barringer, 2013-09-13 This book explores the phenomenon of Independence Days. These rituals had complex meanings both in the territories concerned and in Britain as the imperial metropole where they were extensively reported in the press. The text is concerned with the political management, associated rhetoric, and iconography of these seminal celebrations. The focus is therefore very much on political culture in a broad sense, and changing perceptions and presentations over time. Highlights of the book include an overview by David Cannadine relating the topic to ornamentalism, invented tradition, and transitions in British culture. Although the book is mainly concerned with the British Empire, Martin Shipway, a leading historian and cultural analyst of French decolonization,

contributes an acute summary of how the same moment was handled differently in the other great European empires There are detailed and lively studies by noted specialists of the immediate coming of Independence to India Pakistan Malaya Ghana Zimbabwe and Guyana The book includes a thematic focus on the important role of representatives of the British monarchy in legitimating transfers of sovereignty at their point of climax This book was published as a special issue of The Round Table
