Of Moment:

Moment to Monument Ladina Bezzola Lambert, Andrea Ochsner, 2015-07-15 Why do certain works of art make it into the canon while others just enjoy a brief moment of recognition if at all How do moments produce monuments and why are monuments erased from our cultural memory in only a moment Taking into account these cultural processes of creating storing remembering and forgetting that are omnipresent and have an immense influence on how we perceive artefacts and cultural events the articles in this collection analyze the phenomenon of cultural production transmission and reception from various angles drawing on approaches from both literary and cultural studies With its transdisciplinary approach this book uniquely responds to an everyday cultural phenomenon that so far has not received such wide ranging attention

Esthetics of the Moment Thomas M. Kavanagh, 1996 Examining a wide array of literary and artistic culture Kavanagh French U of California Berkeley argues that Enlightenment culture and its tensions contradictions and achievements flow from a subversive attention to the present as present freed from the weight of past and future Abundant b **Conditional Moment Estimation of Nonlinear Equation Systems** Joachim Inkermann, 2012-12-06 Generalized method of moments GMM estimation of nonlinear systems has two important advantages over conventional maximum likelihood ML estimation GMM estimation usually requires less restrictive distributional assumptions and remains computationally attractive when ML estimation becomes burdensome or even impossible This book presents an in depth treatment of the conditional moment approach to GMM estimation of models frequently encountered in applied microeconometrics It covers both large sample and small sample properties of conditional moment estimators and provides an application to empirical industrial organization With its comprehensive and up to date coverage of the subject which includes topics like bootstrapping and empirical likelihood techniques the book addresses scientists graduate students and professionals in applied econometrics

Variation of Peak Pitching-moment Coefficients for Six Airfoils as Affected by Compressibility Harold E. Cleary, 1944 Pressure distribution tests of six NACA 16 series propeller sections with 1 foot chords were conducted in the NACA 8 foot high speed tunnel to determine the compressibility effects on peak section pitching moment coefficients The data are presented as curves of peak section pitching moment coefficient against Mach number thickness ratio and camber
