Charles White Sarah Kelly Oehler, 2018-06-19 A revelatory reassessment of one of the most influential American artists of the 20th century Charles White 1918-1979 is best known for bold large scale paintings and drawings of African Americans meticulously executed works that depict human relationships and socioeconomic struggles with a remarkable sensitivity This

comprehensive study offers a much needed reexamination of the artist's career and legacy. With handsome reproductions of White's finest paintings, drawings, and prints, the volume introduces his work to contemporary audiences, reclaims his place in the art historical narrative, and stresses the continuing relevance of his insistent dedication to producing positive social change through art. Tracing White's career from his emergence in Chicago to his mature practice as an artist, activist, and educator in New York and Los Angeles, leading experts provide insights into White's creative process, his work as a photographer, his political activism, and interest in history, the relationship between his art and his teaching, and the importance of feminism in his work. A preface by Kerry James Marshall addresses White's significance as a mentor to an entire generation of practitioners and underlines the importance of this largely overlooked artist. **The Ongoing Moment**

Geoff Dyer, 2009-11-11. Great photographs change the way we see the world. *The Ongoing Moment* changes the way we look at both. Focusing on the ways in which canonical figures like Alfred Stieglitz, Paul Strand, Walker Evans, André Kertész, Edward Weston, Dorothea Lange, Diane Arbus, and William Eggleston have photographed the same things—barber shops, benches, hands, roads, signs—award-winning writer Geoff Dyer seeks to identify their signature styles. In doing so, he constructs a narrative in which these photographers, many of whom never met, constantly encounter one another. The result is a kaleidoscopic work of extraordinary originality and insight. *Photographers of Genius at the Getty*, Weston J. Naef, J. Paul Getty Museum, 2004.

Celebrating 20 years of collecting photographs at the Getty Museum, *Photographers of Genius at the Getty* spotlights the genius of 38 seminal photographers selected from the hundreds of artists represented in the collection. Surrealism, Politics and Culture, Raymond Spiteri, Donald Lacoss, 2020-03-18. This title was first published in 2003. Drawing on literary, art historical, and historical studies, this essay collection explores the complex encounter between culture and politics within Surrealism. The Surrealist movement was one of the first cultural movements to question explicitly the relation between culture and politics, and its attempt to fuse social and cultural revolution has been a critical factor in shaping our sense of modernity. This anthology addresses not only the contested ground between culture and politics within Surrealism itself and within the subsequent historical accounts of the movement, but also the broader implications of this encounter on our own sense of modernity. Its goal is to delineate the role of radical politics in shaping the historical trajectory of Surrealism. *Great News Photos and the Stories Behind Them*, John Faber, 1978-01-01. Seventy historically important news photographs from Civil War times to the nomination of Jimmy Carter are reproduced with a description of the methods used to capture them and the circumstances of the moment.
